

Supplementary catalogue of the papers and
correspondence of

Sir Richard Southwood

(1931-2005)

By Jeannine Alton, Heather Bird and Timothy E. Powell

NCUACS catalogue no. 148/5/06

Title: Catalogue of the papers and correspondence of Sir Richard Southwood
FRS, 1931-2005, zoologist

Compiled by: Jeannine Alton, Heather Bird and Timothy E. Powell

Date of material: 1930s-2006

Extent of material: ca 520 items

Deposited in: Department of Special Collections and Western Manuscripts, Bodleian
Library, Oxford.

Reference code: GB 0161 TRE Southwood papers

GENERAL INTRODUCTION

PROVENANCE

The papers were assembled from Southwood's rooms in the Department of Zoology, Oxford, and from his home on various dates May 2005-July 2006.

OUTLINE OF THE CAREER OF SIR RICHARD SOUTHWOOD

Thomas Richard Edmund Southwood was born in 1931 at Northfleet, Gravesend, Kent and educated at Gravesend Grammar School, and at Imperial College London, where he graduated in 1952 with first class honours in Zoology. He had already, in 1948 as a schoolboy, and later during university vacations, spent time as a voluntary worker in the Entomology Department at Rothamsted Experimental Station, Harpenden, Hertfordshire. He returned there in October 1952 with an Agricultural Research Council (ARC) scholarship as a full-time research student, under the overall supervision of C.B. Williams though working in practice under the supervision of C.G. Johnson. He completed his thesis, on 'Some studies on the systematics and ecology of heteroptera', in 1955. His association with Rothamsted continued later in life when he became Chairman of the Lawes Trust, which funds some of its research.

He returned to Imperial College Silwood Park to work on frit fly ecology with W.F. Jepson. His subsequent career at Imperial College advanced rapidly through lecturer to reader and professor; in 1967 he succeeded O.W. Richards as Head of the Department of Zoology and Applied Entomology, and also served as Director of Silwood Park, Dean of the Royal College of Science 1971-1972, Acting Head of the Biochemistry Department 1973-1974 and Chairman of the Division of Life Sciences, Imperial College 1974-1977. In 1977 Southwood moved to Oxford University as Linacre Professor of Zoology and Fellow of Merton College, serving the University as Vice-Chancellor 1989-1993 and then as Pro-Vice-Chancellor. He was also President of the Campaign for Oxford, and Rhodes Trustee 1986-2002 (Chairman 1999-2002).

Southwood's interest in natural history, based on the observation of plants and creatures around his childhood home, began at a very young age. His early entomological work was on the morphology and taxonomy of Hemiptera-Heteroptera. Aspects of his Ph.D. studies on the migrations and movements of insects and the ecology of field-margins suggested long-term research into habitat and the influence of the environment, whether natural or man-made, on population density and survival. Examples are the study of insect fauna in different species of tree, and the impact of agriculture on the natural ecosystem shown in the decline of the partridge population in Western Europe. His

interests extended to the dynamics of natural populations and communities and he was particularly concerned with the appropriate methodology (for both measurement and analysis) and the development of models to provide a general synthesis (e.g. his habitat templet). Studies on the structural dynamics of natural systems and the problems of maintaining a balance between these and the demands of man continued as the basis of Southwood's scientific research and of his public work.

Southwood's public service was extensive and important. He served as Chairman of the Royal Commission on Environmental Pollution, 1981-1985 (Commissioner from 1974). Three major Reports were published during his Chairmanship, and several research projects launched. The 1983 Report 'Lead in the Environment' was influential in arousing official and public concern. In 1985 Southwood took up the appointment as Chairman of the National Radiological Protection Board (Member of the Board from 1980), serving until 1994. He established an 'Environmental Issues Panel' with a wider membership including 'Green' organisations, and chaired an International Conference on the Biological Effects of Ionising Radiation organised by Friends of the Earth and Greenpeace International. He also played a leading role in the Surface Water Acidification Programme, a tripartite research programme, conducted by the Norwegian and Swedish Academies of Sciences and the Royal Society (for the UK), set up to investigate claims that sulphur emissions ('acid rain') emitted by UK industry and especially by the Central Electricity Generating Board were adversely affecting fish in Scandinavian surface waters. He became Chairman of the Management Group on the death of Sir Maurice Sugden in 1984. Southwood chaired the Working Party on Bovine Spongiform Encephalopathy set up jointly by the Ministry of Agriculture, Fisheries and Food and the Department of Health and Social Security to report on the recently identified cattle disease commonly known as BSE. The Working Party made recommendations in 1988 and 1989, and reported in 1989. He was Chairman of the UK Round Table on Sustainable Development, 1995-1999 and Chairman, Inter-Agency Committee on Global Environmental Change, 1997-2000. He also served as a Director of Glaxo Wellcome plc, 1992-1999.

Southwood's contributions to ecological research, administration and public policy resulted in many awards, including a knighthood in 1984, honorary degrees and elections to fellowships and academies across the world. He was elected to the Fellowship of the Royal Society in 1977 (Croonian Lecture 1995) and as a Foreign Member of the US National Academy of Sciences in 1988. He died on 26 October 2005.

DESCRIPTION OF THE COLLECTION

The catalogue is a further supplement to those compiled in 1998 (NCUACS 72/1/98) and 2000 (90/3/00). It also includes a little material on BSE supplementary to that catalogued in 2002 (NCUACS 108/7/02).

The material is presented in the order shown in the List of Contents. It has been arranged to follow the sequence of the previous catalogues. Some overlap in material assembled in so piecemeal a fashion is inevitable, but efforts have been made to signal and cross-reference such occasions as far as possible.

Though the collection is in part a continuation of earlier material, it now includes papers which Southwood had previously retained as ongoing commitments and also new material representing his active research and public work in retirement. Some previous sections such as those on the Round table on Sustainable Development and Surface Water Acidification Programme (SWAP) were already fully covered and are no longer featured. Similarly, the section on lectures and speeches which appeared in earlier collections is absent, being subsumed in sections F (Publications and Editorial) and H (Visits, Conferences, Addresses). Several other sections are relatively slight as they deal with institutions with which Southwood no longer had direct involvement, though he maintained contact with them: hence there are few entries under the earlier sections J, K, M, O and P. Conversely there is substantial new material in sections F (Publications and Editorial) and G (Societies and Organisations).

The following paragraphs are intended to draw attention to items of biographical or scientific interest.

Section A, Biographical and personal, documents Southwood's lasting and often expanding connections with the institutions and colleges of Oxford University, and the many appointments he declined in later years. It also contains the tributes - published and personal - paid in his last illness and after his death in October 2005. The letters, cards and notices kindly made available by Lady Southwood (A.348-A.374) come from a very wide range of friends and colleagues, from school friends of the 1930s to every subsequent stage in Southwood's career and form a touching and impressive memorial document.

Section B, Imperial College London, is slight, dealing with later commemorative occasions.

Section C, Oxford University, contains a more complete account than previously of Southwood's lectures in the Department of Zoology, and especially of the introductory course on 'Biology of Organisms' which he gave regularly, even during his service as Vice-Chancellor, as part of his golden rule of keeping in touch with undergraduate teaching. They formed the basis of his last book *The Story of Life* published in 2003. There is also documentation for institutions with which he had a long-term involvement such as the Environmental Change Unit and other initiatives relevant to environmental and sustainability issues.

Section D, Research, includes the early field notebooks which Southwood had retained, and which were brought into use when he returned in retirement to research and publications on some of his first ecological topics such as oaks and long-term experiments. This section also includes some unpublished notes and drafts.

Section F, Publications and editorial, is extensive, complementing material in earlier collections and also new work. Material on *The Story of Life* includes abortive negotiations with Weidenfeld and Nicholson before the book was successfully published by Oxford University Press. The stream of new papers ends with Southwood's posthumous paper, published in collaboration in 2006, and several unpublished items.

Section G, Societies and organisations, is another extensive section, with 36 named entries, some a continuation of material previously retained by Southwood as ongoing. A substantial account is therefore now possible of his work as a public servant as Chairman of the Intergovernmental Agency on Global Environmental Change (IACGEC), as a long-term devoted servant of the Lawes Agricultural Trust, and as a servant of Oxford University through the Rhodes Trust. Less substantial entries nevertheless indicate how Southwood was in great demand as advisor or patron.

Section H, Visits, Conferences, Addresses, covers Southwood's later years and especially his involvement with the work of the Round Table on Sustainable Development, on whose work he often spoke.

Section J, Royal Commission on Environmental Pollution, postdates Southwood's direct involvement with the Commission and testifies mainly to his continuing interest in its reports and projects.

Section K, National Radiological Protection Board, is also a short section dealing mainly with commemorative events 1996-2003.

Section M, Bovine Spongiform Encephalopathy (BSE), is a useful complement to material previously catalogued in 1998 and 2002, since its core is the activity in which Southwood was closely involved in 1996 following the first public announcement of a possible link between BSE in cattle and CJD in humans.

Section O, Glaxo-Wellcome, provides a little additional material to that previously available. It dates from 1996 to 2000.

Section P, Central European University, deals mainly with the years 1993-2005 and relates to the Department of Environmental Studies and Policy at CEU. Southwood had played a major part in its

establishment, had headed it until 1995 and continued to give lectures until failing health obliged him to cancel.

Section R, Correspondence, includes both scientific and personal exchanges, as well as many professional and social invitations testifying to Southwood's popularity.

Section S, References and recommendations, is a substantial section further showing the great respect in which Southwood was held and the value attached to his opinion.

ACKNOWLEDGEMENTS

Primary thanks are due to Sir Richard himself, who made available most of the material, and regularly gave invaluable advice and information up to a month before his death.

Lady Southwood kindly allowed the letters of condolence to be included, and was very helpful in identifying some of the correspondents.

We acknowledge with thanks helpful advice from Mike Webb and Dr Christopher Fletcher of the Bodleian Library, Mr Ian Curtis of the Environmental Change Institute at Oxford, and Dr George McGavin of Oxford University Museum of Natural History.

| A.348-A.374 | MEMORIAL | 2005-2006 |

Southwood died on 26 October 2005. His funeral took place on 4 November and a Memorial Service was held in Merton College Chapel on 25 February 2006.

Although he had been in failing health for some time, Southwood retained all his qualities of enthusiasm and memory, and welcomed visitors. He also took thought for the disposal of some sections of his library, and in September and October he made available his Departmental Library to members and students of the Department, asking them to choose a volume or volumes as mementos. Thus, in addition to the large number of letters of condolence received at his death, there are many letters from friends, colleagues and students sent to him as messages of good cheer and thanks in his last weeks. These have been kept separate at A.348-A.351.

