GENERAL INTRODUCTION

PROVENANCE

The papers were received in August 1989 from Sir Graham Wilson's family and the London School of Hygiene and Tropical Medicine via the Contemporary Medical Archives Centre, Wellcome Institute for the History of Medicine, London.

OUTLINE OF THE CAREER OF G.S. WILSON

Graham Selby Wilson was born in Newcastle upon Tyne in 1895. He was educated at Epsom College, King's College London and Charing Cross Hospital Medical School, where he undertook his first research at the suggestion of Professor W.W.C. Topley FRS. After graduating in 1916 he joined the Royal Army Medical Corps, in which he served as Captain, until 1920, from 1919 as Specialist in Bacteriology. He joined Topley at Charing Cross Hospital as Demonstrator in Bacteriology in 1920 and moved with Topley, first to Manchester as Lecturer in 1923, and then to the recently established London School of Hygiene and Tropical Medicine as Reader in Bacteriology in 1927. In 1930 he was appointed to the Chair of Bacteriology Applied to Hygiene, a post he held until 1947.

Wilson's researches, initially with Topley, encompassed the *Salmonella* group of bacteria, brucellosis and tuberculosis, milk hygiene and the control of diphtheria. Both at Manchester and the London School of Hygiene and Tropical Medicine Topley and Wilson established courses for the Diploma in Bacteriology. Their celebrated text book *Topley & Wilson's Principles of bacteriology and immunity* had its origins in these courses and was written at the invitation of the publisher Edward Arnold to meet the needs of postgraduate students. Continued after Topley's death (in 1944) with A.A. Miles it had reached its seventh edition by 1984.

With the approach of the Second World War Wilson was involved with the planning of the Emergency Public Health Laboratory Service and became its Director in 1941. He continued as Director of the peacetime Public Health Laboratory Service (PHLS) until his retirement in 1963. Run almost singlehanded by Wilson the PHLS as it developed after the war was very much his creation. On retirement he returned to the London School of Hygiene and Tropical Medicine as Honorary Lecturer in Microbiology.

Wilson's scientific achievements were recognised with numerous honours and awards. In 1967 he was awarded the Buchanan Medal of the Royal Society and in 1978 the Society elected him to the Fellowship. He was created a Knight Bachelor in 1962.

For a full account of the life and career of Wilson see the memoir by E.S. Anderson and Sir Robert Williams (*Biographical Memoirs of Fellows of the Royal Society*, 34, 1988).

DESCRIPTION OF THE COLLECTION

The material is presented in the order given in the List of Contents. Although by no means comprehensive there are interesting records of many aspects of his career.

Section A, Biographical, brings together a little material relating to obituaries, tributes, honours and awards. It includes Wilson's account of his First World War experiences and his assessment of his scientific publications.

Section B, Research, although not extensive, provides documentation of a number of Wilson's principal interests including the *Salmonella* group of bacteria and milk hygiene. There are three laboratory notebooks with experimental data covering the period 1919-45.

Section C, Public Health Laboratory Service (PHLS), relates chiefly to the unpublished history written by Wilson after his retirement as Director of the PHLS. There is also a little material relating to laboratory design and equipment and PHLS personnel.

Section D, Lectures and publications, is the most substantial in the collection. There are records of Wilson's lectures for a period of forty years from 1944 and extensive documentation of the later editions of *Principles of bacteriology and immunity*. There are also editorial correspondence and papers relating to the *British Journal of Experimental Pathology* and the *Journal of Hygiene*.

Section E, Societies and organisations, presents documentation of Wilson's association with ten British organisations including the Medical Research Club, Medical Research Council and Veterinary Research Club. The Medical Research Council material relates to the Working Party on Tristan da Cunha which was set up to supervise medical investigations when the inhabitants were evacuated to Britain after the island's volcano erupted in 1961. There is also material relating to the Research Foundation, Chicago which specialised in tuberculosis research and on whose medical advisory committee Wilson served.

Section F, Visits and conferences, documents a number of overseas trips in an advisory capacity for the World Health Organisation including Ethiopia 1964, Iraq 1965,

Iran, Sudan and Egypt 1971 and the Philippines 1972. There are also records of international microbiology congresses.

