

NATIONAL CATALOGUING UNIT

FOR THE ARCHIVES OF

CONTEMPORARY SCIENTISTS

Supplementary catalogue of the papers and  
correspondence of

**Peter Howard Fowler FRS**

(1923-1996)

By Caroline Thibeaud and Timothy E. Powell

NCUACS catalogue no.129/2/04

Title: Supplementary catalogue of the papers and correspondence of Peter Howard Fowler, FRS, (1923-1996), physicist.

Compiled by: Caroline Thibaud and Timothy E. Powell

Date of material: 1960-1988

Extent of material: 13 boxes, 386 items

Deposited in: Special Collections, Arts & Social Sciences Library, University of Bristol

Reference code: GB 0003 DM 1967

The work of the National Cataloguing Unit for the Archives of Contemporary Scientists in the production of this catalogue is made possible by the support of the following societies and organisations:

The Heritage Lottery Fund

The Institute of Physics

The Macro Group UK

The Polymer Physics Group

The National Archives

NOT ALL THE MATERIAL IN THIS COLLECTION MAY YET  
BE AVAILABLE FOR CONSULTATION. ENQUIRIES SHOULD  
BE ADDRESSED IN THE FIRST INSTANCE TO:

SPECIAL COLLECTIONS ARCHIVIST,  
ARTS & SOCIAL SCIENCES LIBRARY,  
UNIVERSITY OF BRISTOL

INDEX OF CORRESPONDENTS		53-54	

## GENERAL INTRODUCTION

### PROVENANCE

The papers were received from Mrs Rosemary Fowler, widow of Professor Fowler, in November 2003.

### OUTLINE OF THE CAREER OF PETER HOWARD FOWLER

For an outline of Fowler's life and career see NCUACS catalogue 115/1/03.

### DESCRIPTION OF THE COLLECTION

This supplementary collection is presented in the order given in the list of contents. It covers the period from 1960 to 1988. It should be consulted in conjunction with the principal body of Fowler papers catalogued as NCUACS 115/1/03.

Section A, Biographical, is the smallest section and includes Fowler's entries in professional registers such as *Who's Who* and press cuttings relating to his research on cosmic rays.

Section B, University of Bristol, includes correspondence, agendas, minutes and reports relating to University departmental committees. There is also material relating to teaching duties, examination and research supervision - including syllabuses, teaching timetables, student questionnaire results and analysis - and correspondence with prospective members of Fowler's Cosmic Rays Study Group.

Section C, Balloon flights, is arranged in chronological order and complements the earlier material catalogued in Fowler NCUACS 115/1/03. The bulk of the material relates to flights made between 1970 and 1975 launched from Palestine in Texas and Sioux Falls in South Dakota, USA. There is also a little material covering the transatlantic flights launched from Milo in Sicily. Documents include correspondence regarding balloon flight arrangements, project proposals, flight reports, copies of papers and lectures.

Section D, Research, mainly covers Fowler's cosmic ray research using balloons, cosmic ray detectors such as BUGS 4 and accelerator facilities including Nimrod and the University of Princeton Accelerator. The material comprises correspondence, proposals and grant applications, research outlines and reports. Other topics covered are the plastic track detector CR39 used to capture cosmic rays and the UK 6, Solar Flare and the Ariel 6 satellite programmes. There is a small sequence on Pi-mesons in cancer treatment.

Section E, Drafts and publications, is not extensive. It is arranged in chronological order from 1964 to 1979 and principally comprises drafts of Fowler's scientific papers, figures, tables and correspondence.

Section F, Lectures, principally relates to Fowler's public lectures, all on the topic of cosmic rays with the exception of his 1971 Rutherford Memorial Lecture on Pi-mesons in cancer treatment. The material comprises drafts, notes and correspondence from 1962 to 1987. There is a little academic teaching material and an Honorary Degree oration at the University of Bristol.

Section G, Visits and conferences, is one of the larger sections and complements previous material in NCUACS 115/1/03. It is arranged in chronological order from 1964 to 1987. Principal visits covered are a visit to the USSR in 1969, the Royal Society of New Zealand Rutherford Memorial Lecture Tour in 1971, a visit to the University of Chicago Enrico Fermi Institute in 1978 and International Union of Pure and Applied Physics International Cosmic Rays Conferences.

