GENERAL INTRODUCTION

PROVENANCE

The papers were received for cataloguing from the John Rylands University Library of Manchester in May 2004.

OUTLINE OF THE CAREER OF EDGAR MORTON

Edgar Morton was born at Timperley, Cheshire, on 28 December 1898. He was educated privately. During the First World War he served with the Royal Flying Corps. In 1919 Morton entered the Victoria University of Manchester, studying geology and graduating B.Sc. in 1922. He undertook postgraduate research in the department (M.Sc. 1924) and in 1923 he was appointed Special Lecturer in Engineering Geology. Morton remained on the staff of Manchester University, mainly in a part-time or special capacity from 1923 to retirement in 1966, pioneering courses in applied geology for civil engineering students. He was made Reader in Applied Geology in 1963.

Morton was a student at a time when the Manchester geology department was still under the influence of Sir William Boyd Dawkins, Professor of Geology 1872-1908. Boyd Dawkins was the pioneer of engineering geology in Britain and through his consultancies had done much to forge links between geology and industry. He was still active in the 1920s and Morton worked with him on a number of projects. On Boyd Dawkins' death in 1929 Morton established his own consultancy in engineering geology. From the establishment of his practice to his death, Morton undertook well over 500 projects, and the company he created, Edgar Morton and Partner, continued into the 1990s.

Morton had considerable ability in analysing the physical and microscopical properties of stone and the relation of these properties to the behaviour of stone in roads and buildings. He was a pioneer in this subject, amassing a great deal of factual data as well as a valuable collection of rock specimens from all over the British Isles, now housed in the Manchester Museum. His professional advice was sought by quarrying companies anxious to establish the qualities of their rocks for building and other purposes. His growing reputation in this area led to service on technical committees of the Ministry of Transport and the British Standards Institution advising on standards for road and kerb stones. Morton was also consulted in relation to silicosis. From 1929 legislation required quarries to pay compensation to workers affected by the disease and the Sandstone Industries Compensation Fund was established for this purpose. Morton analysed samples of stone and gave advice to the Fund and individual quarry owners on their liability.

Many of Morton's principal consultancies arose from his expertise in hydrogeology. He was involved

in numerous major water schemes undertaken in Britain in the mid-twentieth century, being concerned to various degrees with more than 150 dams and reservoirs, including those at Grimwith in Yorkshire, the Roadford, Colliford and Wimbleball reservoirs in the south west of England, the Carsington reservoir in Derbyshire and many others. He also specialised in the problems of underground water (including the legal implications) and throughout his career gave advice on boreholes for public, private and industrial water supplies. Morton's consultancies also included advising on an extensive range of foundation, stability and construction problems, such as road construction, subsidence resulting from coal mining and salt extraction, land stability for sewerage schemes and refuse disposal, and site assessments for power plants and housing developments. He continued to advise on planning issues and mineral workings, in particular in his capacity as Geological Adviser to Cheshire County Council. In 1952 P.W. Rowe joined the University of Manchester from St Andrew's, and Morton invited him to work with him in his consultancy as adviser in soil mechanics.

In addition to his university lecturing duties, Morton gave many public and invitation lectures to a wide variety of audiences. His publications output was closely related to his professional interests and he wrote a number of technical papers arising from his work. His final paper, 'A review of the influence of geology on the design and construction of impounding dams', *Journal of the Institution of Water Engineers*, vol. 27 (1973), presented at the Summer Meeting of the Institution in 1973, won him the Institution's Whitaker Medal (awarded posthumously). Morton also gave evidence as an expert witness in arbitration and legal cases, including the Inquiry into the 1966 Aberfan disaster at which Morton acted for the National Union of Teachers.

Morton was a member of the Institution of Water Engineers from 1928 and was elected an Honorary Member in 1971 (Whitaker Medal 1973). In 1954 he became an Associate (subsequently Companion) of the Institution of Civil Engineers. He was an Honorary Member of the Institute of Quarrying from 1931, and a member of the British Waterworks Association.

Morton's interests in geology, soil mechanics and geochemistry were of long standing but he was always open to new ideas and their application. He was direct and straightforward in his lectures, with a very practical approach - his audiences greatly appreciated his use in lectures of numerous drawings relating to work on which he was actually engaged. Morton's extensive knowledge and untiring enthusiasm for engineering geology greatly benefited the water engineering profession, while his contribution to teaching at Manchester was recognised by the endowment of the Edgar Morton Prize awarded annually to the top final year student in geotechnical subjects. Morton had a great love for the Highlands and Islands of Scotland, and had a cottage on the Isle of Skye. He died on 21 November 1973 in the Royal Northern Infirmary in Inverness.

DESCRIPTION OF THE COLLECTION

The material is presented as shown in the List of Contents. Morton left a very substantial archive that comprehensively documents his own work as a consulting engineering geologist from the late 1920s to his death in 1973, and also the work of his company Edgar Morton and Partner which continued to practice into the 1990s. This archive thus includes considerable material relating to work undertaken by his colleagues C.W. Isherwood and P.W. Rowe and should be consulted in particular alongside the archive of Rowe, previously catalogued for the John Rylands Library as GB 0133 PWR (NCUACS no. 132/4/04). There is also significant material of Morton's mentor at Manchester, Sir William Boyd Dawkins (papers catalogued for the John Rylands Library in 1992 as GB 0133 WBD). Together the Morton, Rowe and Dawkins archives constitute a source of national importance for the history of geotechnical science and civil engineering in the late nineteenth and twentieth centuries.

The Morton archive received a preliminary outline listing in 1992 by T. Procter at the John Rylands Library, and the arrangement of the archive has largely followed the organisation set out in that list.

Section EM/1, Biographical, is slight. There is a little information about Morton's life and work but the largest group of material (EM/1/C) relates to Morton's lakeside bungalow and property at Rudyard Lake, Staffordshire, which he acquired in the mid 1920s. There is also a little material relating to Morton's professional affiliations, chiefly with Institution of Water Engineers.

Section EM/2, Notes and drafts, chiefly comprises drafts and associated material for lectures and publications by Morton. There are notes for his university and evening course lectures at Manchester in engineering geology and applied geology for engineering students. These incorporate notes taken by Morton as an undergraduate, lectures by and correspondence to Boyd Dawkins and other earlier material (EM/2/A). The section also presents draft chapters prepared for an intended text book on 'Engineering Geology' (EM/2/B) and material assembled by Morton for his D.Sc. application (EM/2/C). Morton's widespread lecturing and writing activities outside the University are well documented. In the 1920s and 1930s Morton frequently attended meetings of the British Waterworks Association, often presenting papers at them. The files at EM/2/D include documentation of Morton's contributions to the meetings (both in terms of papers and discussion). Other lectures and publications are documented in a sequence of lectures, talks and publications material 1925-1954 (EM/2/E). Audiences for lectures ranged from local bodies such as the Manchester Microscopical Society and professional societies such as the Institution of Civil Engineers, to national trade organisations including the Central Association of the Lime and Limestone Industry of Great Britain. Publications of note include a series of articles on building stone for *The Quarry Managers' Journal* in the early 1930s and contributions to *The Water Engineer's Handbook & Directory* 1932-1938. Also documented in this section are two radio broadcasts from 1925 and 1926: 'What a water tap means' and 'Cave hunting in Derbyshire'.

Section EM/3, Consultancies, is the largest in the collection. It offers extensive documentation following, in varying degrees of detail, the development of Morton's consultancy work from the 1920s. The section includes work carried out by the company Morton established, Edgar Morton and Partner, which continued in practice after his death in 1973 and covers work undertaken into the early 1990s. It is divided into four subsections: Public Water Supply; Private Water Supply; Foundation, Stability and Construction Problems; and Planning and Mineral Workings.

Public Water Supply (EM/3/1-225) covers Morton's extensive consultancy work on public water supply projects in Britain. It comprises files relating to over two hundred public water supply projects with which Morton (and his company Edgar Morton and Partner) was involved as a geotechnical engineering consultant. Morton was working at a time when the water industry in Britain was required to meet a rapidly increasing need for assured supplies of water for domestic and industrial use. After the Second World War local authorities had been given greater powers to build and extend reservoirs and search for potential new sources of supply. Morton and his company, Edgar Morton and Partner, were much in demand in advising on public water supply. He himself was involved with more than 150 dams and reservoirs throughout Britain, many being long-term projects with Morton advising on different aspects of investigation, design, construction, litigation and site monitoring over many years. The largest bodies of material relate to the construction and development of Grimwith Reservoir for the Bradford Corporation Waterworks (later Yorkshire Water Authority); the Roadford, Colliford and Wimbleball Reservoirs (South West Water Authority); and the Foremark Reservoir and Carsington Reservoirs (Severn Trent Water Authority). Significant amounts of material occur also for the Isle of Man Water Board (Sulby Reservoir and Druidale Scheme, and others), the North West Water Authority, the Staffordshire Potteries Water Board, St Helens Corporation, Buckinghamshire Water Board, Nottingham Corporation, Portsmouth and Gosport Water Company, North Devon Water Board (the Meldon Reservoir Scheme) and the City of Cardiff Corporation Waterworks (Llandegfedd Scheme).

Not all the public water supply projects for which Morton was acting involved reservoirs and dams. Morton was also concerned in the construction of pumping stations, sewage works, water treatment works and other such water supply projects. Morton gave advice to many local authorities on water sources, often subterranean, for augmenting the public water supply, protection of gathering grounds, new well sites, etc., and advised on borehole licence applications. The majority of the material dates from the 1930s to the early 1990s, although in some cases, where a related project or the same local authority was involved, the working papers incorporate earlier Boyd Dawkins material, dating from the late nineteenth and early twentieth centuries and used for background engineering and geological information. Others represented in the papers include colleagues in his consultancy, P.W. Rowe, C.W. Isherwood and J. Scriven.

While most of Morton's hydrogeological work was concerned with public water supply, he also acted as a consultant for private cases, from the supply of drinking water to individual farms to the industrial

scale water requirements of major companies such as Imperial Chemical Industries and Whitbread. These Private Water Supply cases are presented at EM/3/226-EM/3/404. The bulk of the material relates to Morton's support in applications to bore for water under section 14 of the Water Act, or opposition thereto, and to general advice on augmentation of water supply from local sources. Much relates to sites in the north-west of England, though there are also cases from the Midlands and southern England. Little of the material post-dates Morton's death in 1973, although there is significant material 1978-1991 relating to water supply to British Nuclear Fuels Chapelcross Power Station.

Foundation, Stability and Construction Problems (EM/3/405-EM/3/588) presents a wide range of consultancy activities of Morton and Edgar Morton and Partner principally focused on issues of site assessment. There is a considerable variety of client and project, although there is a geographical concentration in the English counties of Lancashire and Cheshire and in North Wales. Projects include cases of subsidence, both resulting from coal mining and salt extraction; sewerage schemes, particularly relating to land stability; suitable sites for refuse disposal; power plant developments, fossil fuel and nuclear; and housing developments. There is particularly voluminous coverage of Edgar Morton and Partner's involvement with the Scottish engineering company Babbie Shaw and Morton's work on the A890 Strome Ferry by-pass, a particularly challenging engineering feat which was to require ongoing inspection and remedial work (documented to 1996), and the M90 motorway. Work was also undertaken for a number of public authorities. Those best represented are the British Electricity Authority/Central Electricity Generating Board (site investigations and ash disposal for power stations), Lancashire County Council (M62 motorway), Manchester Regional Hospital Board and the North West Gas Board (Bradford Road gasworks in Manchester and other sites). Also of note is material relating to Trinidad Leaseholds, investigating possible oil storage sites immediately prior to and during the early years of the Second World War, and the Inquiry into the 1966 Aberfan disaster. Edgar Morton and Partner material postdating Morton's death includes, for example, projects undertaken for the North West Water Authority (site stability at Giant's Seat, near Bolton), Rhuddlan Borough Council (main drainage scheme), UK Atomic Energy Authority (geological implications of sites for nuclear waste) and the Welsh Water Authority (Bangor sewerage scheme). As well as such large-scale, concerns Morton also acted for small companies and individuals, including subsidence claims affecting individual homes.

Planning and Mineral Workings (EM/3/589-EM/3/665), the final subsection. It brings together material relating to advice given by Morton (and Edgar Morton and Partner) on planning issues - usually site investigations, planning appeals and public or local inquiries, and consultancies on mineral workings - generally sand, gravel and brine extraction. Much of the material is similar in nature to work undertaken by Morton in the 1920s, 1930s and 1940s documented in section EM/4, Research and minor consultancies. Furthermore, as both planning and mineral workings often impinged on water supply or had site stability implications, so there is considerable overlap with material elsewhere in this section. There is a geographical concentration on Cheshire, as the largest bodies of material relate to

the Cheshire Brine Subsidence Compensation Board and to Cheshire County Council, with advice on brine subsidence problems, planning applications, inquiries and appeals, sand and gravel workings.