Section G, Correspondence, is not extensive but includes, nevertheless, a chronological sequence of scientific correspondence 1930-87, Wilson's collection of autograph letters addressed to Topley and himself, and references and recommendations.

Section H, Photographs, presents photographic records of Wilson, colleagues, conferences and PHLS laboratories.

There is also an index of correspondents.

ACKNOWLEDGEMENTS

We are very grateful to Sir Graham's family for making the material available and to Miss Julia Sheppard of the Contemporary Medical Archives Centre for advice and encouragement.

SECTION A

BIOGRAPHICAL

A.1-A.18

- A.1 Obituaries: *The Times*; *Independent* (Sir Robert Williams).

Autobiographical accounts, CVs etc. Includes account of personal experiences in the First World War, list of scientific committees served on, and 'Sir Graham Wilson's Comments on his Publications'.
- A.2 Bibliographies.
- A.3 Application for the title of Professor of Bacteriology as Applied to Hygiene, University of London, 1930.

Letter *re* Emergency Public Health Laboratory Service in the event of war, 29 July 1938.

Distinction Award from 5 July 1948.
- A.4 Bisset Hawkins Medal of the Royal College of Physicians 1956.

Stewart Prize of the British Medical Association 1960.

Hon. LL.D. Glasgow 1962.

Honorary membership of the Czechoslovak Medical Association 1963.
- A.5 Retirement as Director of Public Health Laboratory Service 1963.

Wilson's speeches at retirement dinner and portrait presentation, letters on retirement etc.
- A.6 Buchanan Medal of the Royal Society 1967. Includes letters of congratulation.

- A.7 Honorary Membership of the Pathological Society of Great Britain and Ireland 1969.
- Harben Gold Medal of the Royal Institute of Public Health and Hygiene 1970.
- A.8 'Athenaeum L[andsborough] T[homson] Dinner and other notes on L.T. December 1970'. Contents of folder so inscribed.
- A.9 Honorary Fellowship of the Royal Society of Medicine 1971.
- A.10 80th birthday 1975.
- Includes Wilson's speech at dinner in his honour.
- Honorary Membership of the Society for General Microbiology 1975.
- A.11 Honorary Fellowship of the London School of Hygiene and Tropical Medicine 1976.
- Includes Wilson's speech of thanks on behalf of the Honorary Fellows.
- A.12-A.15 Election to the Fellowship of the Royal Society 1978.
- A.12 Correspondence *re* candidature 1976 and election 1978.
- A.13-A.15 Letters of congratulation.
- A.13 A - G
- A.14 H - M
- A.15 P - Z

A.16 90th birthday 1985.

Includes Wilson's '90th birthday speech at R.C.P.', list of those attending 90th birthday lunch and tribute in *Bulletin* of Royal College of Pathologists January 1986.

A.17 Letter of thanks for 36 years service as University of London's Representative Member of the Lister Institute, 26 July 1986.

A.18 Personal correspondence 1955-77.

SECTION B

RESEARCH

B.1-B.53

- B.1 Black hardback notebook with red tape on spine. Inscribed on flyleaf 'G. Selby Wilson M.D.'
- Records work on bacterial isolates: cultural characteristics. 1919, 1920, 1924, 1925, 1926.
- B.2 Green hardback notebook. Inscribed 'General' on flyleaf.
- Records work 1924-39.
- B.3 Red hardback notebook. Inscribed on front cover 'Miscellaneous Experiments including anthrax spore exps'.
- Records work 1941-45.
- B.4-B.19 'Bacterial Charts. Notes on Resistance to Heat'. Contents of box so labelled.
- B.4-B.7 'Photographs of Salmonella Colonies and Bacilli'. Contents of folder so inscribed divided into four for ease of reference. 1928-29.
- B.8-B.18 'Completed Bacterial Charts and Notes on Resistance to Heat'. Contents of folder so inscribed divided into eleven for ease of reference, c.1928-46.
- B.19 University of London examination booklet used for notes on the literature *re* destruction of pathogenic organisms by heat.
- B.20-B.23 'Statistical Data and Methods'. Contents of envelope so inscribed divided into four for ease of reference: notes, drafts, calculations, data, correspondence, printed matter c.1928-58.