Section H, Societies and organisations, forms the largest section of the collection and documents Fowler's involvement with ten UK and international organisations. Bodies covered include the European Space Research Organisation (Fowler was a consultant, 1974-1977), Rolls-Royce plc (early consultancy work 1984-1987), the Royal Society (Fowler served on various British National Committees and there are documents relating to the administration and funding of his Research Professorship) and the Science Research Council (Fowler was involved with a number of committees mainly concerned with astronomy and grant allocation).

Section J, Correspondence, is divided into two sequences: an alphabetical sequence arranged by correspondence, and references and recommendations. Dates covered are 1966 to 1987. Correspondents are mainly scientific colleagues and historians of science, although there are no extended exchanges.

There is also an index of correspondents.

## ACKNOWLEDGEMENTS

We should like to thank Mrs Rosemary Fowler for making the material available, her assistance in identifying and clarifying documents and for biographical information on her husband.

Caroline F. Thibeaud

Timothy E. Powell

### Balloon Flights

- /... collaboration with Appleton Laboratory in Slough researched and developed a Transatlantic Balloon Facility. A balloon was launched from Milo in Sicily at the end of July 1975 which landed in the United States.
- C.80 Correspondence. 1973-1976  
Correspondence *re* flight arrangements, research, proposal, congratulations on the success of the operations.  
Documents cover the transatlantic flight as well as later tandem balloon system flights launched from Sioux Falls in late 1975.
- C.81-C.84 Grant application to the Science Research Council. 1974  
Completed application and accompanying documents including tables with comments, figures, typescript draft entitled 'Experimental Results' and manuscript notes written by colleagues.  
4 folders.
- C.85 Copy of a tentative proposal *re* the transatlantic balloon facility and notes on meetings at the Appleton Laboratory. 1973-1974
- C.86 Comments and notes by the Appleton Laboratory and the National Scientific Balloon Facility. 1974-1975
- C.87 Outlines and papers. 1973-1974
- C.88 Draft entitled 'Tandem System for Heavy Long Duration Flights.' c. 1975
- C.89 Press release and other information. 1975-1976  
Includes technical specifications and budget.

Research

- /... 7pp typescript with photocopied photograph.
- Fowler's research concentrated on the measurement of the charge and energy spectrum of the ultra heavy component of the cosmic radiation.
- D.83, D.84 'Princeton Accelerator' Folder so inscribed. 1971-1972
- Correspondence *re* proposal and preparation to use the Princeton accelerator for Fowler's research. Also includes a sheet of proposal information, memorandum and two Princeton Particle Accelerator newsletters.
- Fowler used the Princeton Accelerator to pursue research on the response of emulsion to heavy ions at high energy and investigate nuclear interactions.
- 2 folders.
- D.85 Grant application to the Science Research Council. 1972
- The grant application was to investigate the charge spectrum of cosmic ray particles.
- D.86 'Frascati, European Programme A-HEAO C, B- UK6 from Hovestadt.' Folder so inscribed. 1974
- 4pp typescript entitled 'High Energy Cosmic Ray Experiment, as possible candidate for ESRO Scientific Mission Study.' Also includes a 5pp typescript with figures and photographs entitled 'Cosmic rays summary, Frascati 24 October 1974.'
- D.87-D.97 'BUGS 4.' Folder so entitled. 1977-1986
- BUGS 4 was a large cosmic rays detector and Fowler proposed to measure the charge and energy spectrum of the ultra-heavy cosmic rays.
- D.87-D.90 Correspondence. 1977-1986
- Correspondence *re* the specifications of BUGS 4 and its construction, past and present experiments by Fowler and colleagues, funding, etc.
- 4 folders.