Section EM/4, Research interests and minor consultancies, brings together Morton's files on small consultancies not included in EM/3, together with research material. The material has been grouped together by broad area where possible and the section is arranged in an alphabetical sequence. The bulk of the consultancies date from the 1920s and 1930s, with a geographical concentration in the counties of Cheshire, Derbyshire and Lancashire, and many relate to Morton's expertise in determining properties and qualities of stone. Thus there is material relating to Road Stone (EM/4/H) including work for the Ministry of Transport and the British Standards Institute, Silicosis (EM/4/J), mostly relating to Morton's analyses of the silica content of stones, evidence given in silicosis compensation cases and reports for the Sandstone Industries Compensation Fund, and Stone Testing for quarry owners 1927-1964 (EM/4/O). Morton also undertook site investigations, advising quarries and landowners on the geological nature and mineral possibilities of their land (EM/4/K). Other areas covered include the legal background to water supply (EM/4/Q/2), with particular reference to underground water (EM/4/P).

LOCATIONS OF OTHER MATERIAL

Morton's collection of rock specimens is held by the Manchester Museum.

ACKNOWLEDGEMENTS

We are grateful to Miss Catherine Morton (sister) for making the papers available for cataloguing and for the assistance of John Scriven, civil engineer, with geotechnical matters.

Heather Bird

EM/1/B	PERSONAL AND PROFESSIONAL CORRESPONDENCE	1928-1976
---------------	---	------------------

EM/1/B/1	1928-1964
----------	-----------

EM/1 Biographical

Includes correspondence *re* university appointments, 1928-1964, and divorce, 1936.

EM/1/B/2 1957-1960

2 folders.

Correspondence *re* visit of P.L. Paradela, Chief Engineer in the Underground-Water Division of South Portugal, to the UK in 1957.

Morton arranged a programme of visits to water departments of local authorities in England.

Also includes copy of 'A radiestesia na prospeccao de aguas subterraneas' by Paradela, critical of water divining, with English translation.

EM/1/B/3 Correspondence *re* Morton's estate

1974, 1976

EM/1/C **LAKESIDE BUNGALOW AND LAND, RUDYARD LAKE, STAFFORDSHIRE**

1925-1945

9 folders.

This was Morton's holiday home.

The material is the contents of Morton's three envelopes relating to land transactions (rental and purchase), maintenance of the property and dealings with neighbours and local authorities and others.

EM/1/D **PROFESSIONAL AFFILIATIONS**

1934-1974

EM/1/D/1 Institution of Water Engineers

1934, 1960-
1974

4 folders.

Chiefly correspondence *re* General Meetings of the Institution and Morton's contributions to discussions of papers.

EM/1 Biographical

At the 1973 meeting Morton presented a paper 'A review of the influence of geology on the design and construction of impounding dams', for which he was awarded the Institution's Whitaker Medal. He died shortly thereafter and it was bestowed posthumously.

EM/1/D/2	Geological Society of London	1969
	Correspondence with J.L. Knill <i>re</i> Society's Engineering Group Section Report on Logging of Rock Cores. Includes typescript 6th draft of the report.	
EM/1/E	PHOTOGRAPHS AND MEMORABILIA	1931-1972
EM/1/E/2	Contents of Morton's envelope inscribed 'Personal Photos'	1951, n.d.
	Three photographs: two dated 1951, third (group) photograph inscribed on verso 'Centenary of St Helen's Electricity Undertaking'.	
EM/1/E/2	Chiefly relating to Morton's motor cars	1931-1939
EM/1/E/3	Newspaper cuttings relating to geology, water supply and engineering, town and country planning	1945-1972

SECTION EM/2 NOTES AND DRAFTS

1901-?1970s

This section brings together papers relating to some of Morton's lecturing and publications output, together with notes and background material. It is presented following the arrangement of the outline list.

EM/2/A	UNIVERSITY LECTURE NOTES
EM/2/B	NOTES FOR TEXT BOOK
EM/2/C	NOTES FOR D.Sc. THESIS
EM/2/D	BRITISH WATERWORKS ASSOCIATION LECTURES
EM/2/E	OTHER LECTURES, TALKS AND ARTICLES
EM/2/F	OFFPRINTS
EM/2/G	PHOTOGRAPHS

EM/2 Notes and drafts

EM/2/A

UNIVERSITY LECTURE NOTES

1911-?1970s

This material was found in Morton's titled folders or envelopes stored in labelled hanging files. The titles are reproduced in the catalogue entries.

There are typescript and manuscript notes, drafts, tables and diagrams, duplicated typescript course notes, etc. Some notes are written on the verso of earlier correspondence, other notes or other material, for example occasionally Conservative and Unionist Party circulars. Much of the material is in poor condition and most of the items are undated and dates where given are those of dated items only.

The material formed the basis of Morton's university lectures and evening courses at Manchester (initially the Victoria University of Manchester), although they incorporate notes taken by Morton as an undergraduate, lectures by Boyd Dawkins, correspondence to Boyd Dawkins and other earlier material. Although the sets of notes are frequently fragmentary, some, for example, those at EM/2/A/10-18 appear as if they may have formed a single series for a geology course.

EM/2/A/1

'Chalk water'

EM/2/A/2

'Cores, borings for coal on the Isle of Man'

1917, 1929

Includes 20pp typescript 'Borings for coal in the north of the Isle of Man' by [?] B. Atkinson, 1917.

EM/2/A/3

'Stone testing 2w. M. J.' and 'Attrition test'

EM/2/A/4

'Notes on: Tunnels and tunneling'

1911

Notes on feasibility of Severn, Humber and Channel tunnels and tunneling techniques.

Includes 6pp typescript 'Humber Tunnel. Report by Sir William Boyd Dawkins', and 'Lecture 4' by Boyd Dawkins on 'Tunnels', May 1911 (for lectures 1-3 in the series see EM/2/A/20). See also EM/2/A/33.

EM/2 Notes and drafts

EM/2/A/5	'Mining'	1901-1923
	Contents of two of Morton's files so inscribed.	
EM/2/A/5/i	File 1	1921, 1923
	2 folders.	
	Manuscript notes on mining techniques; sample colliery forms and regulations (from Sherwood Colliery Co. Ltd, Hucknall No. 2 Colliery).	
EM/2/A/5/ii	File 2	N.d., 1901
	Includes apparently unrelated letter to Boyd Dawkins on water supply to Newton in Makerfield, 1901	
EM/2/A/6	'Derbyshire'	1911, 1933
EM/2/A/7	'Coalfields'	1927
	One item on verso of letter reporting Morton's lapse of Fellowship of the Geological Society on his non-payment of dues.	
EM/2/A/8	'Hidden coalfields'	1926
	Notes for Morton's lecture with newspaper cuttings reporting on it.	
EM/2/A/9	'Building Stones'	1928-1943
	The material found in these four files so inscribed appears to relate to a University of Manchester course by Morton on 'The selection of stone for building and engineering masonry in post-war planning and reconstruction', October 1943.	
EM/2/A/9/i	File 1	1928-1934
	Chiefly on limestones and marbles. Includes letter to Morton on types of marble used in building.	

EM/2 Notes and drafts

EM/2/A/9/ii	File 2	1936
	Chiefly on sandstone. Includes (incomplete) lecture 'The proper uses of natural sandstone' by Morton for Manchester Engineering Geology course.	
EM/2/A/9/iii	File 3	1930-1934
	Chiefly granites, use of stone in road building. Includes 'The properties, testing and selection of stone for tar-macadam and concrete roads' by Morton, paper read at meeting of the Institution of Highway Engineers, King's Lynn, Norfolk, December 1930; abstract of discussion on silicosis, 1934.	
EM/2/A/9/iv	File 4	1943
	Duplicated typescript sheets on types of rocks and their properties. Includes examples of rock types used in buildings in Liverpool. Also manuscript notes on Wiltshire rock types.	
EM/2/A/10	'Classification: Chemical and Mineralogical composition'	
	Relates chiefly to igneous rocks. See also EM/2/A/12.	
EM/2/A/11	'Natural history of stones'	
	Sets of geology notes.	
EM/2/A/12	Notes on various aspects of igneous rocks	
	Possibly related to EM/2/A/10.	
EM/2/A/13	'Petrology: textures and structure'	
EM/2/A/14	'Crystallography'	
	3 folders.	

/...

EM/2 Notes and drafts

- EM/2/A/19/ii File 2, 'Clay/soils notes County by County'
- 5 folders.
- Folder 1: Bedfordshire; Buckinghamshire; Cambridgeshire and Huntingdonshire; miscellaneous notes.
- Folder 2: Essex; Hertfordshire.
- Folder 3: Leicestershire and Rutland; Lincolnshire; Norfolk.
- Folder 4: Northamptonshire; Nottinghamshire; Oxfordshire.
- Folder 5: Suffolk; Worcestershire and Warwickshire; Yorkshire; 'Additional references'.
-
- EM/2/A/20 'Applied Geology Lecture notes' 1911-1928
- 5 folders.
- Includes articles on 'New discoveries at Creswell caves', 'An interpretation of scenery' and 'The Water Diviner'; chapter on geological maps and sections by Morton; lecture on 'Future water resources of Britain'; notes on fossils and prehistoric anatomy; account by Morton of his contributions to Engineering Geology courses and research at Manchester; and lectures 1-3 by Boyd Dawkins on 'Applied Geology', 1911 (for lecture 4 see EM/2/A/4).
-
- EM/2/A/21 'Miscellaneous tables. Petrology'
- File also inscribed 'Practical sheets 1'.
- Includes duplicated typescript material for evening courses on Engineering Geology, including 'The strength and durability of building stones'.
-
- EM/2/A/22 'Geology I'
-
-
- EM/2/A/23 'Rivers & coastal erosion' 1928-1929
- 3 folders.
- Includes paper 'Some aspects of engineering geology' by Morton, read to Institution of Civil Engineers Yorkshire Association, 24 April 1930; 38pp typescript notes on 'The character, work and control of rivers'; manuscript notes on

EM/2 Notes and drafts

coastal problems.

Some notes on verso of student scripts.

EM/2/A/24 'Practical course in geological mapping'

4 folders.

Manuscript and typescript notes on geological maps, illustrative diagrams.

EM/2/A/25 'Lecture notes on mineral ore deposits'

EM/2/A/26 'Town planning course Evening Lectures'

1941, 1943

Course notice; typescript lecture notes; correspondence (chiefly with L.A. Leaver); manuscript notes; newspaper cuttings on post-war reconstruction 1943.

Morton delivered a course of five evening lecture-demonstrations on Geological Aspects of Town and Country Planning, University of Manchester, October-November 1941.

EM/2/A/27 'Uni Open Day'

1937

Plans of exhibits for Geology Open Day on applied geology, captions. See also EM/2/A/28.

EM/2/A/28 'Museum exhibits: stone decay'

1935, 1937

2 folders.

Correspondence *re* samples; photographs of stone decay (some mounted); captions.

Stone decay was a feature illustrated in the Geology Open Day (EM/2/A/27).

EM/2/A/29 Note on slate quarrying, maps for examination questions

File entitled 'Copies of exam papers'.

EM/2 Notes and drafts

typescript course notes; printed material.

EM/2/A/35 'Exams. Civil engineers' 1947-1969

Engineering geology examinations for Civil and Municipal Engineering students.

EM/2/A/36 'Exam papers. Planning' 1949-1968

2 folders.

Examination papers for diploma and degree students in town and country planning.

EM/2/A/37 'Exam papers Evening class' 1951-1964

EM/2/A/38 'General. Incl Yearly excursion' 1950-1964

3 folders.

General teaching material for engineering geology including examinations, arrangements for field excursions and manuscript and typescript notes.

EM/2/B NOTES FOR TEXT BOOK 1926-1934

Material assembled for chapters of intended text book 'Engineering Geology'. Includes full typescript drafts for some chapters and manuscript notes for others.

Morton began work for this textbook, to be published by Chapman & Hall in 1926 but it was never completed.

EM/2/B/1 'Chapter I: Classification of rock'

Typescript draft + inserts.

EM/2/B/2 'Chapter II: Structural characteristics of rock'

2 folders.

/...