- B.24-B.27 'Standards'. Contents of a folder so inscribed divided into four for ease of reference: notes, drafts, duplicated sheets of instructions etc. including papers on 'Dropping Pipettes and Counts' and 'Care of Normal and Infected Mice'. c.1928-71.
- B.28-B.36 Correspondence and papers *re* milk-borne outbreaks of infection.
- B.28 'Milk outbreaks'. Contents of envelope so inscribed: data on cards and slips of paper. 1932-71.
- B.29, B.30 Copies of Public Health Laboratory Service report forms for food poisoning outbreaks. 1954-61. 2 folders.
- B.31-B.36 'Milk-borne Outbreaks Correspondence'. Contents of a folder so inscribed divided into six for ease of reference. Various dates 1932-53.
- The correspondents are the Ministry of Health, Department of Health for Scotland and Medical Officers of Health.
- B.31 1932, 1934, 1936.
- B.32 1937, 1939.
- B.33 1951.
- B.34 1953.
- B.35, B.36 Miscellaneous data.
- B.37-B.50 Correspondence and papers *re* methylene blue test for milk.
- Correspondents include Ministry of Health, chemical and drug companies and scientific colleagues in Britain and overseas.

- B.37-B.40 'Correspondence on M.B. test'. Contents of folder so inscribed divided into four for ease of reference.
- B.37 1935, 1936.
- B.38 1937. Includes 'Observations on the Methylene Blue Reduction Test' by A.T.R. Mattick, A.E.A., 9 December.
- B.39 1938(1).
- B.40 1938(2), 1939.
- B.41, B.42 'B[ritish] D[rug] H[ouses] Analyses and Correspondence'. Contents of a folder so inscribed divided into two for ease of reference.
- B.41 1935.
- B.42 1936.
- B.43, B.44 'Methylene Blue/Thiocyanate'. Contents of a folder so inscribed divided into two for ease of reference.
- B.43 1936. Includes notes of Ministry of Health meetings on 19 February and 19 May to discuss the standardisation of Methylene Blue for the Methylene Blue test.
- B.44 1937. Includes reports on samples of Methylene Blue tablets.
- B.45, B.46 'Methylene Blue. Standardization of Tablets from Outside Firms'. Contents of a folder so inscribed divided into two for ease of reference.
- B.45 'The Biological Assay of Methylene Blue for use in the Milk Reduction Test' by F.C. Storrs and B.C. Hobbs. 15pp typescript, 1936.
- 'The Biological Standardization of Methylene Blue' by Wilson. 13pp typescript, July 1937.

- B.46 Correspondence with Boots Pure Drug Company Limited, report on sample of Methylene Blue Tablets submitted by Boots, 1937.
- B.47, B.48 'New Sampling Regulations'. Contents of envelope so inscribed divided into two for ease of reference: correspondence and minutes of Ministry of Health meetings on milk sampling procedures 1938.
- B.49, B.50 'Methylene Blue Tablet Contamination'. Contents of envelope so inscribed divided into two for ease of reference.
- B.49 Correspondence and papers *re* possible infection of Methylene Blue Tablets with bacteria 1938.
- B.50 Report on 'Comparison of Heated and Unheated Methylene Blue' by United Dairies Ltd. Central Laboratory, 16 December 1938.
- B.51, B.52 'Calorie Value of Diet'. Contents of envelope so inscribed: manuscript notes on dietary requirements. Includes information on Wilson's own diet 1965, 1968, 1971, 1983.
- 2 folders.
- B.53 Correspondence and papers *re* Wilson's reports to Medical Adviser's Office, Civil Service Department on samples of toilet paper 1970, 1975.
- Includes 'Specimens' 1975.

C.3 'Bench plans', 'Animal Case Racks' 1950, 1951, 1953.

C.4 Miscellaneous 1953, 1960.

C.5, C.6 Contents of Wilson's folder divided into two for ease of reference.

C.5 Lists of equipment, notes on structure and fitting of laboratories, printed matter. Various dates 1951-65.

C.6 Letter and reprint *re* fluorescent lighting in laboratories 1952.

Notes on heating of laboratories and fuel consumption 1958, 1959 and nd.

C.7 'Visits to London Laboratories'. Contents of a folder so inscribed: notes *re* Postgraduate School Hammersmith, Mill Lane and Unigate Central Laboratory 1966 and nd.