The letters of condolence kindly made available by Lady Southwood are of considerable biographical interest. Received from a very wide range of friends and acquaintances, and all evoking great affection and respect, they include reminiscences from contemporaries at Gravesend School, Rothamsted and Flatford Mill, Imperial College and Silwood Park as well as connections with later years at Oxford and with his public life.

This material, along with more formal tributes given at the Memorial Service or intended for publication, is at A.352-A.374.

|-------------|---|------------------|
| C.241-C.259 | Lectures and teaching | 1980-1987 |
| | <p>This is a much more complete account than previously available, particularly in respect of Southwood's 'Biology of Organisms' course which he updated and gave regularly at Imperial College London and Oxford and which formed the basis of his book (2003) <i>The Story of Life</i>.</p> <p>The material may include correspondence with members of the Department and with others involved in teaching and examining, as well as class handouts, syllabus and 'option' changes.</p> | |
| C.241-C.243 | Entomology | 1980-1987 |
| C.241 | Correspondence and papers | 1980-1982 |
| | <p>Mainly information on the aims of the Entomology Option, lecture topics and timetables, instructions for students, 1980-1982.</p> <p>Includes a little correspondence on visit to the Hope Entomological Collections 1981.</p> | |
| C.242 | Correspondence and papers | 1985-1987 |
| | <p>Timetables and lecturing arrangements for new Entomology Option, memorandum on the course by Southwood, his report on his departmental activities and publications 1986-1987.</p> | |
| C.243 | Class handouts, reading lists and references for Southwood's lectures. | 1987 |
| | <p>See also B.67, B.68, C.18</p> | |
| C.244 | Pests and Diseases Option | 1985-1986 |
| | <p>Brief correspondence, Southwood's manuscript notes, lecture synopses.</p> <p>See also C.22</p> | |

Oxford University, C.229-C.300

- | | | |
|-------------|--|-----------|
| C.245 | Ecology Option | 1987,1996 |
| | Correspondence and papers, timetables, references, lecture synopses. | |
| | Material 1996 relates to ecology and conservation field course. | |
| | See also C.21 | |
| C.246 | Evolution and Taxonomy Option | 1986-1987 |
| | Correspondence and papers. | |
| | Includes colleagues' lectures sent for information, reading lists, specimen examination questions. | |
| C.247-C.249 | Biology Prelims. | 1987-1992 |
| | Correspondence and papers from a folder so inscribed. | |
| C.247 | Correspondence and draft lectures from D. C. Smith. | 1987 |
| C.248 | Teaching arrangements. | 1987-1990 |
| C.249 | Teaching arrangements for revised course for Biology Prelims.; specimen question paper. | 1991-1992 |
| C.250 | Notes and drafts for an extended lecture course on environmental problems. No date or place but found in file marked 'Teaching'. | N.d. |
| | Manuscript notes and narratives, with intercalated information, press cuttings etc. | |
| | Topics include air and water pollution, radiation, global warming. | |
| | Also includes copies of lecture on Agroecosystems and 1993 lecture on Risks from radiation (<i>Bibliog.</i> 201, 201A). | |

Oxford University, C.229-C.300

- C.251 'Socio-political aspects of conservation' c.1997-1999
- Manuscript and typescript draft and diagrams, apparently intended for student audience, given 1997-1999 during Southwood's Chairmanship of UK Round Table on Sustainable Development.
- C.252 'Methods in animal ecology' May 2000
- Lecture for Environmental Biology.
- Typescript and manuscript drafts.
- C.253 Notes on biodiversity and environmental problems, perhaps taken at conference, but headed 'Teaching file'.
- C.254-C.258 'Organisms and environment'
- This was the title given to Southwood's introductory lecture courses, given to first-year students for the Biology Preliminary Examination.
- Its core was a series of 14 lectures given twice weekly from 1981, and continuing for 18 years including his period as Vice-Chancellor of Oxford (latest reference 1999). He also gave a shorter course of 3 or 4 lectures on the evolution of diversity.
- The material was received in 3 hard-backed spring-back folders which have been discarded.
- Because Southwood constantly revised the work, updating references and incorporating his own new ideas or those of current researchers, there is some repetition and overlap, as well as the intercalation of photocopied material. It would seem that there was a mainly manuscript version, perhaps earlier (C.257), and the mainly typescript version described as 'Original. Whole term's lectures' (C.254) covering both the biology of organisms and evolution topics.
- The distinction, however, is far from clear and both versions contain manuscript and typescript material, in pen and pencil, with highlights, many revisions and additions and the incorporation of the latest research, with bibliographic references. Many lectures, or groups of lectures, include a specific bibliography as well as the overall reference list.

Oxford University, C.229-C.300

Several of Southwood's obituary tributes in Section A refer to these lectures as testimony to his scholarship, lucidity and lecturing skill and also to his wish to engage the interest of undergraduates at the start of their course.

- C.254 'Original. Whole term's lectures'
- Typescript and manuscript drafts of 14 lectures, with highlights, dividers, many revisions and additions. Includes bibliographies, outline of contents, timescales, diagrams.
- At end of lectures, suggestions for examination questions.
- Lecture 14 bears a Post-it note from Southwood to his listeners including 'Last lecture is the last time it will be given' (?1999).
- C.255 'Origins of life and organisms', with manuscript note 'Draft' c.1998
- A version of lectures 1-3, and of lecture 11 'Evolution of modern man', given 1998.
- Outline, synopsis, typescript and manuscript draft with highlights, pen and pencil corrections and additions, diagrams, references.
- C.256 'The evolution of diversity' c.1980
- Manuscript draft for lectures, mainly 3-5.
- Includes statement of 'The proposed whole organisms course for Prelims' October 1980, and correspondence and material from colleagues on their contributions to the course.
- C.257
- Another version of lectures, mainly manuscript, perhaps earlier though references continue to 1990s.
- Many corrections, revisions and highlights. Includes detailed circular on course, topics and lectures 1981, published lecture list 1989 and correspondence 1988 on R. W. Byrne's *The Machiavellian Ape*.
- At end of book, manuscript lectures on Evolution and brief material for lecture on Migration.

Oxford University, C.229-C.300

C.258 'Master copy' of Southwood's lecture outline, handouts, references 1996-1998

C.259 Examination questions and topics for Biology Prelims., with manuscript suggestions by Southwood, various dates 1986-1992.

C.260-C.282 INSTITUTIONS AND ACTIVITIES 1991-2002

Comprises correspondence and papers, in alphabetical order, dealing with various University institutions with which Southwood had a personal involvement, sometimes over a long period.

C.260-C.269 Environmental Change Unit (ECU) later Environmental Change Institute (ECI) 1991-2002

Southwood was involved with the Unit from its inception, both ex-officio as Vice-Chancellor and because of his own research interests. He was present, and spoke, at the launch of the Unit in February 1991. He chaired the first meeting of the Management Committee in July 1992 and served on the Advisory Committee set up at that time. He continued to attend, open or address ECU conferences and events and maintained his involvement subsequent to his resignation from the Advisory Committee in 1997. His replacement, Andrew Goudie, Professor of Geography, had been Chairman of the ECU Task Force.

The change of name to Environmental Change Institute took place in November 1999 (C.267) and the Institute is now a component of the O.U. Centre for the Environment (C.269).

See also C.176.

C.260 Launch of Environmental Change Unit, 14 February 1991

List of Founding Benefactors, speeches at Launch (including Southwood's).

Material kindly made available by I. Curtis, ECI, 2006.

Oxford University, C.229-C.300

1998-2001

Southwood was invited to chair the Scientific Advisory Board in 1998 and resigned in 2001.

Correspondence and papers including ideas for the organisation from members of the Board.

See also C.228.

SECTION D

RESEARCH, D.59-D.92

1930s-2005

This material, which Southwood retained in his Department, permits a fuller view of many aspects of his research than was possible in previous collections.

It begins with his work as an Agricultural Council Scholar at Rothamsted Experimental Station (now Rothamsted Research) 1952-1955 and continues at Imperial College from 1955. The field work is most intensive from the 1950s to the 1960s and covers much of his fundamental research on cereal pests, insect-plant relationships and the dynamics of insect communities in trees and grasslands. It is the basis of many papers, some collaborative, including his 'Citation Classic' on habitat (1988. *Bibliog.* 164).

After his service at Oxford as Linacre Professor of Zoology and as Vice-Chancellor, and on public advisory bodies, Southwood returned to the Department of Zoology where he resumed research and publications, notably on oaks, and on the long-term experimental project at Rothamsted. Research publications continued to appear up to the last year of his life, and indeed posthumously in 2006.

Some of the material presented here benefits from the unique advice and comment which Southwood himself was able to provide during 2005, but was, unfortunately, unable to complete. Such comments and identifications are quoted in the relevant entries.

Some early observations and data collected by others from the 1930s are sometimes included.

D.59-D.69

NOTEBOOKS

D.70-D.80

NOTES AND DATA

D.81-D.92

UNPUBLISHED DRAFTS AND NOTES

Research, D.59-D.92

D.59-D.69 NOTEBOOKS 1952-1967

These are green linen hard-backed loose-leaf binders (D.59-D.67 of uniform size), most with many flagged inserts indicating topic, place and date of work. They begin in 1952 at Rothamsted and continue at Silwood Park, Imperial College.

The early work is almost all in Southwood's hand. The later books include work in other hands, by members of the Silwood team, but all with checks, notes or additions by him. They are presented in approximate chronological order, and consist of detailed data and observations, usually with a careful note of location, time of day and weather conditions. Some of the books have a note of the subject matter on the spine and this is preserved in the entries, though it is not always entirely comprehensive,

D.59 Green hard-backed binder, with flagged inserts 1936-1954

Work on insect population at various sites round Rothamsted, almost all in Southwood's hand. Mainly regular observations April-November 1953 and some 1954, with careful notes of weather conditions, tabulated results and calculations.

At rear of book, some earlier data collected by others at other locations from 1936.

Also includes water-colour drawings by Southwood 1952, 1953.

D.60 Green hard-backed binder, with flagged inserts, inscribed 'Pastures Data' on spine 1953-1955

Observations of insect population, flight etc., at Rothamsted, almost all in Southwood's hand. Mainly regular observations 1954, with some 1953; 1955 on loose pages. Notes of weather conditions, tabulated data.

Also includes photograph of work in field.