EM/2 Notes and drafts

- /... Typescript draft; manuscript and typescript notes.
- EM/2/B/3 'Chapter III: Stratigraphy'
Typescript draft.
- EM/2/B/4 'Chapter IV: Surface Water Supply'
Typescript draft with some interleaved notes.
- EM/2/B/5 'Chapter V: Rainfall'
Typescript draft; manuscript and typescript notes.
- EM/2/B/6 'Building materials'
2 folders.
Rough typescript drafts; manuscript notes.
- EM/2/B/7 'Roadstones'
3 folders.
Typescript draft; manuscript and typescript notes; typescript drafts on rock varieties etc.
- EM/2/B/8 'Shaft-sinking'
Typescript outline and rough draft.
- EM/2/B/9 'TEXT BOOK Additional notes'
- EM/2/B/10 'Synopsis of text book'
Typescript draft; manuscript notes; brief correspondence from publishers Chapman & Hall.

EM/2 Notes and drafts

EM/2/B/11	Correspondence <i>re</i> book with Chapman & Hall. The original contract was signed in 1926 but the book was still uncompleted in 1934.	1926, 1934
EM/2/B/12	Miscellaneous notes	
EM/2/C	NOTES FOR D.Sc. THESIS	1928-1930s
EM/2/C/1	'Memorandum accompanying a Thesis presented for the Degree of Doctor of Science' Typescript provisional draft; manuscript rough draft.	late 1930s
EM/2/C/2	'D.Sc. Thesis Gault' 2 folders. Contents of envelope so inscribed: miscellaneous typescript and manuscript notes, chiefly on gault formation with borehole data.	1928, 1930s
EM/2/C/3	File of offprints accompanying EM/2/C/1 The numbers given to the papers are Morton's and refer to his Memorandum. Papers 3 ('The new British Standard Specifications for the Testing of Roadstone and Sandstone Kerbstones') and 6 ('The Properties, Testing and Specification of Sandstone Masonry') were described as 'in preparation' for the thesis. Only items 1, 5 and 11 were found in the file. 1: 'The Microscopical Determination of the Strength and Durability of Building Stones', <i>Engineering</i> , 1928. 2: 'The Properties, Selection and Specification of Sandstones for use as Kerbstones on Main Thoroughfares', <i>Journal of the Institution of Municipal and County Engineers</i> , March 1931. 4: 'British Standards Specification No 706 (1936) for Sandstone Kerbs, Quadrants, Channels and Setts'. 5: 'The Proper Uses of Natural Sandstone', paper for Liverpool Engineering Society, 1935. 7: 'Stone Preservation', <i>Architectural Design and Construction</i> , May 1931.	1930s

EM/2 Notes and drafts

- 8: 'Some Aspects of Engineering Geology', paper for Institution of Civil Engineers, Yorkshire branch, 1930.
 - 9: 'The Properties, Testing and Selection of Stone for Tar Macadam and Concrete Roads', *The Highway Engineer*, February 1931.
 - 10: 'The Use of Limestone for Road Making', paper for Central Limestone Association, 1937.
 - 11: 'An Economic Geology Map of England and Wales, with Explanatory Notes'.
 - 12: 'Silicosis - Some Geological Comments', paper for Institute of Quarrying, 1929.
 - 13: 'Silicosis - The Geological Aspect', *The Policy-Holder*, 1931.
- Memo 3A: 'Report on Investigations Made to Determine the Accuracy or otherwise of Absorption Data Obtained by Rough and Ready Methods'.
- Memo 3B: 'On the Grading of Sand for Use in the Abrasion Test'.

EM/2/D	BRITISH WATERWORKS ASSOCIATION LECTURES	1928-1938
--------	---	-----------

Morton frequently attended meetings of the British Waterworks Association (BWA) and presented many papers. The files here include notes and scripts for Morton's contributions as well as miscellaneous material relating to the meetings themselves in the form of correspondence *re* arrangements, programmes etc.

EM/2/D/1	Summer Meeting, July 1928	1928
----------	---------------------------	------

Morton spoke on 'The underground distribution, thickness and structure of the secondary formations in England, with special reference to the sources of subterranean water'.

EM/2/D/1/1	Correspondence
------------	----------------

EM/2/D/1/2	Manuscript and typescript drafts of paper
------------	---

EM/2/D/1/3	Proof copy of Morton's paper
------------	------------------------------

EM/2/D/2	Winter Meeting and First Public Health Congress, London, November 1928	1928-1929
----------	--	-----------

/...

EM/2 Notes and drafts

/...	Morton spoke on 'The subterranean water resources of Great Britain'.	
EM/2/D/2/1	Correspondence <i>re</i> Morton's paper	
EM/2/D/2/2	Manuscript and typescript drafts and notes 2 folders.	
EM/2/D/2/3	Proof copy with manuscript corrections, and offprint	1928, 1929
EM/2/D/2/4	Copy of <i>Municipal Engineering, Sanitary Record and Municipal Motor</i> no. 2033 (29 Nov 1928). With report on part of the Congress on pp588-591 and on Morton's paper on p600.	
EM/2/D/3	Summer Meeting, Portsmouth, 2-5 July 1929 Programme, arrangements; 6pp typescript transcript of Morton's discussion of paper by Halton Thompson.	1929
EM/2/D/4	Summer Meeting, Blackpool, Lancashire, 13-17 June 1933 Morton spoke on 'Rural water supply'.	1932-1933
EM/2/D/4/1	Programme and arrangements	
EM/2/D/4/2	18pp typescript draft of Morton's paper	
EM/2/D/4/3	Proofs of papers delivered Includes Morton's.	
EM/2/D/4/4	Offprint of Morton's paper	

EM/2 Notes and drafts

EM/2/D/5	Winter Meeting, London, 13-18 November 1933	1933
	Programme; correspondence <i>re</i> Morton's membership of the BWA; 3pp typescript discussion by Morton on paper by A.E.L. Chorlton.	
EM/2/D/6	Winter Meeting and Public Health Congress, London, 19-24 November 1934	1934
	Programme; papers; correspondence; manuscript notes.	
EM/2/D/7	Winter Meeting and Eighth Public Works Congress, London, 18-23 November 1935	1935
EM/2/D/7/1	Programme, notices etc.	
EM/2/D/7/2	'The distribution of population with special reference to water supplies', paper by S.V. Pearson, with 3pp typescript comments by Morton	
	Folder also includes manuscript notes and newspaper cutting reporting Pearson's lecture.	
EM/2/D/8	Winter Meeting and Ninth Public Works Congress, London 15-20 November 1937	1937
EM/2/D/8/1	Programme; papers by G.H. Thiselton-Dyer and E.G. Bilham; manuscript notes	
EM/2/D/8/2	Correspondence <i>re</i> H. Dewey's paper on 'Lower Greensand'; Morton's typescript discussion on paper by Thiselton-Dyer.	
EM/2/D/9	Summer Meeting, Plymouth, 21-25 June 1938	1938
	Notice; paper by Morton; etc.	
	Morton was to have delivered his paper 'The protection of underground sources of water supply with special reference to the town and country planning acts' at the summer meeting but it was postponed to the winter meeting (EM/2/D/10).	

EM/2 Notes and drafts

EM/2/D/10 Winter Meeting and Public Health Service Congress, 1938
November 1938

Morton delivered his paper 'The protection of underground sources of water supply with special reference to the town and country planning acts'.

EM/2/D/10/1 15pp typescript and published copies of Morton's paper

EM/2/D/10/2 Typescript additions; background information; manuscript notes; account of the proceedings of the meeting in *The Surveyor*, 18 November 1938

EM/2/E OTHER LECTURES, TALKS AND ARTICLES 1925-1954

This series covers Morton's wide ranging lecturing and writing activities outside the University. Again, the size of the files and their content, varies. Most include notes, correspondence and typescripts and manuscripts relating to the articles and papers.

There is some duplication of material also to be found in EM/2/C.

EM/2/E/1 'An Interpretation of Scenery', paper for The Geological Association, January 1925 1924

10pp typescript; typescript and manuscript notes.

EM/2/E/1A 'A further conquest of Ham Tor', submitted to *Sheffield Daily Telegraph* 1926

2pp typescript; copy of article from the *Sheffield Daily Telegraph* prompting Morton's response.

EM/2/E/2 'Some Applications of Geology'. Set of three lectures by Morton at the Manchester Museum, October-November 1926 1926

The lectures were 'Buildings and building stones', 'The water-supply of Manchester', 'Coast erosion and protection'.

/...

EM/2 Notes and drafts

SECTION EM/3 CONSULTANCIES

1885-1998

This section presents the great bulk of the material in the archive. It comprises the contents of Morton's files relating to the hundreds of geotechnical consultancies with which he and his company, Edgar Morton and Partner, were involved from the 1920s to early 1990s. As the company continued in being after Morton's death in 1973, there are considerable quantities of papers from after that date. Many projects initiated in Morton's lifetime continued through the 1970s and beyond.

Following the organisation of the outline list, the section is divided into four: Public Water Supply; Private Water Supply; Foundation, Stability and Construction Problems; and Planning and Mineral Workings. Within these subsections the arrangement of material has largely followed the listing of the outline list. There was found to be a considerable overlap of material between the subsections, particularly between Public Water Supply and Foundation, Stability and Construction Problems.

In a number of cases projects listed in the outline list proved either to have no documentation or the material listed was subsequently found filed elsewhere. This has resulted in a number of ghost entries in this catalogue indicated by the formula 'Not used'.

Consultancies

EM/3/1-225 PUBLIC WATER SUPPLY

1885-1998

This subsection covers Morton's extensive consultancy work on public water supply projects in Britain. It comprises files relating to over two hundred public water supply projects with which Morton (and his company Edgar Morton and Partner) was involved as a geotechnical engineering consultant.

Morton was working at a time when the water industry in Britain was required to meet a rapidly increasing need for assured supplies of water for domestic and industrial use. After the Second World War local authorities had been given greater powers to build and extend reservoirs and search for potential new sources of supply. Morton and his company, Edgar Morton and Partner, were much in demand in advising on public water supply. He himself was involved with more than 150 dams and reservoirs throughout Britain, many being long-term projects with Morton advising on different aspects of investigation, design, construction, litigation and site monitoring over many years.

The largest bodies of material relate primarily to the construction and development of Grimwith Reservoir for the Bradford Corporation Waterworks (later the Yorkshire Water Authority); the Roadford, Colliford and Wimbleball Reservoirs (South West Water Authority); and the Foremark Reservoir and Carsington Reservoirs (Severn Trent Water Authority). Significant amounts of material occur also for the Isle of Man Water Board (Sulby Reservoir and Druidale Scheme, and others), the North West Water Authority, the Staffordshire Potteries Water Board, St Helens Corporation, Buckinghamshire Water Board, Nottingham Corporation, Portsmouth and Gosport Water Company, North Devon Water Board (the Meldon Reservoir Scheme) and the City of Cardiff Corporation Waterworks (Llandegfedd Scheme).

Much of the material covers the initial stages before reservoir construction, such as site investigation, involving the siting and drilling of numerous trial and exploratory boreholes to search for new sources of supply, the question of the mining position (old and abandoned or working mine shafts situated underground below the proposed reservoir site) and site stability, so as to avoid possible embankment slips and reservoir cracking later on. Several of the projects on which Morton advised were not constructed. After extensive site investigation, monitoring and testing, they were found to be technically or economically unfeasible, even when alternative sites had been proposed and subjected to similar investigation.

Not all the public water supply projects for which Morton was acting involved reservoirs and dams. Morton was also

Consultancies

concerned in the construction of pumping stations, sewage works, water treatment works and other such water supply projects. Morton gave advice to many local authorities on water sources, often subterranean, for augmenting the public water supply, protection of gathering grounds, new well sites, etc., and advised on borehole licence applications.

The majority of the projects date from the 1930s to the early 1990s, although in some cases, where a related project or the same local authority was involved, the working papers incorporate earlier Boyd Dawkins material, dating from the late nineteenth and early twentieth centuries and used for background engineering and geological information. Others represented extensively in the papers include colleagues in the consultancy, P.W. Rowe, C.W. Isherwood and J. Scriven.

The material has been arranged in alphabetical order by principal client, following the outline listing. The client is generally a public authority - County Council, City, Borough, Rural or Urban District Council, River Authority, Water Board, etc. Morton frequently was acting for more than one public authority on any major project and this is indicated in the catalogue entries. Another complication is that the jurisdiction of these public authorities frequently changed over time as they merged, divided, expanded or diminished.

Some of the material was found in folders marked 'Selected Papers'. It appears the contents of these were chosen as worthy of preservation by Morton himself and it is therefore possible that material not so selected was discarded. In many sequences of correspondence there is evidence that documents have been removed, sometimes torn out. Key documents relating to any given project were generally kept in reverse chronological order and this arrangement has been retained.