PERSONNEL

- C.8-C.10 'Testimonials for PHLS Candidates'. Contents of Wilson's folder so inscribed divided into three for ease of reference.
- C.8 B.
- C.9 G.
- C.10 J, M, P, S.
- C.11, C.12 Miscellaneous correspondence with PHLS personnel.
2 folders.
- C.11 Various dates 1953-85 and nd.
- C.12 1963.

HISTORY OF THE PHLS

In 1967 four years after his retirement as Director of the PHLS Wilson proposed to the Chairman of the PHLS Board (E.T.C. Spooner) 'to gather together some of the miscellaneous pieces of information about the early history of the Service to supplement that which has already appeared in print'. He thought that 'it might be of value to a future historian - say in another 20 or 30 years' time - if some basic information, now buried in files or retained in the memory of a few of the original staff was put down on paper'. See C.13. In June 1970 Wilson deposited 'Some Historical Notes on the Formation and Development of the Public Health Laboratory Service 1938-1963' with the Library of the Central Public Health Laboratory, Colindale. See C.29.

- C.13 Correspondence *re* Wilson's work on the history of the PHLS, 1967-71.
- C.14 List of publications of the Public Health Laboratory Service 1951-60.

- C.15 List of publications of the Public Health Laboratory Service 1961-65.
- C.16 'Boyd-Anderson Controversy over Multiplication of Viruses'. Contents of a folder so inscribed: correspondence, contribution by E.S. Anderson to symposium discussion and reply by Brigadier J.S.K. Boyd 1952.
- C.17 'Landsborough Thomson's Chapter 27 on PHLS'. Contents of folder so inscribed: 24pp 'fair draft' sent to Wilson by Thomson 1 June 1970.
- C.18, C.19 'GSW's notes from Files'. Contents of folder so inscribed divided into two for ease of reference.
- C.20-C.28 'History of PHLS. Memoranda'. Contents of a folder so inscribed divided into nine for ease of reference. Principally Wilson's manuscript drafts; some original documents.
- C.20 Emergency Public Health Laboratory Service. List of '(a) Original Staff, September 1939 (and what became of them)' and '(b) Medical staff appointed during the war'.
- C.21 Miscellaneous documentation *re* history of the PHLS.
Includes:
Wilson's manuscript notes on 'Subjects to be covered'.
Letter appointing Wilson a member of the Emergency PHLS, 6 July 1939.
Letters from W.W.C. Topley 1939, 1940, 1942.
Correspondence with Brigadier J.S.K. Boyd 1948, J.W. Howie 1965 and A.L. Thomson 1971.
- C.22 'Prefatory Note'; 'Public Health Laboratories before the War', etc.
- C.23 'Bacteriological Warfare'; 'Emergency Supplies of Vaccines and Antisera'.

- C.24 'Establishment and Development of the Emergency Public Health Laboratory Service'.
- C.25 'Recognized Laboratories'; 'Headquarters Administration'.
- C.26 'Committees and Working Parties'; 'Publications, Library and Information Services'.
- C.27 'Scientific Work of the Service'.
- C.28 'Appendix to the Section on the Establishment and Development of the Emergency Public Health Laboratory Service'; photocopy of minute from E. Mellanby to Wilson, 10 February 1944, headed 'Dr W.W.C. Topley and the Emergency Public Health Laboratory Service'.
- C.29-C.36 'Historical Notes on the Public Health Laboratory Service June 1970'. Contents of a folder so inscribed divided into eight for ease of reference. Principally Wilson's typescript drafts.
- C.29 Title page 'Some Historical Notes on the Formation and Development of the Public Health Laboratory Service 1938-1963'; Contents; Prefatory Note; Chapter I 'Public Health Laboratories before the War'; Chapter II 'Bacteriological Warfare'; Chapter III 'Emergency Supplies of Vaccines and Antisera'; Chapter IV 'Establishment and Development of the Emergency Public Health Laboratory Service'.
- C.30 Chapter V 'Establishment of a Permanent Public Health Laboratory Service'.
- C.31 Chapter VI 'Headquarters Administration'; Chapter VII 'Scientific Work of the Service'; Chapter VIII 'Committees and Working Parties'; Chapter IX 'Publications, Library and Information Services'.
- C.32 Chapter X 'A Summarized Version of the Structure, Organization, Administration, Scope and Reference Services of the PHLS'.
- C.33, C.34 'Establishment of a Permanent Public Health Laboratory Service'. 2 folders.