D.61 Green hard-backed binder, with flagged inserts 1954-1961

Work almost all in Southwood's hand, begun at

Research, D.59-D.92

Rothamsted and continued at Silwood, also including other locations eg. Shingle Street, Buckingham Palace Gardens, some overseas data.

Work on insect population, spraying experiments, suction traps, tree sampling etc. Work continues to 1961.

At rear of book, loose pages on insects observed on trees June 1954.

- | | | |
|------|---|-----------|
| D.62 | <p>Green hard-backed binder, with flagged inserts, inscribed 'Stems 1955-56' on spine</p> <p>Observations and data on grasslands and <i>Oscinella frit</i> larvae, at various named sites, 1956-1961, some by Southwood, some by others, checked by him.</p> <p>Section on 'Hourly sweeps' contains his calculations of hatchings 30 July 1959 5am-9pm, and 'Flight times' 12 August 1959.</p> <p>Miscellaneous detailed tabulated notes on frit.</p> | 1955-1959 |
| D.63 | <p>Green hard-backed binder, with flagged inserts, inscribed 'Silwood Stems 1957-8-9' on spine</p> <p>Detailed notes, tables, observations on grasslands and insects, in several hands, at various locations at Silwood, 1958-1960 (NB no data for 1957).</p> | 1958-1960 |
| D.64 | <p>Green hard-backed binder, with flagged inserts, inscribed 'Plagiognathus' on spine</p> <p>Detailed data, experiments and calculations on various species of mirid with special reference to <i>Plagiognathus</i>, 1959-1961 and using earlier data collected by others.</p> <p>Material related to paper by Southwood and R. E. Blackith given at a meeting of Royal Entomological Society 4 May 1960 and published in the Proceedings (<i>Bibliog.</i> 32b).</p> <p>A report of the Meeting is included on loose pages.</p> | 1959-1961 |
| D.65 | <p>Green hard-backed binder, with flagged inserts of dates and topics, inscribed 'FRIT Budget 1956, 1959' on spine</p> | 1956-1959 |

Research, D.59-D.92

Detailed work and calculations, by Southwood and others 1956-1959, on population studies of *Oscinella* frit, sprayed and unsprayed fields, oatfields and lawn. (*Bibliog.* 41, 42, 43 refer).

The term 'Budget' refers to the numbers of specimens and area. There is no cost accounting.

- D.66 Green hard-backed binder, with many flagged inserts of dates and topics, inscribed 'FRIT WORK 1960' on spine 1960-1962
- Detailed notes, data, calculations on experiments 1960-1962, material used in publications on panicles etc.
- A 'Site plan of field experiment' is included on a loose page.
- See also D.67.
- D.67 Specimens of frit flies, originally included in D.66 1961
- D.68 Small green hard-backed binder, inscribed 'Mexico' on spine 1940s-1964
- Notes on the literature of Mexican and South American food plants, pests and diseases, in alphabetical order, 1940s-1963.
- Probably compiled with reference to Southwood's visit to Mexico sponsored by the British Council, August-September 1964.
- See E.41-E.44A, H.2.
- D.69 Large format green hard-backed binder, with many flagged inserts, inscribed 'Suction Traps' on spine 1959-1967
- Detailed notes and tabulated data for various sites 1959-1967, with site plans for 1960 and 1961, and coloured diagram of suction traps at Silwood.

Research, D.59-D.92

D.70-D.80 NOTES AND DATA 1959-1992

This complements the experimental data in the notebooks and is presented in approximate chronological order.

D.70 'Frit fly. Original data on life-cycle and emergence of grass Chloropids' 1959-1962

Contents of a folder so inscribed.

Tabulated data, in another hand, for distribution of various species 1959-1961.

A few notes by Southwood, 2pp manuscript draft on 'The seasonal distribution of adult emergence', and a note on the cover of weather conditions.

Southwood's first paper on Chloropidae was 1962 (*Bibliog.* 50).

D.71-D.73 Succession studies 1977-1985

Work begun at Silwood and continuing after Southwood's move to Oxford. His principal collaborators were V. K. Brown, P.M. Reader and others. (*Bibliog.* 109, 147, 161a, 166).

D.71 Plans for project 1978-1985

'Papers and Meeting Presentation', 3pp list of activity 1978-1985; 'Papers', analyses of journal; author(s) etc., manuscript 'The Project - additional papers'.

D.72 Folder 'Diptera data' 1977-1978

Tabulated data, all labelled 'Silwood Succession Study', by Southwood and others, sites and dates identified, 1977, 1978.

D.73 Contents of an envelope inscribed 'Keep Together. Silwood succession' 1977-1984

Data, mainly on 'Silwood spiders', collected 1977 and

Research, D.59-D.92

sent on to Southwood in Oxford with a covering letter
1984.

- | | | |
|-----------|--|--------------|
| D.74-D.79 | Insects in trees Contents of a box file (discarded) inscribed 'Keep in toto'. Southwood's principal collaborators were V. C. Moran and C. E. J. Kennedy (<i>Bibliog.</i> 123, 125, 127). | 1979-1982 |
| D.74 | Data sent from South Africa by V. C. Moran and C. Smithson, all with sites and dates 1979, 1981, some with manuscript notes by Southwood and headings 'checked' 1980, 1981. | 1979-1981 |
| D.75 | Southwood's re-working of the South African data, some in another hand | 1979 |
| D.76 | Lists and tables of Silwood Park specimens | 1979 |
| D.77 | 'Summary Totals' Contents of a folder, some dated 1981 | 1981 and n.d |
| D.78 | Manuscript and typescript drafts for collaborative paper with Moran and Kennedy 'The assessment of arboreal insect fauna: comparisons of knock-down sampling and faunal lists'. (<i>Bibliog.</i> 127) By Southwood and Kennedy, including diagrams and charts. | |
| D.79 | Correspondence Identification of specimens, information, comments on paper, from colleagues. | 1979-1982 |
| D.80 | Work on oaks Two drafts on comparison of insect faunas on French and | 1991-1992 |

Research, D.59-D.92

English oaks, 1991, 1992.

Undated letter by Southwood to collaborators on 'oak project'.

Two of Southwood's last publications (*Bibliog.* 242, 243) were on oaks, but this material may not be related.

| D.81-D.92 | UNPUBLISHED DRAFTS AND NOTES | 1954-2005 |
|-----------|---|------------------|
| D.81 | 'Aneurus Morphology (unpublished)' 'The Structure of the immature stages and imago of <i>Aneurus laevis</i> , with notes on the taxonomic position and biology'. 18pp manuscript draft, data and drawings, n.d, latest reference is to 1954 paper on <i>Geocorisae</i> (<i>Bibliog.</i> 9). | c1954 |
| D.82 | 'The relation of the structure of the egg, its oviposition site and diapause to the evolution of the terrestrial Heteroptera (<i>Geocorisae</i>)' Incomplete manuscript and typescript drafts, diagrams and charts n.d., latest reference is to 1956 paper on terrestrial Heteroptera (<i>Bibliog.</i> 18). | c1956 and n.d |
| D.83 | 'Plagiognathus data unpublished' Extensive data, graphs, drawings and diagrams on specimens collected from many sources and dates, 1930s onwards. Manuscript draft for Southwood and Blackith's presentation to Royal Entomological Society, published 1960 (<i>Bibliog.</i> 32b). See also D.64. | 1930s-1960 |
| D.84 | 'Research Ideas. Notes for paper on Dragonfly migration - never written' (note by Southwood 2005) Extensive notes on insect migrations, especially involving sea crossings. | 1960-2005 |

Research, D.59-D.92

A little correspondence 1960.

Perhaps related to Imperial College expedition to Ghana
(*Bibliog.* 45).

- | | | |
|-----------|---|-----------|
| D.85-D.89 | 'Olive scale dispersion (paper with [C. B.] Huffaker and [G.] Murdie - not completed)' | 1964-2005 |
| | Commenced 1964 (note by Southwood 2005). | |
| | An additional note explains 'one set of data used in Ecological methods 1st edition'. | |
| | 4 folders (originals retained) of extensive data and calculations. | |
| D.90-D.92 | Plant Health | 1977-2000 |
| | 'The pathology of natural vegetation in a secondary succession', by Southwood, V. K. Brown, P. M. Reader and B. E. Wheeler. | |
| | Drafts and material for a proposed paper of this title, using material collected at Silwood park 1977-1979. The project was revived by Southwood in 1980 and abandoned in 2000. | |
| D.90 | Southwood's notes, diagrams etc. | |
| D.91 | Tables and data on area, type of damage, percentage on named trees on three sites at Silwood, some original data, some recalculated, supplied by co-authors | |
| D.92 | Southwood's manuscript and typescript drafts for paper n.d., c 2000. | |
| | Correspondence on the project 1983, 1988 and letter from co-authors 2000 explaining their recommendation not to publish. | |

SECTION F

PUBLICATIONS AND EDITORIAL, F.151-F.279

1947-2006

This is an extensive, though not an exhaustive, section, complementing material included in previous catalogues. It documents Southwood's steady publication output, maintained into the last years of his life, and reflects the many aspects of his career.

The concerns of his public life produced articles and papers of general interest on topics such as radiation, environmental pollution, acid rain, risk, sustainability and many issues of higher and University education arising from his period as Vice-Chancellor at Oxford.

Though his advice was sought on many matters of public concern, Southwood never lost sight of the youthful passion for entomology which had led him to ecology and the relationships of the natural world which was the foundation of his scientific career. In retirement, he returned eagerly to entomological research and writing, achieving not only a number of new papers but the publication in 2003 of *The Story of Life*, a major long-premeditated book which was widely praised and translated.

The main sequence at F.151-F.251B follows as far as possible Southwood's latest bibliography which is included at A.302 and referred to in the form *Bibliog. no.* The material varies greatly in extent and content, and may include drafts, research notes and material, and correspondence. It begins and ends, fittingly, with entomological notes for *Entomologists' Monthly Magazine*.

The Addendum at F.242-F.251B includes Southwood's posthumous paper (not in the Bibliography) and several unpublished works.