The papers may include correspondence, plans and maps, draft and final reports (during his lifetime, most of the reports were written by Morton himself), borehole logs, drilling logs, rainfall records, rock test data, calculations, tender documents, photographs etc. There is much manuscript material, including beautifully hand-drawn and coloured geological diagrams, maps, plans and sketches. Morton's manuscript annotations occur throughout the documentation, sometimes the two copies of the same document being differently annotated.

Where there is significant material relating to a collaborating engineering, surveying or similar company, this is indicated in parentheses.

Consultancies

EM/3/1	Accrington District [Gas and] Water Board	1943-1971
	19 folders.	
	Augmentation of Water Resources: Rishton Colliery and Paper Mill including Dunkenhagh Estate Claim (<i>re</i> Steiner's Waterworks claims); effects of National Coal Board (NCB) coalmining in vicinity upon site stability, Huncoats Sewage Disposal Works; proposed new super-power station at Accrington (1944); Dean Clough borehole contract and Public Inquiry; Altham Bridge PS.	
	Correspondence including copy letters and other material dating back to 1934, notes, reports including Edgar Morton & Partner and copy reports dating back to 1891, maps and plans (NCB, Shuttleworth Hall, etc), boring section (Paragon Chemical Co. borehole), tracings, test data, printed copies of local Acts of Parliament (1894; 1905, 1906), meetings notes, notes <i>re</i> history and development of the Rishton Colliery water supply, 1958, and future of coal mining in the Altham Bridge PS, Burnley Road and Plantation Reservoirs area, etc, calculations, graphs including Haweswater Aqueduct Rising Bridge Shaft, Public Inquiry documents including photograph and contract, press cuttings, site diary, lease, diagrams, and sketch maps.	
	Also booklet <i>re</i> Institution of Water Engineers visit to Wet Sleddale Works, Haweswater, 11 September 1964.	
	Additional material - Manchester Corporation WW including Cumberland RA: site investigation and feasibility reports, 1971, Institution of Water Engineers paper, 1951, correspondence, photographs, negatives, borehole logs, notes, test data, etc, <i>re</i> Haweswater Reservoir, Dam and Aqueduct (folders 12-19). Booklets and published material includes City of Manchester commemorative booklet, Centenary of the Waterworks Undertaking, 1847-1947.	
EM/3/2	Aireborough Urban District Council	1919, 1941-1943
	Guiseley Waterworks Undertaking.	
	Correspondence, notebook, reports by Morton and others (including copy report stamped 26 Nov. 1919), borehole data, and plans (cross-section, and blueprint). Including Morton's reference to himself being 'confined to bed with a mild attack of influenza', February 1943.	
	(John Thom Ltd - Artesian Well Engineers)	

Consultancies

EM/3/3	Alsager Urban District Council	1940-1956
	2 folders.	
	Extensions to Audley Road Waterworks, Staffordshire: duplication of water supplies, Royal Ordnance Factory, Radway Green, etc; proposals <i>re</i> obtaining underground additional water supplies in the Alsager area, and establishment of a searchlight camp unit adjoining the Audley Road Waterworks (1940-1942); licence to sink a borehole at Foxley Gorse, Audley (1953-1956).	
	Notebook, test data, correspondence, notes, document concerning official opening of the Waterworks Extensions, 16 Sept 1942, reports, Private Inquiry material, and minutes.	
EM/3/4	Amesbury Rural District Council	1959-1961
	Regional Water Supply, Shrewton area: Esso Petroleum Co. Pipeline.	
	Correspondence including letter to P.W. Rowe dated 4 April 1961 (including reference to Rowe's recent 'return from the Arctic regions'), and map, concerning possibility of pipeline leakage into the Shrewton boreholes, which would result in water supply contamination. Including press cutting <i>re</i> jet fuel underground pipeline leak, Laindon, Essex.	
	(Lemon and Blizard, civil engineers and surveyors).	
EM/3/5	Anglesey County Council	1961-1966
	3 folders.	
	Alaw Reservoir and Dam: Afon Alaw Scheme.	
	Correspondence, notes, progress report, geological and other reports, maps, plans, diagrams and cross-sections, graphs and plottings, site meeting notes, daily progress sheets, Water Order documents, Public Inquiry documents, Minutes extract, and contract and subcontract documents, grouting logs, and commemorative booklet <i>re</i> Official Opening of the Scheme, October 1966.	
	Includes Contract no.3 relating to complete job, from the proposed reservoir up to construction and completion, 1961-1964.	

Consultancies

EM/3/6	Anglian Water Authority	1975-1976
	River Ancholme Scheme: Elsham Treatment Works	
	Plans, maps, correspondence, Morton's observations, diagrams, and vibration investigation etc, <i>re</i> effects of blasting operations at a quarry in close proximity to the Treatment Works.	
EM/3/7	Ashby-de-la-Zouch Rural District Council	1943-1971
	2 folders.	
	Water supply: various	
	Notebook, correspondence, notes, maps, plans, diagrams, and Public and Local Inquiry material <i>re</i> the Acresford Waterworks and new borehole scheme (1943-1951); Pisca Lane to Mill Lane boreholes, Heather, Leicestershire, and proposed opencast working at Coalfield Farm (National Coal Executive, and NW Leicestershire Water Board) (1971); Mill Lane PS, Heather - filling of old clay pit for the Ibstock Brick and Tile Co. (1961); backfilling of proposed quarries, Heather Waterworks (1960).	
EM/3/8	Ashton-under-Lyne, Stalybridge and Dukinfield District Waterworks Joint Committee	1947-1957
	2 folders.	
	Swineshaw Valley Scheme augmentation of water supply; development of underground water supply sources; proposed reservoir in Greenfield Valley	
	Scheme inauguration commemorative booklet, 12 September 1957, test data including boreholes, notes, correspondence, diagrams, reports, daily drill shift reports, and plan (Dove Stone Reservoir).	
EM/3/9	Babtie Shaw and Morton	1986
	Lew Trenchard Estate: Lake Inspection under Reservoirs Act, 1975.	
	Correspondence, maps and plans, <i>re</i> proposed hydrological survey at Lewtrenchard Lake to determine if it could be considered a reservoir for the purposes of the Act.	
	The lake appeared to have been formed by limestone quarry

excavations, believed to have been abandoned 'at least 140 years ago'.

- | | | |
|---------|---|-----------|
| EM/3/10 | Bakewell Rural District Council | 1930-1955 |
| | 4 folders. | |
| | Proposed new water supply schemes for Birchover, Winsters and Elton (Shothouse Springs), and Ivonbrook Grange, and related Ministry of Health Inquiry (1933-1935); Eyam Reservoir failure and proposed new reservoir sites (1930-1932); proposed Stoke Flat storage reservoir; Hathersage Water Supply and Burbage Spring Supply; Mag Clough Waterworks, Grindleford (1949-1950); alleged depletion of water hole on Mr. Shirt's land adjoining Manchester Road, Tideswell, by the laying of a Council water main (1955). | |
| | Maps including geological, correspondence, press cutting, reports by Morton and others including geological, notes, plans, photographs, and diagrams. | |
| EM/3/11 | Bexhill Corporation Water Works | 1948-1953 |
| | 4 folders. | |
| | Augmentation of water supply: proposed new boreholes; proposed development scheme and utilisation of underground water sources; Henleys Bridge Reservoir site. | |
| | Correspondence, plans and other documents including copies dating back to 1935, pumping stations plans and diagrams booklet, specifications and contract documents, maps including Ordnance Survey, reports, notebook, etc. | |
| EM/3/12 | Biddulph Urban District Council | 1940-1963 |
| | Augmentation of water supply: Elmhurst Waterworks and related matters | |
| | Various copy reports (Morton and others) dated 1926 to 1960, correspondence 1941-1945 and 1961-1963, yield estimates and readings, notebook, contract and tender documents for proposed borehole at Bands Wood, Biddulph Park, plans, report, water pumping record, and notes. | |

Consultancies

EM/3/13	Biggleswade Water Board	1939
	Morton's Paper on the Lower Greensand Formation, Dunton boreholes, etc.	
	Letter from Morton to T.A. Staniforth, Waterworks Engineer, Biggleswade Water Board, and his reply.	
EM/3/14	Bishops Castle Corporation	1945
	Bishops Castle Reservoir, Shropshire.	
	Correspondence including diagram, notes, and copy reservoir inspection report dated 1898 for Maes Gwyn Reservoir, <i>re</i> Bishops Castle [Water Supply] Scheme.	
EM/3/15	Blackburn Corporation Waterworks	1934-1960
	5 folders.	
	Blackburn Corporation Waterworks and Blackburn Rural District Council	
	Proposed Dunsop Reservoir, and Bowland gathering grounds development; Footholme borehole; Brennand and Whitendale dam and reservoir sites; Mellor Water; abandoned colliery underground water supplies proposals for the Blackburn area; Daisy Green Reservoir; Blackburn WO.	
	Notebook, technical data including flow rate and gallons per hour, and water bacterial examination, <i>re</i> the Dunsop catchment area, plans, correspondence with National Coal Board and others, Morton reports, geological survey and specification, weekly reports, photographs (mostly Whitendale and Brennand valleys), notes, test data, etc.	
EM/3/16	Bletchley Urban District Council	1948-1970
	4 folders.	
	Bletchley UDC and Buckinghamshire WB: Sandhouse Waterworks and Pumping Station, including boreholes	
	Borehole and pumping test data, notebook, Morton's and other reports, correspondence, South Midlands Water Survey material, notes, plans, etc. Includes Luton Rural District Council copy document.	

Consultancies

EM/3/17	Bollington Corporation Waterworks	1944-1955
	Augmentation of water supplies.	
	Morton's handwritten notes <i>re</i> boreholes etc, and visit to 'main reservoir', 20 January 1944 (2 sheets).	
EM/3/18	Bolton Corporation Waterworks	1920-1975
	3 folders.	
	Augmentation of water supplies: Bolton and District (Croal and Upper Irwell) Regional Sewage Disposal Scheme - proposed sewer (1947-1954), including development implications of the proposed Agecroft Colliery for the Ringley Fold and Rhodes Farm sites; Bolton Corporation Waterworks and Irwell Valley Water Board - Fordington PS and boreholes (1939).	
	Correspondence including <i>re</i> borehole 'sand trouble', notebook, plans, notes, and Morton's reports, mostly dated 1920 and 1951.	
EM/3/19	Bradford Corporation Waterworks	1963-1993
	147 folders.	
	(later part of Yorkshire WA)	
	Grimwith Reservoir Development: Public Inquiry and WO including mineral rights; proposed Heights Lane (?Chellow) and Wibsey Service Reservoirs; Chelker Treatment Works (Lobwood Supply Scheme); grouting; rock anchors; landslips including access road; site investigations including second stage; quarry and mineshaft investigations; surveys; etc	
	Morton, J. Scriven and other notebooks (including Hallgates Reservoir), contract documents, test data including piezometer and other instrumentation readings, borehole logs, notes, correspondence including University of Manchester (folder 110), plans, diagrams, maps, Public Inquiry documents, published papers, photographs including aerial, negatives, chemical analyses, calculations, reports including drafts, sketches, mining activities material including California adit and mineshaft investigation (the latter being in folders 123-124, dated 1979 and 1980-1981), daily drill shift reports, users manual and instructions for the operation, maintenance, and surveillance of Grimwith Reservoir (including geotechnical instrumentation), Rowe and J. Scriven material including notebooks (folder 88 etc), Yorkshire WA documents, etc.	

Consultancies

Individual items of note include poem 'Grimwith Air' *re* the building of Grimwith Reservoir (folder 15), author unknown, site staff advertisements (folder 30), material *re* the possible flooding effects on Stump Cross Caverns cave system of the Grimwith impounding works in the vicinity (folder 42), material *re* Chellow Dean Reservoir (Lower), John Young's University of Leeds MSc dissertation on Grimwith, 1976 (folder 47), copy material including dating back to the nineteenth century such as articles and mining maps; photographs of Rowe and others at a dinner 'held in honour of Peter Hallas to commemorate his leadership of the "Grimwith Team" ', 10 April 1985, and another meal, 13 January 1983; and photocopies of the Grimwith model centrifuge test bed, before and after testing, n.d. (folder 145).