<b>F.67-F.92</b>	<b>CONFERENCE AND PUBLIC LECTURES</b>	
F.67-F.70	Rutherford Memorial Lecture 'Pi Meson Versus Cancer', various venues, 1964.	1962-1965
	See also Fowler catalogue NCUACS 115/1/03 F.15-F.17.	
F.67	Correspondence <i>re</i> invitation to lecture and to publish.	1964-1965
F.68-F.70	Background information.	1962
	3 folders.	
F.71, F.72	'Cosmic ray dose rate at 37,000' with P.J.N. Davison and N.R. Nutt', L.H. Gray Conference, Cambridge, 8-11 April 1969.	1969

Lectures

	8pp typescript draft with figures and tables. 2 folders.	
F.73-F.76	'Orator for Hon. Degrees, 12 July 1972.' Folder so inscribed. University of Bristol Degree Ceremony, 12 July 1972.  Fowler was asked to prepare an oration for honorary graduates Margaret Burbidge and John Burrow.	1972
F.73	Correspondence <i>re</i> request of information on the two Honorary Graduates.	1972
F.74	3pp typescript draft on John Henry Burrow.  Also includes manuscript notes.	1972
F.75	3pp typescript draft on Eleanor Margaret Burbidge.  Also includes manuscript notes.	1972
F.76	Manuscript notes on Ernest Francis from F.C. Frank and addressed to Fowler.  Found with preceding material.	n.d.
F.77	'Nature and fluxes of radiation at high altitudes', Society of Radiological Protection meeting, Imperial College, London, 10 October 1972.  6pp typescript draft with tables and figures.  See also Fowler catalogue NCUACS 115/1/03 F.21.	1972
F.78	Untitled lecture, occasion unknown, Durham, April 1973.  12pp manuscript draft starting: 'Tracks of Ultra Heavy Cosmic Rays were discovered in 1966 by F, W and P in	1973  /...

Lectures

- /... their studies of fossil tracks in meteorites and at the same time in our own balloon experiments using photographic emulsion.'
- F.79 'Ultra heavy cosmic rays', 13th International Cosmic Rays Conference, Denver, Colorado, August 1973. 1973
- 7pp typescript draft with figures and tables.
- See also Fowler catalogue NCUACS 115/1/03 F.22.
- F.80 'The charge spectrum for the cosmic rays', Herstmonceux Conference, undated. ? 1973
- 10pp typescript and manuscript draft.
- See also Fowler catalogue NCUACS 115/1/03 F.22.
- Fowler gave a lecture similarly entitled 'The charge and energy spectrum of ultra heavy cosmic rays primaries' in 1973.
- F.81 'Big balloons for scientific research', public lecture, occasion unknown. ? 1974
- 5pp typescript draft with tables and transparencies.
- F.82 'Ultra heavy cosmic rays', Research Colloquium Oxford, 1 March 1974. 1974
- 5pp manuscript draft.
- F.83 'Current programme in Europe', European Research Organisation Workshop, Frascati, Italy, 1975. 1975
- 6pp typescript draft with figures.
- See also D.86 and Fowler catalogue NCUACS 115/1/03 F.23.

Lectures

- F.84 'The ultra heavy cosmic rays', Interfaculty Scheme of University Lectures in Astronomy, Imperial College, London, 27 November and 4 December 1975. 1975
- Poster advertising the lecture and correspondence *re* payment. See also F.79.
- F.85-F.87 'Cosmic radiation, its significance and its origin', Royal Institution Lecture, London, 26 May 1977. 1977
- See also Fowler catalogue NCUACS 115/1/03 F.27, F.28.
- F.85 Correspondence *re* arrangements and publication in the *Proceedings of the Royal Institution*. 1976-1979
- F.86, F.87 Three typescript drafts. 1977
- 2 folders.
- F.88, F.89 'Ultra heavy cosmic rays', Meeting of the Irish Astronomical Science Group, Armagh, Ireland, 2 April 1985. 1985
- Correspondence and 11p typescript lecture notes with tables and figures.
- The material was found in a folder entitled 'Talks Dublin and Armagh 1 and 2 April 1985' suggesting the lecture was also delivered in Dublin.
- 2 folders.
- F.90 'Colloq Pi-Meson discoveries', International Conference to Celebrate the 40th Anniversary of the Discovery of the Pi - Meson, University of Bristol, 22-24 July 1987. 1987
- 9pp manuscript draft.
- See also Fowler catalogue NCUACS 115/1/03 G.20.