Publications and editorial, F.151-F.279

- F.157 The components of diversity, in *Diversity of Insect Faunas*, Blackwell 1978. *Bibliog.* 104
- This was a paper given at a Royal Entomological Society Symposium 22-23 September 1977, at which Southwood also chaired a session.
- 29pp typescript draft, notes, calculations, diagrams, insect counts, programme of meeting.
- F.158 Ecology - a mixture of patterns and probablisim, *Synthese*, 43, 1980. *Bibliog.* 110
- This was an article written at the request of the journal for a special edition on 'Conceptual Issues in Ecology', and based on a paper by D. Simberloff on paradigms in ecology.
- 12pp corrected draft, correspondence with editor and with colleagues in the Department of Philosophy at Imperial College London.
- F.159 Stability in field populations of insects, in *Mathematical Theory and Dynamics of Insect Populations*, Academic Press, 1981. *Bibliog.* 115
- Paper given at a conference of the Institute of Mathematics and its Applications, Oxford 1-3 July 1980.
- Heavily-corrected manuscript and typescript drafts, notes and diagrams, permissions to quote, programme of conference.
- F.160 Review of C. Gillot 'Entomology', *New Scientist*, 89, 1981. *Bibliog.* 117A
- Typescript draft, brief correspondence.
- F.161 The guild composition of arthropod communities in trees (with V. C. Moran), *J. Anim. Ecol.*, 51, 1982. *Bibliog.* 123
- Corrected typescript draft, tables, appendices, correspondence with colleagues and editor.

Publications and editorial, F.151-F.279

- F.162 The assessment of arboreal insect fauna (with V. C. Moran and C. E. J. Kennedy), *Ecol. Ent.* 7, 1982. *Bibliog.* 127
- Corrected typescript draft, correspondence with editor, comments and amendments.
- F.163 Continuity of vegetation in space and time (with V. K. Brown and P. M. Reader), *Res. Pop. Ecol. Suppl.* 3, 1983. *Bibliog.* 129
- Brown and Reader, colleagues at Imperial College, were collecting data on 'Floral Maps'. When Southwood was notified of the proposed special issue of the journal to commemorate its founder, Professor Iwao, they collaborated on the paper.
- Correspondence and data.
- F.164 Zoology, in *Encyclopaedia Britannica*, 1984. *Bibliog.* 135A
- Manuscript and typescript drafts, correspondence.
- F.165 Studies on the flight activity of...whitefly, with P. M. Reader, *Ent. Exp. Appl.* 36, 1984. *Bibliog.* 138
- Southwood and colleagues at Silwood Park published a series of papers on Whitefly.
- Correspondence, copy of paper. An offprint of an earlier paper by Southwood and Reader 1976, *Bibliog.* 92 is also enclosed.
- F.166 Correspondence, tabulated data and corrected draft of collaborative paper with P. M. Reader 'Fecundity and Host Leaf Condition in ... Whitefly', 1985.
- Not listed in Bibliography.
- F.167 The number of species of insect associated with British trees, with C. G. J. Kennedy, *J. Anim. Ecol.* 53, 1984. *Bibliog.* 139. 1976-1983
- Extensive manuscript notes and tabulated data n.d.,

computer printout 1983, correspondence 1976, 1981.

- F.168 Risk through environmental change, in *Risk, Man-made Hazards*, OUP, 1985. *Bibliog.* 141
Heavily-corrected manuscript and typescript notes and drafts.
- F.169 The roles of proof and concern in the work of the Royal Commission on Environmental Pollution, *Marine Pollution Bull.* 16. *Bibliog.* 144
Heavily-corrected typescript and manuscript draft, brief editorial correspondence.
- F.170 Secondary succession by birds, with V. K. Brown, P.M. Reader and E. E. Green, *Bird Study* 33, 1986. *Bibliog.* 147
Extensive manuscript data, observations, tabulations, including early morning observations by Southwood and colleagues of bird species at specified sites, various dates 1977-1979; correspondence with colleagues; brief referee's comment.
- F.171 Plant surfaces and insects - overview, in *Insects and Plant Surfaces*, 1986. *Bibliog.* 149
Heavily-corrected typescript and manuscript draft.
- F.172 'In a patch of firewood', review of B. Heinrich, published as 'Tiptoeing through wild places', *New Scientist* 104, 1984. *Bibliog.* 150
Manuscript and typescript draft, brief editorial correspondence.
- F.173 Leaf palatability... and herbivore damage, with V. K. Brown and P. M Reader, *Oecologia* 70, 1986. *Bibliog.* 151 1985-1989
Correspondence with *Nature*, to whom the paper was first offered, but was declined (referees' comments included)

Publications and editorial, F.151-F.279

and with *Oecologia*, on whose Editorial Board Southwood served, 1985-1989.

- F.174-F.175 The natural environment and disease, *Brit. Med. J.* 294, 1987. *Bibliog.* 155 1986-1989
- This was first given as a lecture at Green College Oxford in 1987 and repeated elsewhere.
- See E.123, E.136, H.62, H.66.
- F.174 Correspondence, invitation and arrangements for Green College lecture and publication in *Brit. Med. J.* 1986-1989
- Includes comments arising from publication and from Southwood's repeat of the lecture in Hong Kong (1987) and in Georgia (1989).
- F.175 Heavily-corrected typescript and manuscript draft of lecture as given as the Le Conte Lecture at Georgia 1989
- F.176-F.178 The dynamics of viburnum whitefly, with M. P. Hassell and P. M. Reader, *J. Anim. Ecol.* 56, 1987. *Bibliog.* 158 1985-1986
- This was part of the series of papers on population studies and predation, begun at Silwood Park and continued at Oxford. Southwood's principal collaborators were P. M. Reader and M. P. Hassell, later D. T. Rogers.
- See also F.39.
- F.176 Correspondence, data and manuscript from M. P. Hassell on whitefly work, and his papers on population regulation and predation, leading to collaborative papers. 1985
- F.177 Corrected drafts and revisions of paper
- F.178 Correspondence with colleagues and editor. Includes detailed comments by D. T. Rogers, who collaborated on a later paper (*Bibliog.* 171). 1986
- See F.183.

Publications and editorial, F.151-F.279

- F.179 Secondary succession: patterns and strategies, with V. K. Brown, 1987, in *Colonization, Succession and Stability. Bibliog.* 161A 1985-1987
- Correspondence with co-author and editor 1985-1986.
- F.180 Habitat and insect biology, *Bull. Ent. Soc. Amer.* 33, 1987. *Bibliog.* 163
- This was the invited plenary address given at the meeting of the Entomological Society of America, San Reno, at which Southwood was awarded Fellowship of the Society.
- Editorial correspondence, heavily-corrected typescript and manuscript draft.
- F.181 Some characteristics...secondary succession, with V. K. Brown, P. M. Reader and E. Mason, *Proc. R. Soc. Lond.* 234, 1988. *Bibliog.* 166 1984-1987
- Correspondence 1984-1987 includes Southwood's manuscript letter referring to this paper and to other publications on whitefly, succession etc.
- Manuscript data and graphs, includes list of papers, presentations etc by members of the team on 'Succession Project'.
- Southwood attached importance to this work and noted (2005) on the folder 'KEEP'.
- F.182 Lead in the home environment, 1987, 'foreword' to Conference volume, Science Reviews. *Bibliog.* 168
- Typescript text, brief correspondence.
- F.182A Will Britons be Europe's elite or its peasantry?, *Independent*, 1989. *Bibliog.* 169A
- Photocopy of published text only.
- F.183 Population dynamics of the viburnum whitefly, with M. P. Hassell, P. M. Reader and D. T. Rogers, *J. Anim. Ecol.*

Publications and editorial, F.151-F.279

58, 1989. *Bibliog.* 171

Correspondence and data, including D. T. Roger's detailed comments on earlier paper and his suggestions for re-analysis (see F.178).

Brief editorial correspondence.

F.184

Speech in Congregation, Oxford, 5 November 1991, on 'Three-site strategy' for the development of the University. *Bibliog.* 184B

Southwood lists this in his Bibliography with this number. It is noted 'Unpublished'.

F.185

'The Environment: problems and prospects', in *Monitoring the Environment*, OUP, 1992. *Bibliog.* 188

This was the First Linacre Lecture, delivered in 1989.

Heavily-corrected typescript and manuscript draft.

See also E.143.

F.186

Valedictory Vice-Chancellor's Oration, *O.U. Gazette*, October 1993. *Bibliog.* 199

Typescript and manuscript 'Re-draft'.

F.187

Risks from radiation: Crookshank Lecture, *Clinical Oncology* 5, 1993. *Bibliog.* 201

Brief editorial correspondence.

See also E.147-E.149.

F.188

Ecological processes and sustainability, *Int. J. Sustain. Devt. World Ecol.* 2, 1995. *Bibliog.* 207

This was Southwood's Opening Plenary Lecture at the 7th European Ecological Congress, Budapest, Hungary, 20-25 August 1995 and submitted by Southwood to the journal.

Invitation and conference information; editorial

Publications and editorial, F.151-F.279

correspondence; heavily-corrected typescript and manuscript 'speaking text'.

See also F.198

- F.189-F.190 Insect-plant relations: overview from the symposium, *Ent. Expt. et Appl.* 80, 1996. *Bibliog.* 213 1995
- This was Southwood's closing summing-up of the 9th International Symposium on Insect-Plant Relationships, Gwatt, Switzerland, 24-30 June 1995.
- F.189 Correspondence *re* conference and Southwood's address, arrangements, programme and abstracts.
- F.190 Editorial correspondence, corrected typescript draft, detailed manuscript notes made by Southwood at the conference as a basis for his overview paper.
- F.191-F.193 Natural communities: structure and dynamics, *Phil. Trans. R. Soc. Lond.* 351, 1996. *Bibliog.* 214 1993-1996
- This was the Croonian Lecture of the Royal Society, given in November 1994, and again at Bangor, March 1995.
- Southwood was greatly honoured by the invitation to give the lecture and assembled information and materials carefully.
- F.191 Correspondence with the Society, invitation, arrangements and publication; Southwood's ideas for lecture and slides. 1993-1996
- F.192 Speaking text for Bangor, typescript. with manuscript corrections and highlights. 1995
- F.193 Correspondence with colleagues, permission to quote, borrow slides etc. 1993-1996

Publications and editorial, F.151-F.279

- F.194 Data and data-sharing, in *Protecting Danube River Basin Resources*, 1997. *Bibliog.* 217
- This was Southwood's Opening Address at NATO Workshop on 'International Data-sharing for...Danube River Basin Resources', Budapest, Hungary, 27-30 May 1996, published in Workshop Proceedings.
- Conference programme, list of participants (annotated), correspondence on arrangements and publication, typescript text.
- F.195 Applying ecology: a personal journey, 1997. *Bibliog.* 217A 1996-1997
- Southwood's introductory remarks at the Nathan Lecture, organised by Environmental Law Group, given by G. Conway, 8 April 1997.
- Listed by Southwood in his Bibliography but no place of publication given.
- Correspondence on arrangements, 1996-1997, typescript and manuscript draft of Southwood's remarks.
- F.196 The work of the Government's Round Table on Sustainable Development, 1997. *Bibliog.* 218
- This was a talk given to the Parliamentary Environment Group and published as their Briefing Sheet 18, 1997.
- Invitation, manuscript draft.
- F.197 Transport: the crucial basis for sustainability, *Town and Country Planning* 66, 1997. *Bibliog.* 220
- Southwood's address at Town and Country Planning Association conference 'How Shall We Live?' 11 March 1997.
- Correspondence, information, programme, participants, abstract and typescript and manuscript draft of address.
- See also N. 67.
- F.198 Sustainability: an ecological perspective, *Norske Videnskaps-Academi Arbok* 1996. *Bibliog.* 225

Publications and editorial, F.151-F.279

Correspondence and arrangements for lecture and publication 1995-1996; typescript draft of lecture, which included, with permission, some material from *Bibliog.* 207 (F.188).