EM/3/20	Brighton Corporation Waterworks Southover Pumping Station: Lewes Southern By-pass Correspondence, test data, plans and sections, etc. <i>re</i> trial borings concerning the possible effects of the proposed roadworks on the yield of the water source for the pumping station.	1971-1972
EM/3/21	British Waterways Board 5 folders. Beeston Weir, River Trent, Nottinghamshire Site investigation and preliminary reports, test data, correspondence, plans, calculations, borehole records, piezometer readings, and photographs and negatives (including weir, borehole samples) concerning reconstruction of damaged weir. (A.H.S. Waters and Partners).	1978-1981
EM/3/22	Buckinghamshire Water Board 19 folders. Proposed central storage area reservoirs at Waddesdon and Whitchurch including ?Lizard Mill, and proposed service reservoir on Lower Greensand formation, The Warren, Little Brickhill (Woburn); Pumping Stations at Pann Mill, Ash Hill, Radnage, Wendover, Hambleden, Hawridge, Marlow, and Bourne End (the latter three <i>re</i> water pollution protection, invoking local Byelaws); Parliamentary Water Bills; planning	1960-1972

Consultancies

applications and problems; Ampthill Trunk Main

Correspondence, photographs, negatives, test data, Morton's reports, maps, plans, drilling reports, exploratory boreholes and contract material, graphs, well readings and observations, rainfall records, and Water Bills material concerning other local authority areas covered by or connected with Bucks. Water Board, mostly published material, House of Commons Session 1957-1958, with background material going back to the 1940s. Includes letter from Rowe to Morton, Christmas Eve 1967: 'I cannot think of a nicer way of celebrating Christmas than making you a present of the Report on the Bucks Water Board Scheme!'.

Consultancies

Morton notebooks (one lacking cover), correspondence, calculations, instrumentation readings, Darwen Borough monthly rainfall 1932-1945, etc.

Morton was working also for the Blackburn Corporation to investigate the site for proposed Dunsop Valley Reservoir, 1942, and Morton's suggestion for a related possible joint water scheme between Blackburn, Darwen, Accrington, and Haslingden Corporations.

EM/3/48	Derwent Valley Water Board	1934-1953
---------	----------------------------	-----------

3 folders.

Derwent Valley Scheme - Ashopton landslip; Construction of Ladybower Reservoir and Dam, Ashopton Viaduct vicinity.

Morton's reports including printed, correspondence, plans including blueprints, press cuttings, sketches, and notes. Including copy papers, chairmen's addresses, committee report, minutes, etc. *re* various Institution of Water Engineers' Northern Section meetings.

EM/3/49	Devizes Corporation Waterworks	1919-1947
---------	--------------------------------	-----------

3 folders.

Devizes Corporation including Devizes Rural District Council, Devizes Borough Council, and Bletchley UDC.

Augmentation of water supply: Bourton borehole, 1944-1947; Shepherds Shore WW.

Correspondence, notes, Morton's report, water sample analysis, August 1944, etc. Including Morton letters *re* seemingly fruitless search for missing maps and diagrams in brown paper roll left behind by Morton on train, September 1944; photographs of Bourton borehole '& pumping test Sept. 1944'; and Boyd Dawkins material including handwritten in ink, 1919-1920.

EM/3/50	Devon River Authority (formerly Devon River Board)	1957-1972
---------	--	-----------

10 folders.

North Devon Water Bill: Taw Marsh Scheme (1957-1959); SW Devon Water Supplies; North Devon Hydro Electric Power Bill including CGB Pumped Storage Scheme, Bucks Mill, Clovelly (1965-1967); possible effects of the Tiverton Flood Relief

Consultancies

Scheme on St. Peter's Church foundations (1968-1969); proposed reservoir sites at Woodcourt, Bow Cross, Torcorn Hill, and others (1971-1972); WO and Public Inquiry *re* Wimbleball Reservoir (1972); West Somerset WB: River Exe Augmentation Scheme.

Correspondence, reports, maps, plans, daily drilling records, press cutting, geological reports, notes, photographs (Woodcourt and Bowcross reservoir sites), test data, technical data, contract documents, and Public Inquiry documents.

See also North Devon WB EM/3/128, West Somerset WB EM/3/211.

Resistivity Survey, Cod Beck Reservoir, 1950.

EM/3/72 Not used.

EM/3/73 Not used.

EM/3/74 Gloucester Corporation Waterworks 1945-1957

Gloucester Corporation WW and Malvern Urban District Council

[City of] Gloucester - pumping stations at Newent, Ketford including borehole, and Berrow's Farm at Red Marley D'Abitot.

Plans, report, graph plot, notebook (lacks cover), test data, correspondence, notes, etc. Also published copies of legislation including Gloucester Corporation Act 1911.

EM/3/75 Grange-over-Sands Urban District Council 1948

Water supply: proposed dam at Simpson Ground

Correspondence including data relating to 'Trial Holes Along Dam', at Grange Water.

EM/3/76 Grantham Waterworks 1939-1954

Grantham Waterworks and West Kesteven Rural District Council.

Augmentation of Water Supply: Local Inquiry *re* possible effects on water supply of application by Stanton Ironworks and others, to work the ironstone at Denton and Harlaxton

Correspondence, plans, notes, diagrams, etc.

EM/3/77 Greater London Area Water Supplies Departmental Committee 1946-1954

7 folders.

Greater London Water Area proposals for Joint Water Undertaking 1946-1949, and opposition.

Consultancies

Historical notes and printed papers including Croydon geological notes, Water Undertakers questionnaires, replies, and analysis of same, Morton's and other reports, correspondence, Departmental Committee documents, opposition memoranda, notes including typed notes *re* Waterworks Inspection and tables including sewage effluents in Lee Valley, notebook, etc.

See also Guildford, Godalming and DWB, EM/3/80, and Haslemere UDC, EM/3/85.

EM/3/78	Great Ouse River Authority	1959-1970
---------	----------------------------	-----------

Proposed Great Ouse Scheme: Stability and water tightness, Stewartby Clay Pits, Bedford (1959); inquiry *re* proposed Abbotsley Reservoir (1968-1970).

Working Party Report, 1959 (Binnie, Deacon and Gourley), correspondence, plans, borehole logs, and notes; correspondence including Abbotsley and Lutton sites, Inquiry documents, and published article 'finding enough water for the drift to the south east' *re* the Great Ouse Basin water resources, February 1966.

EM/3/79	Grimsby, Cleethorpes and District Water Board	1949-1958
---------	---	-----------

6 folders.

Grimsby, Cleethorpes and DWB (?later North Lincolnshire WB) and North East Lincolnshire WB

Pumping stations including Barnoldby-le-Beck and trial boreholes, Tetney, Little London and Crystal Springs including WOs, and Hope Street; Weelsby WO, PS, and boreholes; Inquiries and objections *re* borehole licence applications under section 14 of the Water Act (1945); N. Lincs. WO (1956).

Correspondence, test data including pumping, water analysis, plans, graphs, notes, Morton's and other reports including hydrogeology, and press cuttings, etc. Also press cutting *re* Local Inquiry (Dorchester Rural District Council) refusal of permission for extension of sand and gravel workings at Blagdon, near Portesham.

See also NE Lincs. WB EM/3/131.

Consultancies

EM/3/80	Guildford, Godalming and District Water Board	1945-1966
	6 folders.	
	Augmentation of water supply: Albury WO, proposed boreholes, and Public Inquiry; proposed development at Dapdune PS; Millmead PS proposed Greensand borehole and Inquiry - draft WO, draft agreement with Friary Meux, and contract; Witley Common PS proposed boreholes; Mid-Wessex Water Co. proposal (?and objections) <i>re</i> water supply for Bracknell New Town.	
	Meeting notes, television inspection report, factual and other reports, development plan, correspondence, Morton's reports, copy press cutting, local Inquiry documents, water sample analysis, test data including pumping, plans including geological sections, Public Inquiry documents including <i>re</i> standing conference of Departmental Committee on Greater London Area Water Supplies, <i>ca</i> 1945, annual reports dated 1954-1962, and printed copy of the Guildford Corporation Act, 1926.	
EM/3/81	Not used.	
EM/3/82	Halifax Corporation Waterworks	1934-1950
	3 folders.	
	Halifax Corporation Bill and Waterworks Extensions: Proposal to build a reservoir and dam in the Hebden Valley 'just above Hardcastle Crags'; question of alternative site; opposition to the Bill.	
	Water Bill documents, Halifax Corporation Acts, and Parliamentary Select Committee, Minutes, etc, Morton's reports including geological, correspondence, notes, Petitions from Hepton Rural District Council, Hardcastle Crags Preservation Committee, West Riding County Council, Batley and Dewsbury Corporations, and others, plans, opposition poster, and photographs (Hardcastle Crags, Hebden Valley and 'Ogden').	
EM/3/83	Halstead Rural District Council	1963
	Great Yeldham Scheme: application to increase abstraction of water under section 14 of the Water Act and Inquiry <i>re</i> application; Colchester and DWB opposition.	
	Borehole depth records, correspondence, plan, and Inquiry	

Consultancies

documents including copy pumping test data sheet, 1947.

Morton was contracted to work for John Taylor & Sons, Civil Engineers acting for Halstead RDC. He was asked to assist with geological support in presenting their case.

EM/3/84	Hartlepoons Water Co.	1959-1986
---------	-----------------------	-----------

15 folders.

Hartlepoons Water Co., Northumbrian RA, Durham County Council and Teeside CBC.

Augmentation of water supply: boreholes including Sheraton, Clay Pool Beck, and Red Barns (South Wingate Scheme), PS and boreholes including Amerston Hall, NCB, ICI, and Crookfoot Reservoir; Tees Valley and Cleveland WB Bill; water supply pollution concerns *re* Foot and Mouth disease effects, 1967, Langley Beck water abstraction *re* Avinco Coal Reclamation Project licence application, and refuse tip proposals; magnesium limestone water resources including Castle Eden Colliery; alleged depletion of Claxton Farm supply and possible arbitration case; ICI proposals including underground storage reservoir.

Notes, drilling records, correspondence, maps, plans including geological sections, Morton and other reports, annual report, 1961, rainfall records, test data including pumping, graphs, calculations, contract and tender documents, press cuttings, borehole logs, North of England Institute of Mining and Mechanical Engineers paper, June 1959, and photographs (ICI anhydrite mine).

The material includes papers dated 1973, which seem to be one of the last projects Morton worked on before his death later that year.

EM/3/85	Haslemere Urban District Council	1947-1980
---------	----------------------------------	-----------

Water Undertaking: Haslemere UDC's water resources, along with those of Guildford Borough, Godalming Borough, and Hambledon Rural District Council, *re* Metropolitan WB proposal to establish a Greater London Water Area.

Greater London Water Supplies Departmental Committee memorandum and questionnaire, notebook and geological reports, notes, and correspondence, 1947. Also letter from Binnie and Partners, Consulting Engineers, to C.W. Isherwood at Edgar Morton & Partner, 25 June 1980, thanking him for copy of Morton's 1947 report and commenting on lack of subsequent work on 'the geohydrology of the system'.

Consultancies

EM/3/86	Hayfield Rural District Council	1929
	<p>Ministry of Health Public Inquiry: Hayfield Rural District Council vs New Mills UDC Inquiry <i>re</i> possible affects of underground works proposed under the New Mills UDC Provisional Water Order 1929, on the existing Harrymoor works of the Hayfield Rural District Council.</p> <p>Diagrams and sketches including hand coloured, Morton geological report, notes including geological, correspondence, and press cuttings.</p>

	<p>Horwich UDC and Blackrod UDC.</p> <p>Augmentation of water supply: proposed Markland Service Reservoir; W. T. Taylor & Co. Ltd Victoria Mills boreholes.</p> <p>Plans including geological sections, maps, Morton's reports, test data including pumping.</p>	

Consultancies

EM/3/90	Hull Corporation Waterworks	1932-1939
---------	-----------------------------	-----------

[Kingston-upon-]Hull Corporation WW and Kirkbymoorside Rural District Council.

Hull Corporation Water Bill: Opposition by Kirkbymoorside Rural District Council, Milburn Estates Ltd, *re* proposed Farndale Reservoir Scheme and aqueduct; mineral concerns and question of whether chalk can be considered a mineral.

Morton's reports including geological, notebook (cover missing), Water Bill documents including Petitions, and copy documents including dated 1916.

EM/3/91	Ipswich Corporation	1967-1972
---------	---------------------	-----------

4 folders.

Ipswich Corporation Water Undertaking - Alton WO, 1971, under section 23 of the Water Act 1945; Public Local Inquiry and opposition including that of S.O.F. Bateman, owner of Alton Hall Estate, and East Suffolk County Council; Tattingstone Reservoir.

Ipswich Corporation were seeking WO authorisation for a reservoir scheme and ancillary works, and to 'acquire compulsorily the necessary lands'. Alton Hall was one of a number of Grade II listed buildings in the area due to be flooded by the proposed reservoir.