**Lectures**

- |      |  |      |
|------|--|------|
| F.91 | Untitled lecture starting 'the story of my belonging to Cecil Powell's group on the 4th floor of the Royal Fort occurred in 1941 when as a student I did microscope work on nuclear physics using the photographic method.' occasion unknown, undated. | n.d. |
|      | 5pp manuscript lecture note draft.   |      |
| F.92 | Untitled, occasion unknown.  | n.d. |
|      | 4pp typescript lecture notes starting 'In this talk I plan to discuss briefly the research we are doing and hope to do in the coming years in the field of Astrophysics and Particle Physics.'   |      |

SECTION G	VISITS AND CONFERENCES, G.33-G.96	1964-1987
G.33-G.37	<p>'Aldermaston Meeting on Tuesday October 27th 1964. In AWRE, Aldermaston, room 23 at 11am.' Folder so inscribed.</p> <p>Documents presented at the meeting including agenda of the meeting and list of visitors. Includes interim reports entitled: 'Measurement of galactic cosmic radiation at solar minimum 1964', 'Collection of radiation data in commercial aircraft, June to September 1964' and a report with figures on the 1964 balloon flights at Fort Churchill, Manitoba, Canada.</p> <p>The Aldermaston meeting was a joint RAE/Atomic Weapons Research Establishment (AWRE) meeting on stratospheric radiation hazard.</p> <p>5 folders.</p>	1964
G.38	<p>International Union of Pure and Applied Physics Conference on Cosmic Rays, Imperial College, London, September 1965.</p> <p>Letter and 2pp preface to the proceedings of the conference.</p>	1965
G.39-G.44	<p>Visit to Chicago, USA, 2-15 December 1967.</p> <p>Fowler visited Chicago to attend the International Commission on Radiation Units (ICRU) task group on energy accelerators and space radiation dosimetry. This task group was concerned with the standardisation of dosimetry of radiation fields associated with high energy accelerators and cosmic radiations.</p> <p>He was also invited to lecture on cosmic rays at the University of California in Berkeley and visited the National Center of Atmospheric Research at Boulder, Colorado to prepare a balloon flight.</p>	1967-1973
G.39, G.40	<p>Correspondence <i>re</i> arrangements and payments for seminars.</p> <p>2 folders.</p>	1967-1968

### Visits and Conferences

- |            |   |            |
|------------|---|------------|
| G.41       | List of participants of ICRU and list of link organisations.  | 1967, 1973 |
| G.42       | 5pp typescript draft on cosmic rays.  | 1967       |
| G.43       | Travel expenses.  | 1967       |
| G.44       | Background information on the National Center for Atmospheric Research computing facility in 1967.  | 1967       |
| G.45       | Conference on Chemical Composition of Cosmic Rays Cambridge, 16-19 July 1968.<br><br>Correspondence <i>re</i> arrangements. Also includes a preliminary list of delegates and preliminary programme.  | 1967-1968  |
| G.46-G.48  | Visit to Moscow, February-March 1969.<br><br>Fowler was first invited to visit the USSR in 1968 but had to decline due to other commitments. He visited the Soviet Union for 5 weeks between 21 February and March 1969. He may also have visited Poland. | 1965-1969  |
| G.46, G.47 | Correspondence <i>re</i> arrangements.<br><br>2 folders.  | 1968-1969  |
| G.48       | General information on the USSR from the Royal Society.<br><br>Also includes reports of scientists' visit to the USSR from J.W. Dungey, D. Shoenberg, S.A. Dunne and T.J.G. Francis.  | 1965-1967  |

| G.69 | International Conference on Elementary Particles, Palermo, Italy, 23-28 June 1975.                             | 1975 |
|      | Correspondence <i>re</i> suggested participants.   |      |
| G.70 | 5th European Cosmic Ray Symposium, Leeds, 14-17 September 1976.  | 1976 |
|      | Correspondence <i>re</i> arrangements.   |      |