See also H.90

- F.199 Species richness and resource availability, with C. K. Kelly, *Proc. Natl. Acad. Sci. USA* 96, 1999. *Bibliog.* 226
- Correspondence with co-author and with editors 1998-1999, text as submitted.
- F.200-F.202 Charles Sutherland Elton, with J. R. Clarke, *Biog. Mem. Fellows R. Soc. Lond.* 45, 1999. *Bibliog.* 228 1994-2005
- Southwood had accepted the invitation to write the Memoir in 1991, on Elton's death, but was unable to complete it until April 1999, in collaboration with J. R. Clarke.
- Southwood also contributed a note on Elton to the *Encyclopaedia of Global Environmental Change*, 2002. *Bibliog.* 235.
- See F. 213.
- F.200 Correspondence with Royal Society and with co-author. 1994-1999
- Includes a copy of a letter by Elton supplied by J. M. Potter.
- F.201 Proof of Memoir with extensive corrections and amendments by Clarke.
- F.202 Correspondence, with recollections of Elton, thanks for Memoir etc., 1999-2000; request for reprint 2005. 1999-2005
- F.203-F.207 Ecological Methods, with P. A. Henderson, Blackwell Science, Oxford, 2000. *Bibliog.* 229 1977-2005
- Material mainly relating to the 3rd edition.

Publications and editorial, F.151-F.279

This was one of Southwood's most influential books, first published by Methuen 1966 (*Bibliog.* 65). A second edition was published by Chapman and Hall in 1978 (*Bibliog.* 105). The collaborative 3rd edition appeared in 2000 with another publisher; at the time of Southwood's death a new revised edition was under discussion.

- Editorial correspondence 1999-2001, Agreement, corrected typescript draft.
- F.214-F.216 Food requirements of grey partridge, with D. J. Cross +, *Wildlife Biology* 8, 2002. *Bibliog.* 237 1997-2000
- The ecology of game birds was one of Southwood's principal research topics in the 1960s. Three papers (from a planned series of five) were published in a collaboration with his research assistant D. J. Cross (*Bibliog.* 69, 70, 76) in *J. Anim. Ecol.*, but the paper published in 2002 had been refused at that time.
- Returning to the subject in the 1990s, Southwood represented the paper with some updating and advice from G. R. Potts, who contributed a Foreword to the final publication, explaining the importance of the work as 'a milestone in our understanding of the subject'.
- Cross had died in 1994, and this is acknowledged by the symbol '+' after his name.
- See also A.8, D.3-D.37.

| F.216 | Two typescript and manuscript drafts, one with comments by G. R. Potts | |
| F.217-F.233 | <i>The Story of Life</i> , OUP, 2003. <i>Bibliog.</i> 238 This major work, published in 2003, had been in Southwood's mind for many years. Its origin was the first-year course, itself a development of lectures given at Imperial College, on organisms and environment which he gave at Oxford from the 1980s. His intention was for a collaborative work with Sir David Smith, but on the latter's appointment as Principal of Edinburgh University in 1987 the project went into abeyance and Southwood completed the work with a wide evolutionary compass after much consultation and advice from colleagues. The lecture material and course outlines in Section C were drawn upon, but there are no surviving drafts specifically for the book. The correspondence with his publishers conveys the enthusiasm Southwood brought to the project, speed of execution and willingness to assist in publicity and launching of the finished work. | 1986-2005 |
| F.217 | Correspondence with OUP Southwood's first approach to OUP with ideas and outline for a collaborative book, including correspondence and comments from American editor and colleagues. | 1986-1987 |
| F.218-F.219 | Correspondence with Weidenfeld and Nicholson Following a lunch with Lord Weidenfeld in October 2000 Southwood sent an outline and suggestions for titles etc. He was assigned an editor at Weidenfeld and Nicholson (P. Tallack), signed a contract, and began work on the book with great energy, writing frequently to the editor on | 2001-2005 |

Publications and editorial, F.151-F.279

work in progress, ideas for maps, illustrations, artists and other practical matters, having his drafts reviewed by experts and colleagues, and sending draft chapters as and when finished.

The complete manuscript was sent off on 2 August 2001.

The editor found the style unsuitable and in a letter of 17 September 2001 requested extensive changes which Southwood was unable and unwilling to meet. The contract was accordingly cancelled and Southwood offered the book to OUP who began work on it in October 2001. Southwood's editor at OUP was C. E. V. Kelly and the work was put speedily in hand after an enthusiastic report.

Southwood pressed on energetically with the chores of requesting permissions to use the extensive illustrations which were a feature of the book, and of dealing with artists, some of whom had begun work for the Weidenfeld project and whom Southwood paid out of his own pocket when the contract was cancelled.

- F.244-F.249 Stability and change over 67 years... at Rothamsted, with P. A. Henderson and I. P. Woiwood, *Eur. J. Entomol.* 100, 2003. *Bibliog.* 241
- Long-term experimentation was always important to Southwood, a lasting legacy from his earliest training at Rothamsted. This paper was first submitted to *Ecological Entomology*; not all the referees' comments were favourable and the paper was then submitted to and published in *European Journal of Entomology*.
- Material includes correspondence and data from collaborators and others, and with editors. There is also brief reference to the Leverhulme Emeritus Fellowship held by Southwood while the work was in progress.
- See A.325.

SECTION G

SOCIETIES AND ORGANISATIONS, G.155-G.325

1983-2005

This is an extensive section, testifying to the wide respect felt for Southwood's knowledgeable judgment and the value attached to having his presence on Advisory Boards or Committees.

Some of the entries are a continuation, often substantial, of material featured in previous catalogues, to which reference is made whenever possible. As ongoing commitments they had been retained by Southwood at that time. A fuller account is now possible. Among the more considerable are the Inter-Agency Committee on Global Environmental Change (IACGEC), a Government Advisory Committee (G.187-G.200), and long-term involvements like the Lawes Agricultural Trust (G.201-G.227) and the Rhodes Trust (G.244-G.276).

There are also 'new' entries of organisations anxious from their inception to enlist Southwood as advisor or patron. These are explained in the entries.

It is clear from the material that Southwood perhaps allowed himself to become involved in too many organisations and was often obliged to send his apologies for meetings he was unable to attend, though he would often also transmit his view on some outstanding question under deliberation. There were, however, always organisations dear to his heart and of long-standing interest, at whose meetings and events he would make every effort to be present.

1997

Evaluations.

G.157

1998

G.158

1999-2001

G.159

ACADEMY OF MEDICAL SCIENCES

1998-1999

Invitation, material on aims of the Academy, list of Founder Fellows (339), arrangements for admission to Fellowship.

Southwood was invited to join as a Founder Fellow.

G.160

BRISTOL UNIVERSITY INSTITUTE FOR ADVANCED STUDIES

1995-2000

The Institute was set up in 1995 with the primary purpose of fostering international academic interchange. The Board of Trustees was chaired by the Vice-Chancellor Sir John Kingman and the Academic Secretary was P. Haggett. Southwood was invited to join the Board of Trustees in August 1995.

Material includes invitation to serve, arrangements for Inaugural launch and first Trustees meeting, agenda and members, minutes, arrangements for regional meeting at Oxford (at Merton College), notices of Board meetings 1997-2000 (Southwood could not attend).

Societies and organisations, G.155-G.325

G.161 **BRITISH COUNCIL** **1993**

Southwood visited Romania in November 1993, sponsored by the British Council and the Romanian Ministry of Education, to discuss the development of environmental studies in Romania.

Material includes invitation, schedule and arrangements, Southwood's report on his visit, information on ecological courses in Bucharest, Southwood's manuscript notes taken at meeting.

G.162 **BRITISH ECOLOGICAL SOCIETY** **1996-2005**

General correspondence, includes nominations for membership, the Society's two-day meeting 'Applying Ecology in the 21st century', February 2000 (Southwood chaired the session on 'Managing the Future'), annual award of the Southwood Prize and letters of congratulation to the winners.

Also included is correspondence 1996-2005 on stock of the former British Empire Vegetation Trust, made over to the Society in January 2005.

See also G.4-G.9, G.128.

G.163-G.164 **BRITISH NATURALISTS' ASSOCIATION** **1996-2005**

Correspondence mainly on the affairs of *Countryside* magazine, search for financial sponsors etc.

Southwood was an Honorary Vice-President.

See also G.10.

G.163 **1996-1997**

Includes grant from Glaxo-Wellcome, letter of support from Southwood.

Societies and organisations, G.155-G.325

- G.164 1999-2005
- Includes award to Southwood of the Peter Scott Memorial Award 1999; request (declined) to write celebratory note for 100th issue of *Countryside*, 2005.
- G.165 CHARLES DARWIN TRUST 2000-2002**
- Correspondence *re* establishment of Charles Darwin Centre at Downe, and a proposed link with a Symposium for W. D. Hamilton.
- G.166 CHARTERED INSTITUTE OF ENVIRONMENTAL HEALTH 1996-2001**
- Includes Southwood's election as Vice-President 1996, renewed 2000, resignation 2001.
- See also G.48, G.129.
- G.167-G.168 EARTHWATCH EUROPE 1990-2003**
- General correspondence with successive Directors and officials on funding initiatives (includes appeal to Soros Foundation), meetings and speeches, collaboration with Central European University.
- Southwood was Chairman of the Science Advisory Group from its inception, and became a Science Patron in 1997.
- Some correspondence with Earthwatch in America is included.
- See also G.30, G.130.
- G.167 1990-1995

Societies and organisations, G.155-G.325

- G.168 1996-2004
- Includes material and Southwood's manuscript notes on ARCO Conference 'Industry and the Environment'.
- G.169 EAST MALLING TRUST FOR HORTICULTURAL RESEARCH 1994-2004**
- Southwood was a Trustee from 1985. He resigned in November 1999.
- Correspondence on meetings (few of which Southwood was able to attend), appointments and resignations of Trustees, minutes, sale and development of property.
- See also G.31-G.34
- G.170 ECOLOGY INSTITUTE 1995-2001**
- Brief correspondence, mainly on award of the Institute's Terrestrial Ecology Prizes.
- See also G.37, G.131
- G.171 ENVIRONMENT COUNCIL 1996**
- Southwood was an Associate Member.
- Brief correspondence only.
- G.172 ENVIRONMENTAL INDUSTRIES COMMISSION 1995-2001**
- Southwood was invited to sit on Council of Patrons by the President (Lord Gregson).