Correspondence, Morton and other reports, maps, plans, Inquiry documents, notebook, press cutting, etc.

Material includes reference to Alton WO being finally authorised by the Minister, subject to various provisos, and letter from S.O.F. Bateman thanking Morton for his support.

(Binnie and Partners: Chartered Engineers)

EM/3/92	Irwell Valley Water Board	1937-1962
---------	---------------------------	-----------

5 folders.

Proposed Calf Hey Filtration Works; Clarke's Hill Service Reservoir including mining position; Loveclough Service Reservoir; Musberry Valley Reservoir and trial boreholes; Walmsley borehole

Morton's reports, plans, map, graphs, correspondence including Rowe, site investigations material, notes, and daily drilling reports.

EM/3/103	Macclesfield and District Water Board 9 folders. Macclesfield and DWB, Macclesfield Rural District Council and Macclesfield BC Proposed Stockport WO, 1963, and Inquiry; boreholes	1937-1981

Consultancies

including Adlington, Dane-in-Shaw Mill, Over Alderley (Hayman's Farm), Prestbury, Whirley, Fallibroome, Lowerhouse, Rushton, and Pott Shrigley; Hug Bridge Treatment Works - augmentation of supply; Congleton supply including West Heath Quarry sand extraction; proposed refuse tip at Mow Cop Quarry; Tytherington PS; Kettleshulme supply; North Rode water; proposed Dams Valley Relief Sewer including site investigation; Lamaload Dam Scheme.

Correspondence, calculations, maps, plans, Inquiry and contract documents, notes, press cuttings, test data, photographs (Adlington), borehole records, Morton and other reports including Mersey and Weaver RA report, 1970, on future resources (Whirley Scheme), Cheshire County Council booklet, April 1976, etc. Also reference to Morton renting additional office accommodation in Oxford Road, Manchester, 1938.

EM/3/104 Makerfield Water Board 1962-1979

6 folders.

Makerfield WB, Lancashire RA and Chorley Rural District Council

Proposed Mawdsley Aquifer, Croston, including Slate Farm boreholes; Prospect Reservoir No. 2; other boreholes including Pocket Nook (arbitration), and Landsythes; Boars Head Service Reservoir reconstruction (originally constructed in the 1860s), including proposed Hall o' th' Hill Reservoir, Adlington.

Correspondence, reports, maps, plans, notes, test data, borehole records, calculations, etc. Also printed Institution of Water Engineers (Northern Section) paper, Nov. 1962 (N. Hoyle).

EM/3/105 Maltby Urban District Council 1936-1937

Feasibility of acquiring water supply from Norwood Springs and generally from the Magnesian limestone in the area.

Correspondence and Morton's report. Including one note headed 'Maltby Rural District Council'.

EM/3/106 Mansfield Corporation Waterworks 1949-1962

3 folders.

Consultancies

Mansfield Corporation WW, Mansfield BC and Mansfield Water Dept

Augmentation of water supply (1956-1962) including Amen Corner borehole and proposed Rainworth PS, remedial works on No. 3 bore; WOs (1961-1962); Clipdone PS.

Test data, correspondence, notes, geological diagrams, Inquiry documents, calculations, statistics, photographs of well shaft(s) and adit (Rainworth PS), etc.

EM/3/107 Marlborough and Ramsbury Rural District Council 1958-1959

Water supply: opposition by Marlborough and Ramsbury Rural District Council to proposal by Swindon Corporation for new PS at Axford.

Notebook, river flow gaugings (the latter being *re* Swindon Borough Council Kennet Valley Water Supply Scheme), and correspondence.

EM/3/108 Marlow Water Co. 1958-1966

Protection of sources of supply (gathering grounds): Proposed mineral workings (gravel pits) at Little Marlow, by Folley Bros. Ltd; Public Inquiry *re* building development adjoining Marlow PS.

Notebook, correspondence, Morton's reports, test data including for Bourne End PS, Public Inquiry documents, etc.

EM/3/109 Medway Water Board 1960-1974

13 folders.

River Medway Scheme: proposed Bewl Bridge and Ticehurst Storage Reservoirs including Valley Crumple boreholes and Chingley Fault Zone; Medway WO (Bewl Bridge Reservoir), Parliamentary Bill, and Public Inquiry; proposed Burham Treatment Works; Eccles Lake and Treatment Works.

Photographs and negatives (Bewl Bridge Reservoir), maps, plans, correspondence including Mid-Kent Water Co., test data, piezometer records, borehole logs, contract documents, reports including site investigation, calculations, press cutting, Morton and other reports, diagrams, etc.

Consultancies

EM/3/113	Mid-Glamorgan Water Board	1955-1979
	10 folders.	
	Mid-Glamorgan WB, Glamorgan RA, Welsh National Water Development Authority and Welsh WA	
	Llanharri [also spelt 'Llanharri'] PS, sewer tunnel, and Iron Ore Mine, including proposed opencast coal working, Llanilid site, and Llanharri Secondary School surface water drainage; Llantrisant New Town including industrial waste disposal, Tythegston Quarry; Pwllwy Source Works and PS; River Ogmere Abstraction Scheme: Proposed pumped storage reservoir sites and site investigation, and Cefn Hirgoed Reservoir.	
	Correspondence, plans, maps, reports including joint Morton and Rowe, diagrams, rainfall figures, photographs and negatives (including Tythegston Quarry), contract documents, borehole records, test data, etc.	
	Also Ogwr BC correspondence <i>re</i> proposed waste disposal sites, 1975-1978, under the Control of Pollution Act 1974, Refuse Disposal.	
	(Morton was recommended to Ogwr BC as a consultant by the Mid-Glamorgan WB).	
EM/3/114	Mid-Northamptonshire Water Board	1973
	Proposed Lings Service Reservoir site investigation	
	Correspondence, photographs and negatives, plans, maps, notes, reports, diagrams, etc.	
EM/3/115	Mid-Southern Water Co.	1971-1987
	2 folders.	
	Augmentation of water supply: proposal to increase abstraction from Lasham PS, and feasibility of new Source Works development (1971-1973); Refuse Disposal Study, NE Hampshire and SW Surrey <i>re</i> potential pollution problem (1987).	
	Calculations, correspondence including copy of manuscript letter sent by Morton from Skye, 4 September 1971, notes, cutting, Morton and other reports, maps, plans, notebook, observation well records, earlier dated copy material, etc.	

Consultancies

EM/3/116	Middleton Borough Council River Irk diversion	1957
EM/3/117	Middlewich Urban District Council Sewerage and sewage disposal, 1964-1965 and 1971-1977 (A.H.S. Waters)	1964-1977
EM/3/118	'Miss Mary Fisher' Boreholes at Lyneham, Wiltshire. Correspondence (including dated 1934 in error) and Morton notes. Mary Fisher came to Morton for geological and borehole advice <i>re</i> water supply for proposed poultry farm site.	1935
EM/3/119	Nantwich Rural District Council Water supply. Brief correspondence <i>re</i> loan of water mains map for Mr Pyne (of the City Engineer's Department, Manchester), to aid him with his university course's Town Planning thesis.	1942
EM/3/120	National Farmers Union (Staffordshire County Branch) Various farmers' objections to applications to sink boreholes on their land, seen as affecting their water supplies, 1957 and 1963-1964, including application by Brittain's Ltd of Cheddleton Paper Mills to abstract water under section 14 of the Water Act. Correspondence, notes, report, etc.	1957-1964
EM/3/121	Neath Rural District Council Augmentation of water supply: potential underground water sources especially in the Resolven-Glynneath area.	1946-1959

Consultancies

EM/3/122	Nelson Corporation Waterworks	1945-1956
	Proposed augmentation from underground water supplies: Nelson WO; Inquiry and objections; Whitehough and Blacko boreholes.	
	Correspondence, pumping and other test data, Morton and other reports, specification, notes, Inquiry documents, notebook, etc.	
	See also North Calder WB EM/3/127 for further Blacko borehole material.	
EM/3/123	New Mills Urban District Council	1899-1934
	2 folders.	
	Chiefly investigation into possible additional water supply source: Grove Mill borehole [at Garrison Bleachworks], 1933-1934.	
	Correspondence, chemical analysis of water samples, notes, and report, etc; also includes material re 1899 New Mills Bill: Boyd Dawkins Proof [of Evidence], printed copy of Bill, petitions against the Bill, maps and geological section.	
EM/3/124	Newark-upon-Trent Corporation	1955-1962
	Newark-upon-Trent Corporation and Borough of Newark-on-Trent.	
	Farnsfield Waterworks extensions: Newark WO Inquiry 1958; Farnsfield PS; proposed new service reservoir; etc.	
	Reports including maps, notes, Inquiry documents, correspondence, and geological diagram.	
EM/3/125	Newcastle and Gateshead Water Co.	1946
	Copy of Address by S.G. Barrett, Chairman of the Institution of Water Engineers, Northern Section, annotated by Morton.	
EM/3/126	Newton-le-Willows Urban District Council	1915-1960
	3 folders.	
	Augmentation of water supply: Makerfield and Park Road	

Consultancies

boreholes (including National Coal Board); Public Inquiry and proposed WO; Sankey Sugar Co. Ltd borehole licence application, 1960.

Plans, correspondence, notes, test data, specifications, Morton and other reports including mineral valuer's and water samples analysis, Inquiry documents, rainfall figures (1915-1944), copies of earlier documents (including Boyd Dawkins) going back to 1870, notebook, etc.

EM/3/127	North Calder Water Board	1964-1970
----------	--------------------------	-----------

Augmentation of water supply: Trawden Service Reservoir Scheme: Blacko (Craven Laithe Farm, etc) and Corn Close Farm boreholes; trial boreholes at Ogden and Wood Nook *re* Nelson WO, 1953.

Maps, plans, correspondence, Morton and other reports, notes, specification, test data, etc.

See also Nelson Corporation WW EM/3/122 for other Blacko borehole material.

EM/3/128	North Devon Water Board	1951-1977
----------	-------------------------	-----------

18 folders.

Meldon Reservoir Scheme: Gorhuish, Lower Slade, Wistlandpound, Stengator, and Meldon Reservoir and Reservoir sites; question of pollution of impounded waters by arsenic from the old mine workings of Forest Mine, Homerton Mine, and Meldon Mine, in the catchment area; North Devon WOs, Inquiry and objections; proposed new dam and reservoir, Tamar Lake

Plans including aerial survey (Gorhuish), reports including Rowe's, site investigation, maps including bound 'Hand Map', borehole logs, notes, correspondence, photographs (including aerial) and negatives, contract and Inquiry documents, press cuttings, borehole logs, calculations, grouting records (Upper Tamar Reservoir), etc. Also printed booklet, *The Meldon Story*, published by the Dartmoor Preservation Association, *ca* 1972, against the flooding of the West Okement River at Meldon, in the Dartmoor National Park, part of the Meldon Reservoir Scheme.

EM/3/129	North Kesteven Rural District Council	1942
----------	---------------------------------------	------

Question of effluent from proposed flax factory likely to 'join

Consultancies

the main body of...water...being drawn upon by the [Dunston] Pumping Station' in the vicinity

Letter from H. Raeburn, Ministry of Health, and Morton's pencilled draft and typescript reply.

EM/3/130 North Lindsey Water Board 1950-1971

17 folders.

North Lindsey WB and Lincs. RA etc.

Augmentation of chalk (limestone) water supply: boreholes including Ulceby Chase, Goxhill, Thornton Curtis (including WO), Deepdale Farm, Barton PS, and Barrow PS (the latter including pollution); proposed Humber Bridge (1959); proposed underground ironstone workings, Worlaby and Bonby parishes (1960); North Lindsey WB and other WOs; borehole licence applications and Inquiries, including objections; proposed industrial waste tipping at Coleby; River Ancholme Valley Reservoir Scheme including proposed storage reservoir, Cadney Carrs site; Trent and Lincs. Water Bill; proposed Scunthorpe to Immingham effluent pipeline, British Steel Corporation; Hilbaldstow and Winterton Carrs abstractions and trial boreholes

Correspondence, notes including inspection, plans including geological sections, maps including printed coloured geological map, rainfall records, photographs (slip in railway cut near Wrawby), borehole logs, booklets including *re* pipeline above, test data, Morton notebooks, press cuttings, reports, Inquiry documents, etc.

See also Lincolnshire RA EM/3/99.

EM/3/131 North-East Lincolnshire Water Board 1954-1973

15 folders.