### Visits and Conferences

- |      |  |                   |
|------|--|-------------------|
| G.71 | <p>Space Science Department internal seminars, European Space Research and Technology Centre, Noordwijk, The Netherlands, 29 April 1977.</p> <p>Correspondence <i>re</i> arrangements.</p> <p>Fowler lectured on High Z Cosmic Rays.</p>   | 1976-1977         |
| G.72 | <p>7th International Conference on Amorphous and Liquid Semiconductors, Edinburgh, 27 June-1 July 1977.</p> <p>Correspondence <i>re</i> arrangements.</p>  | 1977              |
| G.73 | <p>15th International Cosmic Rays Conference, Plovdiv, Bulgaria, 13-26 August 1977.</p> <p>Correspondence <i>re</i> arrangements.</p>  | 1977              |
| G.74 | <p>Visit to the University of Chicago Enrico Fermi Institute, January 1978?</p> <p>Correspondence <i>re</i> Fowler's invitation. Also includes announcements on the workshop on high energy neutrino astronomy.</p> <p>See also Fowler catalogue NCUACS 115/1/03 G.11.</p> <p>Fowler was invited to be Distinguished Visiting Professor at the Enrico Fermi Institute and Department of Physics of the University of Chicago for a term. He decided to visit for a duration of six weeks only. He lectured at the Fermi Institute on High Heavy Cosmic Rays.</p> | 1978              |
| G.75 | <p>British Nuclear Energy Society International Conference on Radiation Protection in Nuclear Plants and the Fuel Cycle, Bristol, 27 November-1 December 1978.</p> <p>Correspondence <i>re</i> arrangements.</p>   | 1978              |
| G.76 | <p>IUPAP International Cosmic Rays Conference, Kyoto, Japan, 6-18 August 1979.</p>   | 1978-1979<br>/... |

### Visits and Conferences

- /... Correspondence *re* travel grant, list of invited delegates and chairmanship. Also includes travel information and first circular of the conference.
- Fowler chaired the Nuclear Composition session.
- G.77 Conference on Origin of Cosmic Rays, International Union of Pure and Applied Physics/International Astronomical Union, Bologna, Italy, 11-14 June 1980. 1980
- Letter *re* arrangements and provisional programme.
- Fowler lectured on heavy cosmic rays.
- G.78 COSPAR Workshop on Needs for International Scientific Balloon Launching Facilities in the Southern Hemisphere, Buenos Aires, Argentina, 23-26 March 1981. 1981
- Letter *re* balloon flights and list of participants. Also includes a report of the Panel on Technical Problems and a joint report on the conference by Fowler and Dr D. Ramsden.
- Fowler introduced the first session on the range of experiments needed to set up the Southern Hemisphere facilities.
- G.79 11th International Conference on Solid State Nuclear Track Detectors, University of Bristol, 7-12 September 1981. 1981
- Correspondence *re* invitation, request for funding and organisation of the conference.
- See also Fowler catalogue NCUACS 115/1/03 G.14.
- Fowler was chairman of the conference.
- G.80 Visit to the Lawrence Radiation Laboratory, University of California, Berkeley, USA, January 1983. 1983
- Letter *re* purpose of Fowler's visit.
- Fowler carried out experiments at the laboratory on photographic emulsion.

### Visits and Conferences

- |           |   |           |
|-----------|---|-----------|
| G.81      | Conference on Cosmic Rays and High Energy Gamma Ray Experiments for the Space Station ERA, Louisiana State University, Baton Rouge, USA, 17-20 October 1984.<br><br>Conference information.   | 1984      |
| G.82      | International Symposium on Particle Physics in the 1950's: Pions to Quarks, Fermi National Accelerator Laboratory, Batavia, Illinois, USA, 1-4 May 1985.<br><br>Invitation.   | 1985      |
| G.83-G.85 | 19th IUPAP International Conference on Cosmic Rays, La Jolla, California, USA, 11-23 August 1985.<br><br>Fowler attended the conference. He appears to have lectured on 'Ariel 4 measurements of ultra-heavy cosmic ray fluxes in the region $34 < Z < 48$ .' | 1984-1985 |