Societies and organisations, G.155-G.325

Material is mainly incoming information and updates on Commission's activities.

G.173-G.177 ETON COLLEGE 1993-2002

Southwood was a Fellow of the College, representing the Royal Society 1993-2001. His successor was C. M. Dobson.

Correspondence on all affairs of the College.

See also A.150

G.173 1993-1994

G.174 1995-1996

G.175 1997-1998

G.176 1999-2000

G.177 2001-2002

Includes notes for Southwood's speech at his retirement dinner June 2001; letters of appreciation and his election to Honorary Membership of the Old Etonian Association.

G.178 EUROPEAN ENVIRONMENTAL RESEARCH ORGANIZATION (EERO) 1990-1997

The EERO was set up in 1990, based in Wageningen, The Netherlands. The Chairman was A. J. B. Zehnder. Southwood was a member from its inception.

Southwood's letter of 7 February 1995 sets out his ideas

Societies and organisations, G.155-G.325

for the structure of EERO.

Correspondence with Chairman and Director on nominations and elections to membership, funding initiatives, invitations to meetings and General Assembly (most declined), information on collaboration and affiliation with European Science Foundation (ESF) from 24 July 1997.

G.179 FIELD STUDIES COUNCIL 1983-2004

Southwood's long connection with the Council, and particularly its Flatford Mill Centre, began during his schooldays and continued at the University of London. He retained affectionate links with the Council, serving in several capacities and honoured by it in later years.

The Council was formerly Council for the Promotion of Field Studies.

Correspondence mainly on commemorative occasions and recollections of early days. Includes 40th and 50th Anniversary celebrations (1983, 1993), Southwood's election as Vice-President (1992), 50th Anniversary of Flatford Mill (1996), material on the importance of fieldwork in Biology teaching (2003).

See also G.38-G.43, G.132.

G.180-G.181 FRIENDS OF THE EARTH 1985-1998

G.180 Correspondence 1985 is on Tropical Rainforest Campaign. Southwood was on Scientific Advisory Panel; his letter of 18 August gives his views on sustainable rainforest management. 1985, 1989

Correspondence 1989 is on 'Arts for the Earth Festival'. Southwood was on Honorary Committee.

G.181 Correspondence on Seminar 'Shifting the Balance of Power' June 1997. Southwood chaired the afternoon session and his closing address was published in the conference proceedings (*Bibliog.* 221b). 1997-1998

Societies and organisations, G.155-G.325

Includes schedule, delegates list, briefings, Southwood's manuscript notes.

G.182-G.183 GAME CONSERVANCY TRUST 1994-2005

Southwood had a very long connection with the Trust and was an Honorary Life Member at this period. Much of the correspondence is with the Director, G. R. Potts, one of his oldest friends.

G.182 Correspondence and papers on the Research Review Group, chaired by Southwood at the request of G. R. Potts. The other members were the Earl of Cranbrook and the Earl of Selbourne. 1994-1997

Includes set-up of Group, meetings, report, letters of thanks, extensive manuscript notes by Southwood.

G.183 General correspondence on the affairs of the Trust, research projects, requests for advice and support, grant applications, retirement (2001) of long-term Director G. R. Potts, Southwood's note for the Trust's Silver Jubilee (2004). 1997-2005

See also G.44, G.133 and Habitat Research Trust.

G.184 GREEN COLLEGE CENTRE 1992-1999

The Green College Centre for Environmental Policy and Understanding was established in May 1992 at Green College Oxford, privately funded by various Trusts. It organised lectures and seminars and supported a programme of Visiting Fellows. The work was always strongly linked to the Director Sir Crispin Tickell and on his retirement in 1997 as Warden of Green College the Centre moved from the College and operated in a reduced form.

Southwood was a member of the Advisory Group from 1992, but could not attend meetings regularly and

Societies and organisations, G.155-G.325

resigned in November 1999, explaining that he wished "to put my main effort into ecological and entomological work rather than general environmental matters".

General correspondence on meetings, aims and programme of the Centre.

G.185 HABITAT RESEARCH TRUST 1994-2002

The Trust was set up in 1990 to allocate funds arising from the Game Conservancy Trust's fund-raising appeal.

Southwood was a Trustee from 1991, resigning in 2002.

Correspondence on meetings, allocation of funds etc.

See also G.45, G.134

G.186 INSTITUTE OF ECOLOGY AND ENVIRONMENTAL 1992-2001
MANAGEMENT

The Institute was inaugurated in March 1991. Southwood was invited to become a Patron in 1991; he resigned in May 2001.

Personal correspondence on meetings, funding and affairs of the Institute.

G.187-G.200 INTER-AGENCY COMMITTEE ON GLOBAL 1997-2000
ENVIRONMENTAL CHANGE (IACGEC)

The Committee was originally set up by the Advisory Board for the Research Councils (ABRC) in 1990 under the Chairmanship of D. C. (Lord) Phillips. Following review, it was reconstituted under the overall responsibility of Sir Robert (now Lord) May, Chief Scientific Officer, Office of Science and Technology.

Southwood was offered and accepted the position of Chairman for three years in February 1997. The

Societies and organisations, G.155-G.325

reconstituted Committee was to keep under review national and international research activities related to Global Environmental Change, with a wider remit and membership than previously.

The material provides a full account of the work, which was pursued with great activity. The Committee papers and Chairman's briefings are all annotated, flagged or highlighted by Southwood and have accordingly been retained. There are also correspondence and representations from colleagues or organisations on issues to be raised or to form part of IACGEC's work.

The Committee's report to the Chief Scientist was delivered in November 1999 and the Committee was stood down in 2000.

The Secretary of the Committee was Christopher West, to December 1999; his successor was Ian Dwyer, from February 2000.

The early setting-up papers and correspondence of the Committee are in the archive of David Chilton Phillips, NCUACS catalogue 45/1/94, folder reference O.124, deposited in the Bodleian Library, Oxford.

the work and preparing the report to the Chief Scientist.

G.193 June-November 1998

Correspondence, agenda, Chairman's briefing for 24th
meeting 5 November 1998 in London, annotated and
highlighted.

G.194 December 1998-March 1999 1998-1999

Correspondence and papers, agenda, Chairman's
briefing, draft minutes for 25th meeting in Department of
Zoology, Oxford 10 February 1999, when Southwood
suggested attention should be focused on preparing the
report, with many annotations and highlights.

G.195 April-May 1999

Correspondence and papers on 26th meeting, scheduled
for 11 May but postponed at Southwood's request to 14
July to allow a fuller draft report to be prepared.

G.196 July 1999

Papers for postponed 26th meeting, 14 July, at
Department of Zoology Oxford, Chairman's briefing, all
papers heavily annotated, highlighted and flagged.

Societies and organisations, G.155-G.325

G.197 August-November 1999

Correspondence and papers for 27th meeting, 15 October at Department of Zoology Oxford, agenda, Chairman's briefing 'outline minutes' prepared by Southwood owing to ill-health of secretary.

Material mainly drafts and comments on report, all extensively annotated, highlighted and flagged.

G.198 November 1999-July 2000 1999-2000

Correspondence with Chief Scientific Officer on final report and future organisation. Includes Supplementary Report arising from meeting of Committee on 9 March (see G.199).

Some earlier correspondence on sustainable development 1998 is included.

G.199 February-April 2000

Correspondence and papers for final meeting 9 March 2000, in London, to allocate Agencies responsible for research areas, and winding-up of Committee.

G.200 Copy of published report c2000

G.201-G.227 LAWES AGRICULTURAL TRUST 1988-2005

The Trust was established and endowed in 1889 by Sir John Bennet Lawes to support Rothamsted Experimental Station at Harpenden, Hertfordshire (founded in 1843). It was here that Southwood did much of his earliest research. He had a lasting affection for the station and its work and made great efforts to attend its functions, social and professional, to the end of his life. There are countless references in the correspondence to his attachment to the place and to its influence on his life, such as the reference to 'My beloved Rothamsted' in a letter of 14 June 2004. He became a Trustee in 1987 and Chairman of the Trustees in 1991, resigning in 2005

Societies and organisations, G.155-G.325

only a few months before his death.

The material covers all aspects of the Trust's affairs which came before the Board at its meetings, at a time of often complex re-structuring. They include the organisation and governance of Rothamsted, its changes of nomenclature, its relations to, and amalgamation with, other institutes, especially Long Ashton, as central government concentrated its research support, investment reports, research plans and grant applications, staffing and appointments, property and estate maintenance, sales and developments, Open Days, social and public occasions. Among the matters regularly referred to were the long-term experiments which Harpenden's ancient foundation permitted and which Southwood always regarded as of the greatest importance, drawing on them in several publications e.g. *Bibliog.* 203, 241.

The correspondence is conducted with fellow Trustees, successive Directors and secretaries of the Institute and Trust, research workers and colleagues, ministers and Government officials. It is presented in chronological order with a brief indication of its principal contents.

| G.207 | Funding, Prior Options reviews, visit of Heritage Lottery Fund advisers (application unsuccessful), membership of Board of Rothamsted International (Southwood was Chairman), appointment of P. S. Thomas as Institute Secretary in succession to W. Barnes. January-June | 1996 |
| G.208 | Prior Options, 6th AGM and Board meeting 14 October, investment strategy. July-November | 1996 |
| G.209 | Funding and budgeting, relations with Biotechnology and Biological Sciences Research Council (BBSRC), negotiations on funding cuts, redundancies, arrangements for 'Management Meeting' at Merton College, Oxford 7 July (papers on constitutional organisation and finance). January-July | 1997 |
| G.210 | Funding and management, relations with BBSRC, property, 7th Board meeting 4 November, appointments. August-December. | 1997 |
| G.211 | Funding, relations with BBSRC, proposed land sale and development. January-May | 1998 |
| G.212 | Property matters and building projects at Fowden Conference Hall, correspondence on Rothamsted Insect Survey, retirement of B. S. Miflin and farewell party (Southwood spoke). June-November 1998. Miflin's successor was I. R. Crute. | 1998 |
| G.213 | Appointment | 1998-1999 |

Societies and organisations, G.155-G.325

G.214-G.218 Correspondence and papers 1999

This was a particularly complex year, requiring submissions to BBSRC, constitutional changes and conditions of work, with special reference to the Institute of Arable Crops Research (IACR), the closure of Long Ashton Research Station (LARS) and its "carefully-managed withdrawal" to Rothamsted, finally achieved in 2003.