(?formerly the Grimsby, Cleethorpes and District Water Board)

Augmentation of water supply including Louth area: Great Eau Scheme: Proposed Alvingham Reservoir (1971-1973); River Trent Scheme; Limber Grange irrigation supplies; Newsham Lake; industrial water supply schemes including Birds Eye Foods Ltd.; Water Board proposals; various Water Orders and Pumping Stations including Tetney, Habrough, Little London, Crystal Springs, and Healing; storage reservoirs, Saltfleetby site and Fulstow; Waddingham and other boreholes; limestone resources.

Consultancies

Rowe's and other reports including site investigation, and (Fulstow Reservoir) soil tests report, correspondence, test data and other technical data, contract and tender documents, press cuttings, earlier-dated copy documents, Inquiry documents, observation well records, borehole records, etc.

See also Grimsby, Cleethorpes and DWB EM/3/79.

EM/3/132	North-East Warwickshire Water Board	1965-1970
	5 folders.	
	Future water supply: Shuttington Pools Reservoir - River Anker Scheme; exploratory (trial) boreholes including Austrey, Newton Regis and Appleby Parva.	
	Report, Strata Sheets, test data including pumping tests and laboratory tests report, press cutting, maps and diagrams, correspondence, notes, and contract document.	
	Including Trent RA general instructions for conducting pumping tests on new boreholes, n.d.	
EM/3/133	Not used.	
EM/3/134	North West Leicestershire Water Board	1969-1982
	4 folders.	
	Proposed new water sources: opencast coal workings supply; Heather PS and borehole; Belton borehole; High Tor Reservoir.	
	Plans including dated 1968, correspondence, test data, contract documents, notes, diagrams, etc.	
	See also Leicestershire County Council EM/3/634.	
EM/3/135	North West Sussex Water Board	1943-1971
	Pipe crossing of Rivers Rother and Arun at Hardham, near Pulborough, Sussex: Hardham pipe culvert site investigation, 1967-1971.	
	Plans, borehole logs, test data, piezometer and observation well readings, correspondence, and Soil Mechanics Ltd Report.	

Consultancies

EM/3/136 North West Water Authority 1960-1988

20 folders.

Buckton Castle Water Treatment Works; proposed Hartshead Reservoir; Chelburn Reservoirs (Upper and Lower), part of the seven former Rochdale Canal Reservoirs in the Warland Reservoir Group - including involvement of Rowe; Hollingworth Lake; Ribble Division including Lancashire Conjunctive Use Scheme (LCUS) - Chorley Treatment Plant and proposed service reservoir; Featl(e)y Products Ltd legal Claim vs the Authority *re* alleged damage to River Irwell bankside buildings; Heapy Service Reservoir; site investigation (including coal mining position) *re* proposed Rossendale Road Service Reservoir, Burnley; Worthington Lakes including Adlington and Arley Reservoirs; St. Helens Water Supply Unit; Rainford Sewage Works including site investigation; Milnrow Service Reservoir Clause 12 Contractual Claim, West Pennine WB.

Morton notebooks, borehole records including copies dated 1963, test data, notes, photographs including panoramic (several sellotaped together in a fan shape) and aerial, geological and other reports and observations, correspondence, plans, contract documents, notes, etc. Including copy of Reservoirs Act inspection report, Worthington Reservoir, July 1960.

Also correspondence between Rowe, C.W. Isherwood, and North West Water, 1986, *re* appointment of J. Scriven as 'stand-in' geotechnical specialist for Rowe during periods of the former's absence, to maintain progress of construction for the Lostock Reservoir modifications.

See also St Helens Corporation WW EM/3/160 *re* Rainford Sewage Works.

EM/3/137 Northallerton-in-the-Dales Urban District Council 1947-1969

6 folders.

Augmentation of water supply (1964-1969); Cod Beck Reservoir and landslip (1947-1955).

Press cutting, correspondence, minutes of meetings, plans, weekly drilling reports, notes, grouting reports, technical and test data, etc. Including article from *Water and Water Engineering*, entitled 'The Cod Beck Reservoir and Works of the Northallerton and District Water Board', March 1954.

Consultancies

EM/3/138	Northumbrian River Authority	1971-1973
	11 folders.	
	Northumbrian RA and Northumbrian WA.	
	Kielder WO Inquiries including effect of mineral workings on Tyne Tees tunnels construction, alternative sites, and objections; Waskerley Reservoir; effluent disposal applications <i>re</i> disposal into Silksworth (?Silkstone) Colliery, and by Monsanto Textiles Ltd. into a deep borehole at Seal Sands; new Kielder Reservoir.	
	Inquiry documents including proofs of evidence, plans, press cutting, notebook, maps including geological, correspondence, reports including geological, borehole logs, notes, calculations, feasibility study, etc.	
EM/3/139	Northwich Rural District Council	1933-1947
	3 folders.	
	Augmentation of water supply: Eddisbury borehole extension.	
	Correspondence, Morton's and other reports, much copy material including document marked 'Letter from A. Timmins. 3rd. October, 1911', Inquiry and Waterworks Inspection documents, plans, test data including pumping (Cotebrook, and Sandyford PS), notes, maps, Morton lecture series details, Oct. and Nov. 1935, Boyd Dawkins copy Proof of Evidence for Northwich UDC parliamentary bill, and printed map, 1914, notebook (mostly blank), etc.	
	Also reference to Morton 'being at present at Llandudno recuperating after his recent and rather serious illness', Jan. 1936.	
EM/3/140	Nottingham Corporation	1897-1968
	19 folders.	
	Nottingham Corporation/City Water Department.	
	Augmentation of water supply including Derbyshire and South Nottinghamshire: applications under section 14 of the Water Act for borehole licences from Nottingham University, Boots Pure Drug Co. Ltd, and British Railway Executive; Public and Private Inquiries; developments at Lambley, Markham Clinton, and other PS, etc; Nottingham and Newark WOs; Nottingham Corporation Bills in Parliament, and opposition to same; proposed sites for new wells.	

Consultancies

Printed and other maps (some dating to 1897), Inquiry documents, River Trent chemical analysis, plans including colliery workings, correspondence, notes, contract document, test data, Morton and other reports including mining, and printed reports, field and other notebooks, Hydro-geological Survey including photographs, calculations, printed Parliamentary Bills and petitions, etc. Also Boyd Dawkins documents (some copies), especially *re* Nottingham Corporation Bills in Parliament.

EM/3/141 Oldham Corporation Water Undertaking 1956-1990

6 folders.

Augmentation of water supply: future supplies including potential borehole sites at Blackstone Edge Works, Piethorne Works, Denshaw Works, Castleshaw Works, Strinesdale Works (Brushes Clough), and Clegg Moor area (1956-1959); North West Water Ltd - Piethorne and Denshaw Valley Reservoirs remedial works and discontinuance works including Ogden (Milnrow), Kitcliffe, Hanging Lees, Norman Hill, Crookgate, Dowry, Readycon Dean, and New Years Bridge Reservoirs (1988-1990).

Maps, plans, correspondence, copy material dating back to 1935, notes, rainfall readings, reports, site investigation material, test data, progress meetings notes, photographs and negatives (especially Kitcliffe Reservoir), etc.

EM/3/142 Orrell Urban District Council 1937-1958

3 folders.

Augmentation of water supply: Dean Wood WW and PS - National Coal Board borehole *re* new underground water supply from coal measures strata.

Notes, correspondence, reports, plans, map, water sample analysis, notebook, test data, press cutting, etc.

EM/3/143 Oswestry Rural District Council 1938-1954

Augmentation of water supply: 'W.D.' [War Department] and other boreholes - Brookside, Kinnerley Railway Station, Acksea Farm, etc; proposed Whittington PS under the Oswestry Rural District Council and Ellesmere Rural District Council Joint Water Supply Scheme.

Consultancies

Correspondence, test data, borehole records, water sample analysis, plans, Morton's reports, notes, etc.

EM/3/144	Pembrokeshire Water Board	1963-1977
----------	---------------------------	-----------

3 folders.

Llys-y-Fran Reservoir including site investigation of the two proposed dam sites at Llys-y-Fran and Farthings Hook, locating of suitable concrete aggregate for the dam, and grouting.

Photographs including panoramic (several sellotaped together overlapping in a fan shape), notes, minutes of meeting, stability analysis, research paper, plans, map, correspondence, report (Soil Mechanics Ltd), test data, grouting analysis and job notes, contract document, etc

EM/3/145	Penmaenmawr Urban District Council	1948
----------	------------------------------------	------

Potential underground water supplies

Correspondence between Penmaenmawr UDC and Morton *re* request for Morton's geological opinion on the question of 'the practicality of boring for artesian wells' in the district, and his consultancy fees therein, August to October, 1948. Reference to Morton being on holiday in Switzerland, September 1948.

EM/3/146	Peterborough Corporation	1951-1961
----------	--------------------------	-----------

Applications by Park Gate Iron and Steel Co. Ltd to mine ironstone in the Stamford area and by Nassington Barrowden Mining Co. Ltd to mine ironstone in Ketton and South Luffenham, and concerns *re* possible pollution effects on the Corporation's water supplies, 1961.

Correspondence, plan, notes, etc, 1961, and (mostly copy) documents *re* previous ironstone working applications and consultancy work Morton undertook for Peterborough Corporation (dated 1951), etc.

EM/3/147	Plymouth City Waterworks	1940-1977
----------	--------------------------	-----------

16 folders.

Plymouth City/Corporation WW and Plymouth and SW Devon Water Board

Consultancies

Proposed Reservoir and Dam Schemes: Lee Mill, Tavy, Harter [?Hart Tor], Cowsic Valley, Townleigh, Hill Bridge, Lee Mill, Milton Brook, Swincombe (including tunnel repairs), Huccaby, Hexworthy PS, etc., including site investigation, and trial boreholes; 'suggested raising of the Burrator and Sheepstor Dams or building new dams below them'; Curtisknowle and Woodcourt dam sites; water resources - Buckland Abbey Estate; Plymouth and SW Devon Water Bill, 1969-1970 including proposed Morley Reservoir; mining position concerns.

Correspondence, maps and plans including mining and geological, test data, Morton's and other reports including geological and site investigation (Lee Mill report has photographs pasted in), press cuttings, notes, Morton notebooks, borehole and mining data, contract documents, parliamentary committee and Bill documents, proofs of evidence, copy documents dating back to 1928, site reports and site drilling logs, photographs (test pit, Townleigh Reservoir site), etc.

See also Cornwall RA EM/3/44.

EM/3/148

Portsmouth and Gosport Water Co.

1945-1986

19 folders.

(Formerly Portsmouth and District Water Co.)

Augmentation of water supply: WOs including *re* Soberton, Walderton, and other PS, Public Inquiry, 1951, Regnum underground water resources, Ems Valley Scheme, Worlds End Scheme, and South East Study *re* area water supply, Southampton and Portsmouth; proposals for tipping at gravel pits, West Hampnett, modernisation of Warnford Estate watercress beds, Havant Thicket Storage Reservoir including site investigation, and for Lovedean and other Source Works; Meon Valley; Loveland and Loveland vs Chichester DC, West Sussex County Council, and Portsmouth Water Co. *re* Summersdale Road subsidence, Chichester

Correspondence, press cuttings including *re* seeming earth tremor or earthquake felt at Chichester, 1963, Morton's, Rowe's and other reports including printed, plans, maps, notes, test data, parliamentary Inquiry documents including printed and bound Minutes of Proceedings, Session 1929-1930, notebook, Weekly Pumping Returns and instrumentation readings, various printed booklets, copy documents dating back to 1905, and aerial photographs (Summersdale Road subsidence).

Consultancies

plans including copy plan dated 1873, maps, and notes.

EM/3/164

Severn Trent Water Authority

1967-1997

172 folders

Severn Trent Water Authority [later includes the NW Gloucestershire WB], Trent RA, River Dove WB, Rugby JWB, Melton BC, etc

Carsington Aqueduct and Dam (including Contract No. 6), and Reservoir Scheme, Derbyshire, 1972-1995: Failure of dam embankment, and subsequent investigations, Claim, various contracts, contract counter-Claim, site investigation, and rebuilding; Foremark including grout curtains; Hallgates Terminal, Bradgate Road, and Stanford Reservoirs; Markfield to Groby Trunk Sewer, 1981; River Strine improvement works, 1975-1976; miscellaneous including Draycote, Churchdown (including NW Gloucs. WB), Cowleigh 'New', and Ardleigh Reservoirs, and Nanpantan hydrosand filters; Rothley Valley Trunk Sewer, Phase 1: Thurcaston to Wanlip Tunnel Section; Scalford Brook Flood Alleviation Scheme ['F.A.S.'], Leicestershire, including Melton Country Park (Melton Mowbray BC appears to be the client): Site investigation, progress, dam cracks, etc

Correspondence, test data, maps, plans, reports, notes, graphs and plots, notebooks, photographs and negatives, borehole logs, drilling records, instrumentation readings, J. Scriven material including for talk (Scalford Brook FAS) and Design Practice course, University of Manchester, etc (folder 158).