**SECTION H                      SOCIETIES AND ORGANISATIONS, H.347-H.444                      1967-1988**

- H.347-H.353      EUROPEAN SPACE RESEARCH ORGANISATION
- H.354              HERSCHEL HOUSE TRUST
- H.355, H.356      INTERNATIONAL UNION OF PURE AND APPLIED PHYSICS
- H.357              MEDICAL RESEARCH COUNCIL
- H.358-H.376      ROLLS ROYCE
- H.377              ROYAL ASTRONOMICAL SOCIETY
- H.378-H.418      ROYAL SOCIETY
- H.419              SCIENCE AND ENGINEERING RESEARCH COUNCIL
- H.420-H.443      SCIENCE RESEARCH COUNCIL
- H.444              UNIVERSITY OF EDINBURGH

**H.347-H.353                      EUROPEAN SPACE RESEARCH ORGANISATION                      1972-1977**

Fowler was appointed for a series of consultancies at the European Space Research Organisation (ESRO). His first appointment was in 1974 to 'define the scientific mission and the model payload of a cosmic ray investigation'. He also investigated 'work related to Superconducting Magnet Facility definition' in 1976 and 1977.

**H.347-H.349                      Correspondence *re* Fowler's series of consultancy appointments, ESRO workshops and meetings arrangements, publication of paper.                      1972-1977**

3 folders.

### Societies and Organisations

- H.350, H.351      Cosmic rays investigation consultancy.      1974
- Fowler's notes and papers on 'High energy cosmic experiments, as possible candidate for ESRO Scientific Mission Study' and 'Some thought concerning priorities in cosmic ray research.'
- Also includes general information on 'the Workshop on research goals for Cosmic Rays Astrophysics in the 1980's' and a paper of the same title.
- 2 folders.
- H.352, H.353      Super Magnet Facility consultancy.      1975
- 2pp typescript entitled 'Some thoughts about the use of and critical features in the magnetic facility', and 'Report on the short study made to assess the possible development of a superconducting magnet facility for cosmic ray studies on spacelab.'
- Also includes the minutes of the first meeting of Definition Team and various tables of results.
- 2 folders.
- H.354      **HERSCHEL HOUSE TRUST**      **1987-1988**
- Correspondence *re* deed and trustees. Also includes a copy of the deed.
- See also Fowler catalogue NCUACS 115/1/03 H.2-H.45.
- Fowler was asked to represent the Royal Society at the meetings of the trustees.
- H.355, H.356      **INTERNATIONAL UNION OF PURE AND APPLIED PHYSICS (IUPAP)**      **1984-1985, 1988**
- Includes a list of IUPAP delegates for 1987-1990, nomination form for Fowler (title not supplied), lists of IUPAP conferences between 1985 and 1987 and news bulletin.

**Societies and Organisations**

See also Fowler catalogue NCUACS 115/1/03 H.69-H.77.

**H.357**                      **MEDICAL RESEARCH COUNCIL**                      **1981**

Correspondence *re* invitation to serve on subcommittee to appoint the Director of the Council's Radiobiology Unit at Harwell. Fowler declined the invitation.

**H.358-H. 376**                      **ROLLS ROYCE**                      **1984-1988**

The following material relates to Fowler's consultancy work on 'Non-invasive measurement of temperature of a moving item by means of neutron beams.'

See also Fowler catalogue NCUACS 115/1/03 H.208-H.222.

**H.358**                      Correspondence *re* patent application.                      **1984-1985**

Fowler applied for a patent for the measurement of temperature using epithermal neutrons.

**H.359**                      'Neutron Corresp 1984.' Folder so entitled.                      **1984-1987**

Correspondence *re* Fowler's consultancy. Also includes correspondence *re* a patent application. See also H.358.

**H.360**                      Application for support for a preliminary investigation into temperature measurement by neutrons, June 1984.                      **1984**

15pp typescript with figures.

**H.361**                      Interim report on temperature measurement by epithermal neutron absorption.                      **c.1984**