- C.35 Annex 5a 'Constituent Laboratories 1939-1964'; Annex 5b 'Associated Laboratories 1939-1959'; Annex 5c 'Recognized Laboratories'.
- C.36 Annex 8 'Principal Committees and Working Parties of the PHLS'; Annex 11 'Index to some of the more important papers relating to the technical and administrative activities of the PHLS 1939-1961'.
- C.37 'Comments on the Report of the DHSS Review of the Public Health Laboratory Service (PHLS) by the professional advisers to the review team: Professor I. Phillips and Dr. R. Blowers' 1985. Found with history of PHLS material.
- C.38 Miscellaneous items found with history of PHLS material.

The Principles of Bacteriology and Immunity

This famous textbook, first published in 1929 with W.W.C. Topley and later continued with A.A. Miles, achieved such reputation and success that by 1984 it had reached its seventh edition. It was universally known as 'Topley & Wilson'.

Although there is a little material relating to earlier editions, especially royalty statements, most of the surviving documentation relates to the 6th and 7th editions of 1975 and 1983-84, respectively. There is also material relating to an 8th edition (unpublished at the time of his death) on which Wilson was serving as consultant editor and contributor on diphtheria and plague.

D.43

'T & W Facts and Figures about the successive editions'. Contents of a folder so inscribed.

MEDICAL RESEARCH COUNCIL

1961-68

Working Party on Tristan da Cunha

The inhabitants of Tristan da Cunha were evacuated and brought to Britain when the island's volcano erupted in October 1961. The opportunity was taken to carry out a number of medical investigations of this small and hitherto isolated community which continued after the islanders' return home in 1963. The Medical Research Council set up a Working Party to plan, co-ordinate and supervise the investigations and Wilson agreed to serve.

- E.32 Invitation to serve on Working Party, and agenda and papers for first meeting, 8 December 1961.

Papers are notes on historical background of islanders and on previous treatments, immunisations etc., list of suggested research topics and possible investigators, and bibliography.

- E.33 Papers probably sent to Wilson for second meeting, 9 January 1962.

Nominal roll of islanders; summary of clinical examinations (up to 4/1/1962); progress report; distribution of samples from islanders at 2/1/1962.

- E.34 Correspondence and papers, January-February 1962.

Includes agenda for second meeting, 9 January with minutes of first meeting; copies of reports to the Colonial Office on the islanders 1944 and 1946; progress reports; agenda for third meeting, 13 February with minutes of second meeting.

- E.35 Correspondence and papers March-May 1962.

Includes agenda for fourth meeting, 27 March with minutes of third meeting; agenda of fifth meeting, 15 May with minutes of fourth meeting; progress report as at 14 May.

- E.36 Correspondence and papers June-December 1962.
- Includes agenda for sixth meeting, 17 July with minutes of fifth meeting; summary of papers to be read at symposium on medical problems presented by the Tristan da Cunha community, 13 December.
- E.37 Correspondence and papers 1963.
- Includes agenda, papers and minutes of seventh meeting 14 June. The papers are proposals for further investigations.
- E.38 Agenda, papers and minutes of eighth meeting 17 July and agenda and minutes of ninth meeting 28 September 1964.
- E.39 Correspondence and papers 1965-66.
- Includes agenda for tenth meeting 28 January 1965; agenda for eleventh meeting 7 April 1966 with minutes of tenth meeting; 1965 progress report; list of publications and paper on research facilities on Tristan da Cunha; minutes of eleventh meeting.
- E.40 Committee papers and reports 1967-68.
- Agenda for twelfth meeting 10 March 1967 with field reports, assessment of MRC survey, nominal roll and list of publications; minutes of twelfth meeting; papers for meeting of discussion group on data storage problems 9 February 1968.
- E.41 Printed matter.

RESEARCH FOUNDATION, CHICAGO

1959-85

Wilson agreed to serve on the Medical Advisory Committee of the Research Foundation in 1959. His principal correspondent is S.R. Rosenthal, the Medical Director of the Foundation and Professor of Preventive Medicine at the University of Illinois. The material largely concerns tuberculosis research and other interests of Rosenthal including cancer prevention and risk exercise.