Carsington material also includes various published articles including *New Civil Engineer* magazine, reports by Rowe and others including 'The Mechanism of Failure' December 1985 and March 1986, Claim documents, Rowe material including handwritten letters and notes, diary (P.G. Eccles [G.H. Hill and Sons]), 1984, press cuttings, photographs including aerial (some dated 1966), negatives, photographic slides, Carsington Slip Investigation Official Register of [rock] Samples, 1984, chronological 'Key Dates' sheet (both in folder 32), Berrymans (solicitors) correspondence and other documents, Rock Classification notes and petrology (especially in folder 59), calculations, piezometer data, rainfall records, policy minutes, Hognaston North Instrumented Readings, Meerbrook Sough report, and Morton and J. Scriven notebooks including general notebooks (folder 87) found with the Carsington material covering various reservoir and other projects, such as Burnley, Grimwith, Foremark, Winscar, Scalford Brook, Hallgates, Colliford, and the Markfield to Groby Trunk Sewer. Including *Stream*, Severn Trent Water publication, no. 113, Feb./Mar. 1985 (folder 145).

Consultancies

Additional material (in folders A-H): Carsington sites and slip investigations (including Trent RA material); NW Gloucs. WB/Severn Trent WA Gloucester Water Supply Division material - River Wye Abstraction Scheme and Cheltenham Northern Water Supply Scheme: Mitcheldean Treatment Works and Reservoir, proposed Stroud Reservoir, Westrip reservoir site, Bigwell Adit, Woodmancote Reservoir, River Severn crossing,

| EM/3/169 | South Derbyshire Water Board | 1968-1970 |
| | 2 folders. | |
| | Wirksworth Reservoir Scheme: proposed Wirksworth (Washgreen) Service Reservoir including site investigation. | |
| | Instrumentation readings, correspondence, plans, maps, notes, test data, boring records, etc. | |
| EM/3/170 | South Devon Water Board | 1954-1957 |
| | Proposed concrete dam on the River Avon: Morton requested to be consultant geologist for the project | |
| | Negatives [no accompanying photographs], notes, correspondence, progress reports, list of boreholes, etc. | |
| EM/3/171 | South Kesteven Rural District Council | 1952-1956 |
| | Proposed sites for 'nightsoil disposal' <i>re</i> underground water supply sources. | |
| | Correspondence, notes, report, etc. | |
| EM/3/172 | South Lincolnshire Water Board | 1962-1972 |
| | 8 folders. | |
| | South Lincolnshire WB, Lincolnshire RA and Welland and Nene RA. | |
| | Augmentation of water supply: proposed Holbeach Booster Station and Reservoir; Public Inquiries, Section 14 borehole licence application(s), various PS and boreholes; South Lincs. WO, 1966, and Aslackby and Rippingale Fens boreholes; proposed National Farmers Union reservoir sites at Empingham and Manton in Rutland, 1969, and related Welland and Nene and Mid-Northamptonshire Water Bill. | |

Consultancies

Maps, plans, correspondence, reports including Inspector's and Spalding UDC WW Engineer's Second Report, test data including soil survey results (Holbeach), notes, contract documents, etc. Including Empingham Reservoir article in *The Consulting Engineer*, vol. 36 (November 1972).

EM/3/173 South Staffordshire Waterworks Co. 1950-1984

15 folders.

Correspondence, calculations, test data, plans, notes, photographs, borehole logs, report, etc. *re* Shavers End No. 1 Reservoir, Dudley: Investigation of roof cracking, followed by proposed remedial works to roof drainage, 1981-1984 (folders 1-6 inclusive). Including company publications, 1982-1983. Chelmarsh Reservoir material comprises grouting tracings, plans, and daily [drilling] report sheets.

Stafford Corporation WW and Water Undertaking - Weston Jones and Aqualate (Park Farm) boreholes, 1964-1970; proposed experiments *re* Power Station fly ash disposal, 1968; augmentation of resources, Wolseley and Essex bridge sites.

Test data including pumping, notebook, correspondence, etc. including copy documents dating back to 1939.

Contract document *re* Hagley PS boreholes, 1956; notes, 'GDN' draft report etc *re* 'Variation of Well Water Composition' 1950-1969 (? 'aquifer prot. 4039E01'); J. Scriven file of correspondence, test data, plans, photographs, negatives, notes, earlier-dated background material, etc. *re* Barr Beacon Reservoir No. 1 pollution incidents, May-June 1993.

Also Stafford Water Supply Division (Severn Trent Water Authority) documents found with the above material - *re* trial bore at Pegg's Farm, Higher Offley.

S. Staffs. (Draft) WO Public Inquiry Transcripts of Proceedings, November 1959.

A large number of files were removed and passed to the S. Staffs. WW Co., October 1992 (including the Green Lane offices files): covering dates approx. 1937-1985.

See also Spilsby Rural District Council EM/3/179.

EM/3/174 South Westmoreland Rural District Council 1946-1959

Millrigg source of supply, Staveley; Lupton and Helsington

Consultancies

water supplies and the proposed reservoir at Wyndhammere.

Notes, maps, Morton's report, plans, sketches, correspondence, etc.

EM/3/175	South-East Breconshire Water Board	1963-1977
----------	------------------------------------	-----------

3 folders.

Cairn Mound Reservoir, Bryn Mawr, including embankment leakage, October 1976.

Reports including site investigation, notes, correspondence, photographs and negatives, test data, plans, borehole logs, etc.

EM/3/176	South-West Devon Water Board	1968
----------	------------------------------	------

Swincombe Reservoir: site investigation.

Contract No. J1 (City of Plymouth and SW Devon WB), Nov. 1968.

EM/3/177	South-West Water Authority	1966-1993
----------	----------------------------	-----------

165 folders.

Roadford reservoir including Woodland and Higher Horslett Reservoirs, and tunnel Scheme; Colliford Reservoir including Park Pit sand waste and Kernick Dam; Wimbleball Reservoir; Milton Brook Reservoir, and Plymouth (Tavy) Interim Supply Scheme including Lopwell intake and PS; Isle of Scilly: water supply, St. Mary's; etc

Correspondence, plans, maps, notes, calculations, drilling records and borehole logs, reports, test data, water sample analyses, press cuttings (including Edgar Morton & Partner advertisements), commemorative booklets, site investigation and contract material, reservoir monitoring, photographs and negatives, slides, notebooks, Geophysical Surveys, siesmicity (Roadford), *New Civil Engineer* magazine articles (Wimbleball etc), documents *re* various Inquiries, site investigation material, monitoring, and grouting, 'appraisal of hazards at water supply installations following the Abbeystead Incident', etc. Also material from related Water Boards, tip sample (Lamelgate site, Colliford), Sheepstor Dam (Burrator Reservoir) material, and Boyd Dawkins paper on 'China Clay: Its Nature and Origin', Institution of Mining Engineers, 1908.

Consultancies

Including additional material (folders A-Q) for Colliford Reservoir, Wimbleball Reservoir, and Roadford Reservoir (including Woodland Reservoir).

See also Cornwall RA EM/3/44.

Consultancies

Correspondence including letter from the Association thanking Morton for his help, press cuttings, photographs, maps, plans, Inquiry documents, reports including hydrological and engineering, test data, notes, biological survey, instrumentation readings, etc.

EM/3/184 Sunderland and South Shields Waterworks Co. 1947-1964

12 folders.

Augmentation of water supply: Derwent Reservoir Scheme: Proposed reservoir and dam including cut-off trench, grouting, de-watering, valve shaft, diversion tunnel, etc; Hartlepoons WO, 1959; Mill Hill, Hawthorn, and Harton boreholes; Sunderland wells abstraction including Burdon PS; borehole licence application by J. Nimmo and Son Ltd *re* Castle Eden Brewery, Co. Durham.

Correspondence, reports including Rowe's, plans, maps, notes, test data including pumping and soil tests, drilling logs, contract and tender documents, sand samples (Mill Hill borehole), notebook, photographs, copy documents dating back to 1900, etc.

The Derwent Reservoir was a major project with which Rowe was involved with Edgar Morton and Partner, working on site investigation, design, testing and construction.

EM/3/185 Sutton and District Water Co. 1944-1968

6 folders.

Augmentation of water supply including to Croydon 'B' power station; Croydon Corporation WW water abstraction, Waddon PS; Oaks PS including WO and Inquiry *re* effluent discharge, BP Chemicals (UK) Ltd; subsidence in Gander Green Lane, Sutton, near to Cheam PS; other WOs.

Morton notebooks, observation well data, graphs, reports including Television Inspection Report, test data, notes, correspondence, photographs, plans, maps, Inquiry documents, etc. Including Boyd Dawkins paper 'On the Relation of Geology to Engineering', with manuscript notes, 1898, and other 19th century background material.

EM/3/186 Swansea Corporation Waterworks 1962-1967

2 folders.

Consultancies

Proposed Windmill Hill Service Reservoir including consolidation of old mine workings underneath the proposed site.

Notes, calculations, press cutting, correspondence, plans, reports, borehole records, maps, contract documents, etc.

EM/3/187 Tarvin Rural District Council 1934-1943

Regional Water Scheme, 1934-1937: proposed borehole; feasibility of possible spring source to supply the Townships of Barrow and Guilden Sutton from Ashton Brook Valley, near Swinfordmill Farm.

Reports, correspondence, water sample analysis, statistical data, notes including dated 1943, etc.

EM/3/188 Taunton Corporation Waterworks 1949-1965

3 folders.

Taunton Corporation WW and Borough of Taunton

Proposed Clatworthy Reservoir; possible underground water supply sources

Reports, notes, plans, correspondence, contract documents, notebook, photographs, etc. Including booklet 'Description of the Clatworthy Scheme' for Institution of Water Engineers visit, 22 April 1960.

Photographs include Lee Mill (Plymouth City WW), Sibbyback Dam (E. Cornwall WB), Thruscross Dam (Leeds Corporation WW) including overview of dam amidst surrounding countryside during construction, and a group photograph depicting 'Monthly Site Inspection by the Gane'.

EM/3/189 Tavistock Urban District Council 1949-1952

Augmentation of water supply: proposed borehole; Tavistock WO; Wilminstone Quarry; etc.

Plans, notes, Morton's report, and correspondence.

EM/3/190 Tees Valley and Cleveland Water Board 1952-1966

11 folders.

Consultancies

Proposed reservoir at Balderhead, Upper Teesdale. Includes alternative proposals for dam at Cauldron Snout and reservoir at Dineholme, and construction of Balderhead Reservoir; Selset Reservoir.

The Balderhead site was favoured over Dineholme and Cauldron Snout, despite its higher cost and lower water yield, following successful opposition by the Royal Botanical Society, Baron Barnard and others. The opposition was prompted in part by the discovery of a rare Alpine plant, the Blue Gentian, in the valleys at Dineholme and Cauldron Snout.

Correspondence, plans including geological sections, maps, Morton and other reports including mines and geological, press cuttings, test and observation wells data, grouting, notes, borehole logs, Inquiry documents, photographs and negatives (Cauldron Snout), notebook, etc.

See also EM/3/84 Hartlepoons Water Co.

EM/3/191	Trent River Authority	1965-1974
----------	-----------------------	-----------

10 folders.

Development of Rivers Dove and Derwent: Carsington Reservoir: Public Inquiry *re* proposed reservoir sites of Carsington and Hassop; proposed Brund and Winkhill Reservoirs including Leicester Corporation Water Bill and objections (Manifold Valley Scheme) - National Trust and others in opposition; River Sow [Sowe] Scheme, Stafford

Plans, photographs (Dale End, Babington House, and aerial), Inquiry documents, reports, maps, published booklets (Manifold Valley Scheme) one with a foreword by Sir John Betjeman, borehole logs, contract document, copy documents dating back to the 1940s, correspondence, meetings notes, press articles and cuttings, notebook, etc.

See also Severn Trent WA EM/3/164.

EM/3/192	Trowbridge, Melksham and District Water Board	1939-1960
----------	---	-----------

3 folders.

WO, 1954, and Inquiry including proposed new borehole at Biss Bottom, Upton Scudamore, Wiltshire, its effects upon Biss Brook, and development of Upton Scudamore PS

Correspondence, notes, plans, maps, reports and drafts,

Consultancies

Inquiry documents, etc.