G.214 January-February

Mainly presentations to BBSRC Council on 'Options for Future Action' by I. R. Crute, Director of Arable Crops Institute, Rothamsted.

G.215 March-May

Research experiments, structure and organisation, property management, minutes of 8th Board meeting 1 December 1998 and correspondence arising.

G.216 June

Correspondence and papers, participants for Open Day weekend 21 June and drafts for Southwood's speech at official opening of the Lewis Hall.

Included here are copies of the Deed of Foundation of the Lawes Agricultural Trust 1889 and of a letter from the founder Sir John Lawes (n.d), relevant to the ongoing discussions on funding and governance.

G.217 June-August

Continuing correspondence and papers on reorganisation and funding of Institute of Arable Crops Research, conditions of major capital grant by BBSRC and closure of Long Ashton site, exchanges with Directors and officials on proposed restructuring and appointments.

G.218 August-December

Constitutional changes and documents, meeting with

Societies and organisations, G.155-G.325

Chief Executive BBSRC 16 November, Board meeting 9 December (papers annotated by Southwood), retirements and appointments.

- | | | |
|-------|---|-----------|
| G.219 | Correspondence and papers on conditions arising from BBSRC investment in buildings and research at Rothamsted; papers on sale and development of property. December 1999-March 2000 | 1999-2000 |
| G.220 | Organisation and membership, papers (annotated and highlighted) for AGM and Board meetings 31 October. Southwood was re-elected as Director of the Company at the AGM. March-December. | 2000 |
| G.221 | Property matters, agenda and papers for 12th Board meeting 5 June, draft 'Corporate plan' for research at Arable Crops Institute. January-June. | 2001 |
| G.222 | Property matters, policy papers, annotated agenda for 13th Board meeting 20 November. June-December. | 2001 |
| G.223 | Staffing and appointments, January-May. | 2002 |
| G.224 | Organisation and structure, membership and appointments, material on Rothamsted International, re-naming of Institute of Arable Crops Research as Rothamsted Research following the merger with Long Ashton (official launch to take place at Royal Society 20 January 2003), agenda for 14th Board meeting 13 June, Joint Meeting of Board and Lawes Trust 18-19 November for policy discussion on 'Future Directions for Rothamsted Research' (Southwood gave the Chairman's introductory remarks) and a record of the discussions. May-December. | 2002 |
| G.225 | Membership changes and appointments, agenda for a meeting with Southwood 9 April, letter re 16th meeting 12 June. | 2003 |

Societies and organisations, G.155-G.325

- | | | |
|-------------|--|-----------|
| G.226 | Membership changes and appointments, retirement of P. S. Thomas, long-term Secretary of the Trust, succeeded by S. James (includes Southwood's notes for his farewell tribute to Thomas), visit by HRH Duke of Gloucester, agenda and papers (annotated) for Board meeting 23 November. | 2004 |
| G.227 | Southwood formally resigned at his last Board meeting on 26 April. He made his intention known to fellow Trustees and officials from February and much of the correspondence concerns his replacement (Lord De Ramsey). | 2005 |
| G.228-G.237 | NATURAL ENVIRONMENT RESEARCH COUNCIL (NERC) Southwood chaired the Advisory Board and many of the committee papers are annotated and highlighted by him. The material mainly relates to the Centre for Population Biology, funded by NERC and established in 1989 at Silwood Park, Imperial College London. See also G.52-G.59, G.139 | 1991-2002 |
| G.228 | Correspondence and papers. | 1991-1993 |
| G.229 | Material for Board meeting 18 April. Agenda, Chairman's briefing notes, papers, minutes, membership, Southwood's manuscript notes on research presentations at the meeting. | 1994 |
| G.230 | Correspondence and papers, Chairman's briefing for 6th Board meeting 29 March, annotated and highlighted. Included here are minutes of a Management Committee meeting September 1995, for which year no other papers survive. | 1996 |
| G.231 | Correspondence and papers <i>re</i> Science Management Audit of the Centre, with Southwood's detailed comments | 1997 |

Societies and organisations, G.155-G.325

on the achievements and future progress of the Centre.

- | | | |
|-------|--|------------------|
| G.232 | Correspondence and papers for 8th Board meeting 23 April. Included is a 'Report' of the 7th meeting 16 April 1997. | 1998 |
| G.233 | Correspondence and papers for 9th Board meeting, scheduled for 29 March but cancelled as few members could attend. Appointment of new Director, H. C. J. Godfray in succession to J. H. Lawton. | 1999 |
| G.234 | Correspondence and papers for rescheduled 9th Board meeting 6 March. | 2000 |
| G.235 | Correspondence, papers and notes, annotated and highlighted, for 10th Board meeting 4 May. | 2001 |
| G.236 | Correspondence and papers for 11th Board meeting 15 April. Includes manuscript and typescript draft of Southwood's submission on the work of the Centre for the Science Management Audit (SMA) 2003. Correspondence on the recommendation of the SMA that the Advisory Board be stood down. | 2002 |
| G.237 | Correspondence and papers, mainly from J. R. Krebs (Chief Executive) on various NERC projects | |
| G.238 | NATURAL HISTORY MUSEUM LONDON Miscellaneous correspondence on affairs of the Museum, includes funding appeal for the Darwin Centre. (q.v.). | 1998-2003 |

Societies and organisations, G.155-G.325

G.239 NATURE CONSERVANCY 1963-1964

Correspondence and papers *re* meeting in Paris, France, 16-18 December, on Secondary Production of Terrestrial Ecosystems as part of the International Biological Programme (IBP).

Information, arrangements, programme, list of participants, report of meeting.

Also included is an invitation to Southwood to join an IBP programme on Lake District Woodland.

G.240 NEW RENAISSANCE GROUP 1996-1998

Correspondence and papers on the formation of the Group (Founder Max Nicholson) to establish an 'Environmental Profession' and 'A College of the Environment'.

The Convenor, with whom the correspondence is exchanged, was R. Sharp.

G.241 PONTIFICAL ACADEMY OF SCIENCES 1993-2005

Correspondence and papers on the affairs of the Academy, membership, invitations to meetings very few of which Southwood could attend.

Includes Southwood's letter on the role and organisation of the Academy (1993); elections and recommendations.

Southwood had meant to attend, and present a paper on 'Ecology: challenges and opportunities', at the meeting in November 1999 but had to withdraw for health reasons.

See also G.62.

Societies and organisations, G.155-G.325

G.242 RADCLIFFE MEDICAL FOUNDATION 1999-2003

The Foundation organised fund-raising activities in support of Oxford Radcliffe Hospitals NHS Trust. Southwood became a Trustee and attended his first meeting in February 1999. He resigned in April 2002.

The Foundation was dissolved in February 2003, its assets being transferred to a Special Purpose Charity within the Oxford Radcliffe Hospitals Charitable Funds, to be known as the Radcliffe Medical Charity.

Correspondence and papers, reports and minutes, meetings and activities, Trust Deeds.

G.243 RANK PRIZE FUNDS 1993-2005

This was one of the 'Rank Charities'. It organised conferences and symposia on scientific topics of general interest, supported Fellowships and grants for research projects. Southwood served as a Trustee from January 1993 and resigned in February 2005.

Correspondence and papers on meetings, investments and grants.

G.244-G.276 RHODES TRUST 1995-2002

Southwood was a Trustee 1986-2002 and Chairman of the Trust 1999-2002. Most of the material here dates from his service as Chairman.

Southwood greatly valued his connection with Rhodes House and the Trust, and made every effort to play a full part in its meetings, organisation, celebrations and social events.

See also G.53-G.71, G.140-G.143.

G.244-G.246 Correspondence, mainly on appointments of Trustees and Wardens. 1995-2002

| | | |
|-------------|--|------------------|
| G.316-G.324 | WORLD RESOURCE FOUNDATION (WRF) | 1994-2002 |
|-------------|--|------------------|

The WRF was a UK charity founded in 1983 'to pursue environmentally sound projects'. Based in Tonbridge, Kent, it was initially 'exclusively funded by donations from the Tetra Laval Group' (see letter of 26 March 1996). H.

Societies and organisations, G.155-G.325

A. Rausing, Chairman of Tetra Laval, was one of the original Trustees of WRF.

The main focus of the Foundation was on waste management and disposal, energy recovery and the dissemination of research results and information through its publication *Warmer Bulletin*.

From 1997 the support of Tetra Pak was phased out and ended in April 1998. The ensuing financial difficulties continued despite cost-cutting measures, relocations and staff reductions, and the Foundation was wound up in 1999. The residual funds were shared equally as charitable gifts for research projects between Royal Botanic Gardens Kew and Rothamsted International.

Southwood was appointed a Trustee in 1994 and continued as such throughout the life of the Foundation, making every effort to attend its meetings. The correspondence is conducted principally with E. M. Garston (Chairman of the Trustees) and K. Strange (Director of the Foundation), as well as with other Trustees and Patrons. It deals with Trustees and Advisory Council meetings, Director's reports etc.

See also G.153.

SECTION H **VISITS, CONFERENCES, ADDRESSES, H.96-H.110** **1983-2000**

The material is presented in chronological order. With the exception of H.96 (1983), it dates from 1996-2000. Much of it relates to Southwood's involvement with environmental and sustainable development issues through his work as Chairman of the Round Table on Sustainable Development.

H.96 European Communities Biologists Association (ECBA) Workshop on Training and Employment, London, 19-23 September 1983 1983

Correspondence, list of participants (annotated), manuscript draft of Southwood's introductory address.

See also H.44A

H.97 Oxford Energy Seminar, 2-13 September 1996 1996

Programme of events, manuscript draft of Southwood's speech at Inauguration Dinner.

H.98 ARCO Conference on Industry and the Environment, London, 12 December 1996 1996

Correspondence only.