- E.42 1959-62. Includes memorandum by Rosenthal 'On the control and eradication of tuberculosis in the United States', 1 February 1962.
- E.43 1963-64. Includes minutes of Medical Advisory Committee meeting 13 May 1963.
- E.44 1965-67. Includes report of Medical Advisory Committee meeting 1 June 1965 and draft papers by Rosenthal.
- E.45 1968-69.
- E.46 1970-74. Includes reprints and questionnaires on risk exercise.
- E.47 1975-76.
- E.48 1978-85. Includes reprints on risk exercise.

ROYAL COLLEGE OF PHYSICIANS

Various dates 1959-85

- E.49 Recommendations for Bisset Hawkins medal 1959.
- E.50 Proffit Trust 1962-67.
- E.51 Candidates for membership and fellowship 1963, 1979, 1984-85.

SOCIETY FOR APPLIED BACTERIOLOGY

1972-78

- E.52 Meetings. Includes draft by Wilson 'The Normal Flora of Man: Introduction, general considerations and importance'.

SOCIETY FOR GENERAL MICROBIOLOGY

Various dates 1950-86

E.53 General correspondence and papers.

UNIVERSITY OF SURREY

1977-83

E.54, E.55 'Surrey Food Microbiology Course Correspondence and Minutes'. Contents of a folder so inscribed divided into two for ease of reference.

VETERINARY RESEARCH CLUB

1953-87

See also D.24.

E.56-E.59 Correspondence and papers 1968-1986.

E.56 1968-74. Includes history of Club by I.H. Pattison (reprint).

E.57 1978-80.

E.58 1981-83.

E.59 1984-86.

E.60 Membership cards, Club rules 1953, 1958-60, 1964-87.

SECTION F

VISITS AND CONFERENCES

F.1-F.54

F.1 Visit to Poland, 12-24 March 1949.

Wilson travelled widely in Poland to study laboratory services, visit clinics and sanatoria and talk to various representatives of the medical profession. He travelled to Poland via Czechoslovakia spending a full day in Prague on 25 March.

Manuscript journal, draft report etc.

F.2 Fifth International Congress of Microbiology, Rio de Janeiro, August 1950.

Manuscript journal.

F.3 Visit to Israel, 24 August - 18 September 1952.

Wilson travelled widely in Israel to study laboratory services. He was accompanied from London by Dr. A. Felix.

Manuscript journal; biographical note on Felix.

F.4 Sixth International Microbiological Congress, Rome, September 1953.

Manuscript journal.

F.5 Visit to USA and Canada, November 1953.

In the USA Wilson visited the National Institutes of Health at Bethesda and attended a meeting of the American Public Health Association, and in Canada the Laboratory of Hygiene of the Department of National Health and Welfare Ottawa and the Department of Bacteriology, McGill University Montreal

Manuscript journal.

- F.6 Visit to USA, January 1955.
- Wilson visited the Johns Hopkins School of Hygiene and attended a Conference on the Biology of Poliomyelitis in New York.
- Manuscript journal.
- F.7 Seventh International Microbiology Congress, Stockholm, August 1958.
- Wilson also attended a two day meeting of a WHO Committee on the Collaboration of Public Health Laboratories in Europe held before the Congress.
- Manuscript journal.
- F.8 International Conference on Measles Immunization, Bethesda, Md., 7-9 November 1961.
- Manuscript journal.
- F.9 Visit to Uganda, March 1962.
- Wilson visited Uganda to examine at Makerere.
- Manuscript journal; miscellaneous notes.
- F.10 Eighth International Microbiology Congress, Montreal, August 1962.
- Manuscript journal.
- F.11-F.24 Visit to Ethiopia and Sudan, January-March 1964.
- Wilson went to Ethiopia under the auspices of WHO to advise the Government on the re-organization and development of laboratory services and the training of laboratory personnel, and to the Sudan for the Department of Technical Cooperation to advise on a new Research Institute.
- F.11 Manuscript journal; 'Technical Notes' for Ethiopia and Sudan.
- F.12, F.13 Correspondence *re* arrangements for visit to Ethiopia.