H.99 Oxford Economics Research Associates (OXERA) Environmental Regulation Group Dinner, 5 February 1997 1997

Correspondence, list of participants, manuscript draft of Southwood's address.

H.100 Business and the Environment Conference, London, 25 February 1997 1997

Southwood was invited as Co-Chair of the Round Table on Sustainable Development, and spoke on 'International Targets and Sustainable Development'.

Invitation, information, programme, list of participants, Southwood's manuscript notes taken at meetings, annotated and corrected typescript draft of this speech.

Visits, Conferences, Addresses, H.96-H.110

- H.101 Visit to the University of Pavia, April-May 1997 1995-1998
- Southwood gave the 8th Coimbra Group lecture on 'The Challenge of Sustainable Development' and explored a possible exchange between Oxford (Merton College) and Borromeo College, Pavia.
- See also C.164, H.91.
- Correspondence, arrangements, typescript and annotated speaking versions of Southwood's address, schedule of visit, negotiations about exchange (unsuccessful), invitation to Southwood to serve on the Scientific Committee of the newly-founded European School of Advanced Studies at Pavia.
-
- H.102 The Rail Freight Conference, London, 4 June 1997 1997
- Programme, schedule, list of participants, 'speaker biographies', arrangements, correspondence, Southwood's manuscript notes taken at conference, typescript and annotated speaking drafts of his contribution on 'Rail Freight: the benefits for sustainable development and their capture'.
- See also N.68.
-
- H.103 Local Government Association Environment and Regeneration Board 'Away-Day' on Sustainable Development, London, 12 June 1997 1997
- Southwood was scheduled to give the first morning presentation, with reference to the work of the Round Table. In the event a transport breakdown prevented him.
- Correspondence, manuscript notes and typescript summary of Southwood's planned remarks.
- See also N.68.
-
- H.104 West Midlands Round Table for Sustainable Development Conference, Sandwell (Dudley), 31 October 1997 1997
- Southwood spoke on the work of the Round Table.

Visits, Conferences, Addresses, H.96-H.110

Correspondence, programme, list of participants, abstract, manuscript draft of Southwood's speech 'Taking forward sustainable development'.

H.105 National Transport Review, London, 24-25 November 1997 1997

Heavily-corrected manuscript and typescript versions of Southwood's speech 'Integrating Transport with cross-sectoral policies'.

See also N.72

H.106 Utility Regulation Conference, London, 2-3 December 1997 1997-1999

Correspondence, information, outline (only) of Southwood's talk on 'Sustainability and Utility Regulation'.

Includes later correspondence with Minister, 1999

H.107 Opening of Manor House, Silwood Park, 9 March 1999 1999

Manuscript notes for Southwood's speech.

H.108 The Evolution of Life on Earth, Oxford, February-March 2000 2000

This was a course of seven lectures, Southwood spoke on 'Animals and Plants - the Evolution of Herbivory'.

Correspondence, information and arrangements, manuscript notes, speaking text of lecture.

H.109 Opening of new Natural History Museum, Eton College, 20 May 2000 2000

Typescript and manuscript text only.

H.110 Invitations to lectures and conferences (declined) 1995-2001

SECTION J **ROYAL COMMISSION ON ENVIRONMENTAL** **1994-2005**
POLLUTION, J.34-J.40

Southwood was a Commissioner from 1974-1981 and Chairman 1981-1985.

The material here covers the period 1994-2005 and deals with reports and studies by the Commission, some sent to Southwood for information and general interest, some with continuing correspondence and active participation in its projects.

| | | |
|------|--|-----------|
| J.34 | 'Transport and the Environment' Correspondence on lead additives. | 1994 |
| J.35 | Study on 'Standards for Pollution Control' Correspondence, information, Southwood's manuscript notes. | 1995 |
| J.36 | Correspondence and papers on the role and influence of the Commission, including arrangements for interviews with Southwood. | 1995-1997 |
| J.37 | Report on 'Sustainable use of Soil'. Brief correspondence only. | 1996 |
| J.38 | Draft statement and correspondence on BSE. | 1996 |
| J.39 | Brief correspondence on Commission's reports. | 1997-2002 |
| J.40 | Correspondence on proposed study on pesticides and bystanders; correspondence on retirement of Chairman, Sir Tom Blundell. | 2004-2005 |

SECTION K NATIONAL RADIOLOGICAL PROTECTION BOARD 1996-2003
(NRPB), K.20-K.22

Southwood completed his long service as Co-Chairman of the Board in 1994. The material here, which covers the period 1996-2003 deals mainly with social or commemorative events.

- K.20 Includes material on Prior Options Review. 1996
- See also K.19
- K.21 Correspondence and papers on celebration of 30th 2000
Anniversary of NRPB, 28 September 2000. Southwood spoke on 'Protection and Risk - The Changing Balance'.
- Information, programme, typescript and manuscript versions of Southwood's speech, which was published in the *Radiological Protection Bulletin* (Bibliog. 232).
- K.22 Correspondence and papers on Retirement Seminar for 2003
R.H. Clarke, Director of NRPB, 26 June 2003.
- Includes typescript draft of Southwood's farewell speech to Clarke.

SECTION M BOVINE SPONGIFORM ENCEPHALOPATHY (BSE), 1991-2004
M.163-M.182

This material complements that previously made available and catalogued in 1998 (M.1-M.61) and 2002 (M.62-M.162), whose numeration it follows.

With the exception of M.163 (1991) and M.175-M.177 (1999-2004) it deals essentially with the intense activity in 1996 following the first public announcement of a possible link between BSE in cattle and CJD in humans. Southwood, as Chairman of the 1988-1989 Working Party on BSE and its Report, was under considerable pressure to supply comment, interviews and media appearances. Southwood was sensitive to the criticism levelled at the findings of the Working Party, which he felt was uninformed and unfair. The measure of his concern can be seen in the care he took to reply to correspondence from the general public - all the letters have some dated indication 'reply', 'ack' or 'phoned'.

Immediate public interest abated, but monitoring continued and Southwood was kept regularly informed.

The material includes correspondence, official reports and statements, and drafts for Southwood's publications on BSE.

M.163-M.177 CORRESPONDENCE AND PAPERS

M.178-M.182 PUBLICATIONS

M.163-M.177 CORRESPONDENCE AND PAPERS 1991-2004

M.163 Correspondence and report of WHO Consultation meeting, Geneva, November 1991 on 'Public Health Issues related to spongiform encephalopathies'. 1991-1992

M.164-M.168 March 1996 1996

M.164 Southwood's 'Briefing, Press enquiries'.

M.165 Southwood's reply on 'rendering processes' to an enquiry from A. Eagle, MP

Bovine Spongiform Encephalopathy (BSE), M.163-M.182

- | | | |
|-------------|--|-----------|
| M.166 | Correspondence with colleagues and officials | |
| M.167 | Statements in the House 20 and 25 March by Secretary of State for Health (S.J. Dorrell). | |

SECTION O GLAXO-WELLCOME, O.41-O.51 1995-2000

This short section covers the period 1995-2000 and provides a little material additional to that at O.1-O.12 and O.13-O.40.

O.41-O.43 CAREER AND PERSONAL

O.44, O.45 APPEALS COMMITTEE

O.46-O.48 CHAIRMAN'S AWARDS

O.49-O.51 CORRESPONDENCE

O.41-O.43 CAREER AND PERSONAL 1996-2000

O.41 Appointment to Nominations Committee 1996

O.42 Correspondence on invitation to join Board of Directors, Inex Pharmaceuticals (declined). 1998

O.43 Correspondence and drafts on Southwood's Consultancy Agreement on environmental matters. 1999-2000
See also O.13.

O.44, O.45 APPEALS COMMITTEE 1997-1999

O.44 Manuscript draft of Southwood's speech at Brazilian Embassy to launch leprosy project. 1997
See also O.29.

O.45 Appeal 1999

Glaxo-Wellcome, O.41-O.51

O.46-O.48 CHAIRMAN'S AWARDS 1995-2000

Before 1997, Chief Executive's Awards. Southwood was Chairman of the Awards Panel.

Correspondence and papers on entries, panel meetings, award presentations (Southwood attended whenever possible). The Awards ended in 2000 after the restructuring of the company.

O.46 1995-1997

O.47 1998-1999

O.48 1999-2000

See also O.3, O.37.

O.49-O.51 CORRESPONDENCE 1995-2000

O.49 Correspondence on various Glaxo-Wellcome projects mainly relating to biodiversity, sustainability, etc. 1995-1999

O.50 Correspondence and papers on dinner of Association of Insurance and Risk Managers, at which Southwood spoke. 1997

O.51 Personal correspondence 1996-2000

SECTION P **CENTRAL EUROPEAN UNIVERSITY (CEU), P.62-P.67** **1993-2005**

Southwood's connection with CEU was close during the 1990s. At the request of the founder George Soros, he chaired the Steering Committee for the environmental studies programme and served as Head of the Department of Environmental Studies and Policy. He resigned as Head in 1995 but continued to lecture as Visiting Professor. He maintained a close interest in the Department, to which most of the material relates.

Correspondence and papers presented in chronological order.

- | | | |
|------|--|-----------|
| P.62 | Drafts and correspondence: Typescript and manuscript draft on CEU, with special reference to Department of Environmental Studies and Policy, ?1993. Typescript and manuscript draft 'History of Environmental Studies and Policy in the CEU', 2 June 1994. Brief correspondence on proposed 'Russian environmental summit'. | 1993-1994 |
| P.63 | Correspondence <i>re</i> Southwood's lectures on ecology, which he had to cancel for health reasons. | 1996 |
| P.64 | Personal correspondence. | 1997 |
| P.65 | Personal correspondence; conference. | 1998-2000 |
| P.66 | Correspondence and papers on evaluation of the Department; appointment. | 2000 |
| P.67 | Mainly personal and social correspondence. Letter of May 2005 gives current position of CEU and recalls Southwood's contribution. | 2001-2005 |

SECTION R CORRESPONDENCE, R.433-R.485 1977-2005

- R.433-R.466 SCIENTIFIC AND GENERAL
CORRESPONDENCE
- R.467-R.473 SHORTER SCIENTIFIC CORRESPONDENCE

R.480-R.485

MISCELLANEOUS CORRESPONDENCE

1999-2005

This comprises invitations, some with a little related correspondence, received from colleges and institutions, official organisations, charities and learned societies, to attend, open or speak at lectures, book launches, workshops, commemorations and social occasions. They attest Southwood's popularity, width of interests and success as a speaker even in retirement. Almost all are declined, sometimes by letter, usually with a manuscript note 'regrets'.