- F.12 1963 October-December.
- F.13 1964 January-February. Includes 'Report on visit to Addis Ababa to discuss arrangements for the proposed Medical School with special reference to Pathology' by O.G. Dodge.
- F.14, F.15 Correspondence arising from visit to Ethiopia.
- F.14 1964 February-November.
- F.15 1965.
- F.16 'Report on the Organization of a Laboratory Service for Ethiopia' by Wilson. Duplicated copy and manuscript draft.
- F.17, F.18 Miscellaneous documentation *re* Ethiopia visit. Includes itineraries.
2 folders.
- F.19 Correspondence *re* arrangements for visit to Sudan September 1963 - February 1964.
- F.20, F.21 Correspondence arising from visit to Sudan.
- F.20 1964 March.
- F.21 1964 April-November, 1965, 1967, 1971.
- F.22 Report on 'Laboratory Services and Research in the Sudan' by Wilson. Manuscript and typescript drafts.
- F.23 Architect's plans for Sudan Medical Research Institute.

- F.24 Miscellaneous documentation *re* Sudan visit. Includes itineraries.
- F.25, F.26 WHO Travelling Seminar in USSR, October-November 1964.
Wilson visited Moscow and Azerbaijan.
- F.25 Manuscript journal.
- F.26 Notebook with more detailed record of places visited and discussions.
- F.27 Visit to Washington D.C., 28 September - 2 October 1965.

Wilson visited Washington to give evidence before a Committee of the House of Representatives on the working of the Cruelty to Animals Act 1876.

Manuscript journal.
- F.28-F.33 Visit to Iraq, November 1965.

Wilson visited Iraq as a WHO short-term consultant to advise on the design and equipment of laboratories at Baghdad and Abu-Ghuraib.
- F.28 Manuscript journal.
- F.29 Correspondence September 1965 - May 1966.
- F.30 Wilson's report; technical notes and drawings.
- F.31 Wilson's laboratory plans.
- F.32, F.33 Background material.

2 folders.

- F.33A Visits to Portugal, April and August 1966.
Manuscript journals.
- F.34, F.35 WHO Travelling Seminar in USSR, August-September 1966.
Wilson visited Moscow and Armenia.
- F.34 Manuscript journal.
- F.35 Notebook with more detailed record of places visited and discussions. Also used for 1968 visit to USSR (Moscow and Alma-Ata, Kazakhstan).
- F.36-F.39 WHO Travelling Seminar of Directors of Health Laboratories, Iran, Sudan and Egypt, November-December 1971.
- F.36 Manuscript journal.
- F.37 Correspondence January 1971 - May 1972.
- F.38 Memorandum by Wilson on 'The training of laboratory staff and the planning of suitable curricula'. Manuscript and typescript drafts.
- F.39 WHO report on Travelling Seminar with Wilson's manuscript notes attached.
- F.40-F.50 WHO Second Regional Seminar on Health Laboratory Services, Manila, Philippines, 5-15 December 1972.

Wilson prepared a seminar paper on the epidemiological activities of a public health laboratory and made a pre-seminar visit to Malaysia. After the Seminar he visited Hong Kong and lectured at the University on food poisoning.
- F.40 Manuscript journal.
- F.41, F.42 Correspondence *re* arrangements.
- F.41 1972 February-September.

- F.42 1972 October-December.
- F.43 Information bulletins, lists of participants and working papers, programme, press release etc. *re* Seminar.
- F.44, F.45 Seminar papers.
2 folders.
- F.46 Typescript draft of Wilson's paper 'The Epidemiological Function of a Microbiological Laboratory', 'amended 20.iv.72'.
- F.47 Miscellaneous manuscript notes.
- F.48, F.49 Drafts for WHO Seminar report.
2 folders.
- F.50 Copy of final report.
- F.51-F.53 Visit to Sudan, July-August 1976.

Wilson was asked to advise the Veterinary Research Administration on epidemiological problems and the development of the service.
- F.51 Manuscript journal.
- F.52 Correspondence May-December 1976.
- F.53 Memorandum by Wilson on the design and structure of bacteriological laboratories; laboratory plans.

F.54

Symposium on Immunization problems in children, Manchester, 10 December 1976.

Wilson spoke on BCG vaccination.

Programme only.
